**Vernacular Theology** Eliana Corbari, 2013-01-30 This book examines the audiences and languages of Dominican sermons in late medieval Italy It is a thorough analysis of how Latinate theological culture interacted with popular religious devotion In particular it assesses the role of vernacular theology Eliana Corbari defines vernacular theology as a form of theology that is based neither on a Latin scholastic model nor a monastic one It is a third dimension of theology which was accessible to the laity and in particular women through their attendance at sermons and the reading of vernacular devotional works in this case medieval Italian treatises and sermons Through painstaking manuscript work Corbari makes an excellent contribution to sermon studies gender studies medieval theology and codicology She demonstrates that Dominican friars preached to an active contingent of laywomen usually members of confraternities who not only attended these sermons but re read them and also disseminated them through book production to the wider Florentine community      The Culture Broker Margaret Leslie Davis, 2007-08-20 Murphy recognized and supported the social and cultural revolution under way during the tumultuous 1960s and influenced the power elite to accept changing values and to promote diversity Davis s account brings to light the influence of L A s powerful families and chronicles the mixed motives behind large public endeavors Channeling more than one billion dollars into the city s arts and educational infrastructure Franklin Murphy elevated Los Angeles to a vibrant world class city positioned for its role in the new era of global trade and cross cultural arts

BOOK JACKET      **Imagining the Human Condition in Medieval Rome** Kristin B. Aavitsland, 2017-07-05 The first monograph on the Vita Humana cycle at Tre Fontane this book includes an overview of the medieval history of the Roman Cistercian abbey and its architecture as well as a consideration of the political and cultural standing of the abbey both within Papal Rome and within the Cistercian order Furthermore it considers the commission of the fresco cycle the circumstances of its making and its position within the art historical context of the Roman Duecento Examining the unusual blend of images in the Vita Humana cycle this study offers a more nuanced picture of the iconographic repertoire of medieval art Since the discovery of the frescoes in the 1960s the iconographic programme of the cycle has remained mysterious and an adequate analysis of the Vita Humana cycle as a whole has so far been lacking Kristin B Aavitsland covers this gap in the scholarship on Roman art circa 1300 and also presents the first interpretative discussion of the frescoes that is up to date with the architectural investigations undertaken in the monastery around 2000 Aavitsland proposes a rationale behind the conception of the fresco cycle thereby providing a key for understanding its iconography and shedding new light on thirteenth century
