## **The April Wars:**

**Women and Militant Wars** Swati Parashar, 2014-03-05 This book explores women's militant activities in insurgent wars and seeks to understand what women do in wars. In International Relations, inter-state conflict, anti-state armed insurgency, and armed militancy are essentially seen as wars where collective violence against civilians and security forces is used to achieve political objectives. Extending the notion of war as politics of injury to the armed militancy in Indian-administered Kashmir and the Tamil armed insurgency in Sri Lanka, this book explores how women participate in militant wars and how that politics not only shapes the gendered understandings of women's identities and bodies but is in turn shaped by them. The case studies discussed in the book offer new comparative insight into two different and most prevalent forms of insurgent wars today: religious-political and ethno-nationalist. Empirical analyses of women's roles in the Sri Lankan Tamil militant group the LTTE and the logistical-ideological support women provide to militant groups active in Indian-administered Kashmir suggest that these insurgent wars have their own gender dynamics in recruitment and operational strategies. Thus, *Women and Militant Wars* provides an excellent insight into the gender politics of these insurgencies and women's roles and experiences within them. This book will be of much interest to students and scholars of critical war and security studies, feminist international relations, gender studies, terrorism, and political violence, South Asia studies, and IR in general.

**EU Diplomacy and the Israeli-Arab Conflict, 1967-2019** Persson Anders Persson, 2020-05-28 Nearly 50 years since the European Foreign Ministers issued their first declaration on the conflict between Israel and Palestine in 1971, the EU continues to have close political and economic ties with the region. Based exclusively on primary sources, this study offers an up-to-date overview of the EU's involvement in the Israeli-Arab conflict since 1967. It utilises an innovative methodology to analyse keyword frequency in a sample of more than 2300 declarations and statements published in the Bulletin of the European Communities, European Union, 1967-2009, as well as council reports and press interviews, 2009-2018, to uncover broad patterns for qualitative analysis. The outcomes suggest that the Israeli-Arab conflict is more important to the EU than any other conflict, having been key to shaping the EU's foreign policy overall.

**Gotham at War** Edward K. Spann, 2002-09-01 *Gotham at War* is an accessible, entertaining account of America's biggest and most powerful urban center during the Civil War. New York City mobilized an enthusiastic but poorly trained military force during the first month of the war that helped protect Washington D.C. from Confederate capture. Its strong financial support for the national government may well have saved the Union. New York served as a center for manpower, military supplies, and shipbuilding. And medically, New York became a center for efforts to provide for sick and wounded soldiers. Yet despite being a major Northern city, New York also had strong sympathy for the South. Parts of the city were strongly racist, hostile to the abolition of slavery, and to any real

freedom for black Americans The hostility of many New Yorkers to the military draft culminated in one of the greatest of all urban upheavals the draft riots of July 1863 Edward K Spann brings his experience as an urban historian to provide insights on both the varied ways in which the war affected the city and the ways in which the city's people and industry influenced the divided nation This is the first book to assess the city's contributions to the Civil War Gotham at War examines the different sides of the city as some fought to sustain the Union while others opposed the war effort and sided with the South This unique book will entertain all readers interested in the Civil War and New York City About the Author Edward K Spann is professor emeritus of history at Indiana State University He is a specialist in nineteenth century history and urban history Spann has authored a number of books including The New Metropolis New York City 1840 1857 and Ideals and Politics New York Intellectuals and Liberal Democracy which was nominated for a Pulitzer Prize

**China and the First Vietnam War, 1947-54** Laura M. Calkins,2013-04-12 This book charts the development of the First Vietnam War the war between the Vietnamese Communists the Viet Minh and the French colonial power considering especially how relations between the Viet Minh and the Chinese Communists had a profound impact on the course of the war It shows how the Chinese provided finance training and weapons to the Viet Minh but how differences about strategy emerged particularly when China became involved in the Korean War and the subsequent peace negotiations when the need to placate the United States and to prevent US military involvement in Southeast Asia became a key concern for the Chinese The book shows how the Viet Minh strategy of all out war in the north and limited guerrilla warfare in the south developed from this situation and how the war then unfolded

**States at War, Volume 4** Richard F. Committee on Military Affairs,1939 **Strategic Assessment in War** Scott Sigmund Gartner,1999-01-01 How do military organizations assess strategic policy in war In this book Scott Gartner develops a theory to explain how military and government leaders evaluate wartime performance how much they change strategies in response to this evaluation and why they are frequently at odds when discussing the success or failure of strategic performance Blending history decision theory and mathematical modeling Gartner argues that military personnel do reevaluate their strategies and that they measure the performance of a strategy through quantitative dominant indicators But different actors within a government use different indicators of success some will see the strategy as succeeding when others see it as failing because of their different dominant indicators Gartner tests his argument with three case studies the British shift to convoys in World War I following the German imposition of unrestricted submarine warfare the lack of change in British naval policy in the Battle of the Atlantic following the German introduction of Wolf Packs in World War II and the American decision to deescalate in Vietnam after the Tet Offensive He also tests his approach in a nonwar situation analyzing the Carter Administration s decision to launch the hostage rescue attempt In each case his dominant indicator model better predicts the observed behavior than either a standard organization or an action reaction approach *World War Veterans' Legislation.
