The Architectural Outsiders:

The Architectural Outsiders, 1985 *The Architectural Outsiders* Roderick Brown, 1985 *The Architectural Outsiders* Roderick Brown, 1985 *Robert Willis (1800-1875) and the Foundation of Architectural History* Alexandrina Buchanan, 2013

The first full scale biography of Robert Willis the founding father of architectural history WINNER of the Cambridge Association for Local History book award 2016 Robert Willis was the archetypal nineteenth century polymath Officially as Jacksonian Professor of Natural and Experimental Philosophy at the University of Cambridge he specialized in the study of mechanism which he also taught at the Royal School of Mines in London In the field of science he was an experimentalist inventor and educational innovator Meanwhile in his spare time he pursued his passion pioneering the serious study of architectural history Initially his work was aimed at architects his role in providing an intellectual underpinning to the contemporary Gothic Revival was acknowledged by the award of the gold medal of the Royal Institute of British Architects in 1862 However his main contribution was more historical Starting with Canterbury in 1844 over the course of his career he investigated almost every English cathedral and developed an approach combining documentary and archaeological research which remains in use today His studies culminated in the monumental *Architectural History of the University of Cambridge* still the definitive account of its subject In this fascinating and lavishly illustrated intellectual biography drawn from extensive archival and architectural research the author sheds new light on the interconnections between Willis's varied fields of interest and his fundamental role in the creation of a discipline ALEXANDRINA BUCHANAN is both an architectural historian and an archivist her introduction to archives came through cataloguing the papers of Robert Willis at the Cambridge University Library She is now Lecturer in Archive Studies at the University of Liverpool

Architects and Intellectual Culture in Post-Restoration England Matthew Walker, 2017-10-20 *Architects Builders and Intellectual Culture in Restoration England* charts the moment when well educated well resourced English intellectuals first became interested in classical architecture in substantial numbers This occurred after the Restoration of the Monarchy in 1660 and involved people such as John Evelyn Robert Hooke Sir Christopher Wren and Roger North Matthew Walker explores how these figures treated architecture as a subject of intellectual enquiry either as writers as designers of buildings or as both In four substantial chapters it looks at how the architect was defined as a major intellectual figure how architects acquired material that allowed them to define themselves as intellectually competent architects how intellectual writers in the period handled knowledge of ancient architecture in their writing and how the design process in architecture was conceived of in theoretical writing at the time In all Walker shows that the key to understanding English architectural culture at the time is to understand how architecture was handled as knowledge and how architects were conceived of as collectors and producers of such knowledge He also makes the claim that architecture was treated as an extremely serious and important area of intellectual enquiry the result of which was that by the turn of the eighteenth century architects and architectural writers

could count themselves amongst England's intellectual and cultural elite **Architecture in Britain, 1530 to 1830** John Summerson, John Newenham Summerson, Sir, 1993-01-01 The author charts the development of architectural theory and practice from Elizabeth I to George IV Questions of style technology and the social framework are resolved as separable but always essential components of the building worlds The Antiquary Kelsey Jackson Williams, 2016-07-28 John Aubrey 1626-1697 antiquary natural philosopher and virtuoso is best remembered today for his Brief Lives biographies of his contemporaries filled with luminous detail which have been mined for anecdotes by generations of scholars However Aubrey was much more than merely the hand behind an invaluable source of biographical material he was also the author of thousands of pages of manuscript notebooks covering everything from the origins of Stonehenge to the evolution of folklore Kelsey Jackson Williams explores these manuscripts in full for the first time and in doing so illuminates the intricacies of Aubrey's investigations into Britain's past The Antiquary is both a major new study of an important early modern writer and a significant intervention in the developing historiography of antiquarianism It discusses the key aspects of Aubrey's work in a series of linked chapters on archaeology architecture biography folklore and philology concluding with a revisionist interpretation of Aubrey's antiquarian writings While covering a wide variety of scholarly territory it remains rooted in the common thread of Aubrey's own intellectual development and the continual interaction between his texts as he studied discovered revised and rewrote them across four decades Its conclusions not only substantially reshape our understanding of Aubrey and his works but also provide new understandings of the methodologies ambitions and achievements of antiquarianism across early modern Europe *Architecture of England, Scotland, and Wales* Nigel R. Jones, 2005-06-30 The British terrain is a gold mine for the student of architecture Ranging in era from ancient times to the present day from Stonehenge to the Millennium Dome this volume's 76 entries include palaces castles bridges churches country houses and various public buildings and monuments as well as such well known features of British architecture and design as terraced houses suburban semi detached houses and public telephone kiosks Detailed yet accessible to nonspecialist readers the alphabetical entries also provide cross references and lists of additional information sources in both print and electronic formats Appendixes list the entries by location architectural style and architect designer explain the defining characteristics of major British architectural styles and discuss the importance of the Crown peerage and Parliament in British architectural history Besides a detailed subject index the volume includes a timeline a general bibliography a glossary of architectural terms and an introduction that traces the development of British architecture from prehistoric and Roman times to the 21st century Written by an associate professor of architecture at Oklahoma State University *Architecture of England Scotland and Wales* part of Greenwood's Reference Guides to National Architecture series presents architectural biographies of these countries most famous and significant structures *Beyond the Architect's Eye* Mary N. Woods, 2013-12-11 Typical architectural photography freezes buildings in an ideal moment and rarely captures what photographer Berenice Abbott

