The Architecture Source:

Source Book of American Architecture George Everard Kidder Smith,1996 Scorched Earth is the first book to chronicle the effects of chemical warfare on the Vietnamese people and their environment where even today more than 3 million people including 500 000 children are sick and dying from birth defects cancer and other illnesses that can be directly traced to Agent Orange dioxin exposure Weaving first person accounts with original research Vietnam War scholar Fred A Wilcox examines long term consequences for future generations laying bare the ongoing monumental tragedy in Vietnam and calls for the United States government to finally admit its role in chemical warfare in Vietnam Wilcox also warns readers that unless we stop poisoning our air food and water supplies the cancer epidemic in the United States and other countries will only worsen and he urgently demands the chemical manufacturers of Agent Orange to compensate the victims of their greed and to stop using the Earth s rivers lakes and oceans as toxic waste dumps Vietnam has chosen August 10 the day that the US began spraying Agent Orange on Vietnam as Agent Orange Day to commemorate all its citizens who were affected by the deadly chemical Scorched Earth will be released upon the third anniversary of this day in honor of all those whose families have suffered and continue to suffer from this tragedy

Source Book of American Architecture G.E. Kidder Smith,2000-09 This comprehensive and insightful illustrated survey of 500 of America s most distinguished buildings provides a unique overview of the thousand year architectural development of the United States It examines our nation s architecture from its earliest days to the present ranging from cliff dwellings in Mesa Verde to Frank Lloyd Wright s Robie House in Chicago to James Ingo Freed s Holocaust Museum in Washington Indispensable in any library it also serves as a general introduction to American architecture or as a splendid guide for tourists

Architecture and Globalisation in the Persian Gulf Region Nasser Golzari,2016-04-15 This is the first book ever to examine the architecture and urbanism of the Persian Gulf as a complete entity dealing equally with conditions on the eastern Iranian shoreline as in Arabic countries on the western side By inviting a range of architects and scholars to write about historical

and contemporary influences on 14 cities along both Gulf coastlines the book traces the changes in architecture and human settlement in relation to environmental factors and particularity of place It provides an innovative contribution to the study of architecture and globalisation through a detailed investigation of this particular region investigating how buildings and cities are being shaped as a result A set of thematic essays at the end offer important insights into issues of globalisation urbanism and environmental design drawing from the experience of the Persian Gulf The outcome is a unique record of the Gulf in the early 21st century at a point when global capitalism is making major inroads and yet questions of architectural design climate change ecological sustainability cultural identity and so called Facebook Democracy are likewise shaking up the Middle Eastern region The book thus offers a fresh reading of the architecture and urbanism of a fascinating and often contradictory region while also showing how globalisation can be analysed in a more engaged and integrated manner

Design Research in Architecture Murray Fraser,2021-07-28 What is the role of design research in the types of insight and knowledge that architects create That is the central question raised by this book It acts as the introductory overview for Ashgate s major new series Design Research in Architecture which has been created in order to establish a firm basis for this emerging field of investigation within architecture While there have been numerous architects scholars since the Renaissance who have relied upon the interplay of drawings models textual analysis intellectual ideas and cultural insights to scrutinise the discipline nonetheless until recently there has been a reluctance within architectural culture to acknowledge and accept the role of design research as part of the discourse However in many countries around the world one of the key changes in architecture and architectural education over the last decade has been the acceptance of design as a legitimate research area in its own right and this new series provides a forum where the best proponents of architectural design research can publish their work This volume provides a broad overview on design research that supports and amplifies the different volumes coming out in the book series It brings together leading architects and academics to discuss the more general issues involved in design research At the end there is an Indicative Bibliography which alludes to a long history of architectural books which can be seen as being in the spirit of design research
