**Qur'anic Hermeneutics** Abdulla Galadari, 2018-08-09 This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) Qur'anic Hermeneutics argues for the importance of understanding the polysemous nature of the words in the Qur'an and outlines a new method of Qur'anic exegesis called intertextual polysemy By interweaving science history and religious studies Abdulla Galadari introduces a linguistic approach which draws on neuropsychology This book features examples of intertextual polysemy within the Qur'an as well as between the Qur'an and the Bible It provides examples that intimately engage with Christological concepts of the Gospels in addition to examples of allegorical interpretation through inner Qur'anic allusions Galadari reveals how new creative insights are possible and argues that the Qur'an did not come to denounce the Gospel which is one of the stumbling blocks between Islam and Christianity but only to interpret it in its own words

Japheth ben Ali's Book of Jeremiah Joshua A. Sabih, 2019-01-15 This volume deals with three themes medieval Judaism Arabic and Hebrew sociolinguistics and Arabic Bible translation Within Medieval Judaism the Karaite Jews became a prosperous community under the banners of Islam One of the most salient signs of the Karaite community's strength and internal cohesion was the extensive scientific contribution that it made to the fields of Biblical studies Hebrew philology and philosophy This book presents for the first time a critical edition of one of the works of the leading Karaite scholars in biblical exegeses and translation Japheth ben Ali's Judaeo Arabic translation of the Book of Jeremiah drawing on five medieval manuscripts As the majority of Karaite works including Bible manuscripts are in Judaeo Arabic relatively few of them have been published A number of the Karaite Bible manuscripts were written in Arabic script resulting in their being neglected by scholars despite the significance of these manuscripts to the history of medieval Judaism and Bible textual Studies The author of this volume focuses on some of the most important issues in the field of sociolinguistics namely language contact diglossia and the status of both Arabic and Hebrew in the medieval Jewish literary system Equally important is the issue of the script in use Hebrew or Arabic which was a major subject of debate among the Rabbinate and the Karaites Indeed the language and the script used in these manuscripts will help us re-evaluate the established theories about the language situation and literary systems in medieval Islamic and Jewish societies The value of translating the Hebrew Bible into Arabic was unparalleled in medieval inter religious scholarship For Muslim scholars it was their only access to the Jewish Bible The contribution of the Karaites to this field is enormous and this work offers us a unique window into the Karaite theory of Biblical hermeneutics

Johan Nicolai Madvig Brigitte Hauger, 1994 **The Imperial Dictionary of the English Language** John Ogilvie, 1883 Language and its Functions Pieter A. Verburg, 1998-08-15 When Pieter Verburg 1905 1989 published *Taal en Functionaliteit* in 1952 the work was received with admiration by linguistic scholars though the number of those who could read the Dutch text for themselves remained limited The title alludes to the theories of linguistic function set out in 1936 by Karl Bühler but Verburg regards the three functions of discourse focussing respectively on the speaker the person addressed and the matter discussed as no more than sub functions of the human function of speech His central concern is to explore the relationships between thought and language and language and reality and the work sets out to provide a historical analysis of views on these relationships in the period 1100 to 1800 The great strength of the work lies in the way in which the views of language are related to contemporaneous moves in philosophy and science contrasting essentially the mediaeval acceptance of authority the beginnings of induction in the Renaissance the dependence of early rationalism on calculation based on axiomatic truths and the further development of independent observation All these trends are reflected in the way men thought about language as well as in the way they used it Much has been written on the history of linguistics since this book was written but it still offers a unique view of the development of thinking about language

**The Linguistic Cycle** Elly van Gelderen, 2023-07-31 Cyclical language change is a linguistic process by which a word phrase or part of the grammar loses its meaning or function and is then replaced by another This can even happen on the level of an entire language which can experience a change in the language family it is a part of This new text is a comprehensive introduction to this phenomenon the mechanisms underlying it and the relations between the different types of cycles Elly van Gelderen reviews the subject widely and holistically defining key terms and comprehensively presenting diverse theoretical perspectives and empirical findings With coverage of a variety of micro cycles and the more controversial macro cycles incorporating cutting edge work on grammaticalization and drawing on examples from many languages and language families this book accessibly guides readers through the state of the art in the field With practical methodological

guidance on how to identify and investigate linguistic cycles and an array of useful pedagogical features the book provides a coherent framework for approaching understanding and furthering research in linguistic cycles This text will be an indispensable resource for advanced students and researchers in historical and diachronic linguistics language typology and linguistic and grammatical theory     *Philological studies* James Stevens (author of *Philological studies.*),1886     *Language and Language Behavior Abstracts* ,1982     *Florilegium Historiographiae Linguisticae* Jan De Clercq,Piet Desmet,1994 Peeters 1994     *The Imperial dictionary, on the basis of Webster's English dictionary* John Ogilvie,1899     **Proceedings of the Philological Society** Philological Society (Great Britain),1850 Vol 6 appendix A dictionary of the Circassian language by L Loewe     **Proceedings of the Philological Society** Philological Society,1850     *Proceedings of the Philological Society* Philological Society (London),1850