called the medium's power to depict how the past jostled the present In *Beyond the Architect's Eye* Mary N Woods expands on this range of images through a rich analysis that commingles art amateur and documentary photography genres usually not considered architectural but that often take the built environment as their subject Woods explores how photographers used their built environment to capture the disparate American landscapes prior to World War II when urban and rural areas grew further apart in the face of skyscrapers massive industrialization and profound cultural shifts Central to this study is the work of Alfred Stieglitz Frances Benjamin Johnston and Marion Post Wolcott but Woods weaves a wider narrative that also includes Alice Austen Gertrude Kasebier Berenice Abbott Margaret Bourke White Helen Levitt Lisette Model Louise Dahl Wolfe Morgan and Marvin Smith Eudora Welty Samuel Gottscho Walker Evans Max Waldman and others In such disparate places as New York City the rural South and the burgeoning metropolis of Miami these unconventional architectural photographers observed buildings as deeply connected to their context Whereas Stieglitz captured New York as the quintessential modern urban landscape in the period the South was its opposite a land supposedly frozen in the past Yet just as this myth of the Old South crystallized in photographs like Johnston's *A New South* shaped by popular culture and modern industry arose Miami embodied both of these visions In Wolcott's work agricultural fields where stoop labor persisted were juxtaposed with Art Deco hotels a popular modernism of the machine age that remade Miami Beach into a miniaturized Manhattan on the beach *Beyond the Architect's Eye* is a groundbreaking study that melds histories of American art cities and architecture with visual studies of landscape photography and cultural geography **The Architectural Forum**, 1917

Third Parties, Outsiders, and Renegades Melissa M. Smith, 2022-02-07 *Third Parties Outsiders and Renegades* analyzes 10 third party outsider or renegade presidential candidates and explores each one's impact on the political process The list of modern outsider candidates who have attracted the public's attention is fairly long but most of the time the candidates never garner enough support to become elected or they self destruct somewhere along the way A few however have taken votes away from more mainstream candidates and changed the course of political parties or election outcomes This book provides readers with an analysis of how their rhetoric political tactics and issues have challenged the political status quo and impacted later campaigns The future viability of outsider candidates is discussed in light of current political polarization and the legacy of Donald J Trump the first elected outsider president and considers how outsider candidates might be able to compete in upcoming elections given the current political divisions within the nation Scholars and students of communication political science and rhetoric will find this book particularly interesting **The Architect**, 1927 *The Old Rectory* Anthony Jennings, 2018-05-01 A humdinger page turner of a book *The Spectator* that will give great pleasure Country Life *The Old Rectory* examines the history of the English parsonage through the centuries and their many and varied styles of architecture Explore the lives of famous inhabitants and discover the scandals of neglect *The Lustrous Trade* Cinzia Sicca, Alison Yarrington, 2001-01-01 In recent years the Anglo Italian sphere of artistic exchange in relation to painting

has been an increasingly productive area of research Here contributors shift the focus onto the two countries equally significant sculpture trade This volume of selected essays by economic and social historians and historians of material culture and art investigates the varied roles and functions of sculpture and the ways in which this particular cultural exchange was manifested Issues of business and the markets for sculpture are highlighted both in the context of producers of highart and in the wider market of religious garden and decorative sculpture Lancelot Brown and the Capability Men David

Brown,Tom Williamson,2016-08-15 Lancelot Capability Brown is often thought of as the innovative genius who single handedly pioneered a new naturalistic style of landscape design but he was in fact only one of many landscape designers in Georgian England Published to commemorate the three hundredth anniversary of Brown s birth this book casts important new light on his world renowned work his eventful life and the wider and robust world of landscape design in Georgian England David Brown and Tom Williamson argue that Brown was one of the most successful designers of his time working in a style that was otherwise widespread and that it was his skill with this style and not his having invented it that linked his name to it The authors look closely at Brown s design business and the products he offered clients showing that his design packages helped define the era s aesthetic They compare Brown s business to those of similar designers such as the Adam brothers Thomas Chippendale and Josiah Wedgwood and they contextualize Brown s work within the wider contexts of domestic planning and the rise of neoclassicism Beautifully illustrated throughout this book celebrates the work of a master designer who was both a product and harbinger of the modern world **Turin and the British in the Age of the Grand**

Tour Paola Bianchi,Karin Wolfe,2017-09-21 This is an international publication exploring early modern cultural exchange between Britain and Savoy including political diplomatic social religious and artistic trends **Handel** David
