*Sun Tzu and the Rise of China* Southern Jameson West,2020-12-30 Herein the writer discusses the present rise of China from looking at a specific critical statement made by Sun Tzu in his ancient treatise The Art of War The writer builds on this one particular quote in such a way as to obtain a synthesis for why Mainland China needs so desperately to bring back Taiwan back into the fold Mainland China has for decades claimed that Taiwan is a renegade province and nothing more Mainland China hopes and works desperately on a round the clock daily basis in order to try to convince the rest of the world that this in fact is the case Because of the mainland s unceasing rhetoric often the rest of the world isn t aware of the true state of affairs as on the contrary all Chinese in the world are that in fact Taiwan because of its democratic and open society it therefore is an absolute threat to the state security of mainland China In fact many of Taiwan s open policies date back to the Japanese control of Taiwan from the years of 1895 until the end of WWII This fact is something that mainland China refuses to officially accept and will without hesitation vehemently deny However everyone who knows even some history and has travelled to Taiwan and spent time there can easily figure out The writer has seen it for himself Systemics and reductionism are discussed as part of the analytical framework of this synthesis using Sun Tzu s theory as per several noted writers on the theories of International Relations Mention will be made of how this present mainland policy has in fact seriously eroded the once very sound infrastructure that was once the fundamental social fabric

and framework for Hong Kong leaving many Hong Kong people in serious doubt for their future Ultimately all of this gets put on the front door of the U S A whose position in the world is by this very policy further under an even greater threat Can China out flank the USA in places such as the Pacific and continents such as Africa The outcome remains to be seen But this book will try to consider many of the possible scenarios Notwithstanding what also gets mentioned is the concept of Entropy in trying to analyze international political activity Certain concepts such as the entropy of mixing are use to speculate that historical events cannot easily be stopped once political momentum and policies are put into place The power of the coalition in game theory

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
