The Anatomy Of A Conflict Afghanistan And 911:

The Anatomy of a Conflict Anand Giridharadas, 2002 Essays by international journalists addressing crucial issues why did the Taliban fall so quickly Can they be written off Can the Northern Alliance reconstruct the country Did the USA win the war against terrorism *The EU, NATO and the Libya Conflict* Stefano Marcuzzi, 2021-12-24 This book explores the causes and implications of the Libyan crisis since the anti Gaddafi uprisings of 2011 from the perspective of the EU and NATO It asks the question of why those organizations failed to stabilize the country despite the serious challenges posed by the protracted crisis to European and transatlantic stakes in the region This book argues that such failure originated in a twofold problem common to both organizations their prioritization of legitimacy over strategy and their path dependence the insufficient degree of adaptation to meet the different needs of the crisis Through a critical and integrated analysis of official sources and extensive interviews with EU NATO UN and national government officials and militaries as well as from NGO personnel Libyan institutions and civil society and media the volume brings the perspective of both state and non state actors to the fore It reveals how wrong assumptions and centrifugal forces within the EU and NATO hampered initiatives and how the inability to use hard power judiciously and effectively in an increasingly complex and multifaceted scenario worsened the crisis This allowed for unprecedented influence of regional and global competitors such as Egypt the United Arab Emirates UAE Turkey and Russia in the richest African country This book will be of key interest for scholars and students of Libya and North Africa NATO the European Union security and conflict studies Middle East studies migration terrorism peacebuilding and more broadly international relations **Blurring Intelligence Crime** Willem Bart de Lint, 2021-03-14 This book explores the conundrum that political fortune is dependent both on social order and big constitutive crime An act of outrageous harm depends on rules and protocols of crime scene discovery and forensic recovery but political authorities review events for a social agenda so that crime is designated according to the relative absence or presence of politics In investigating this problem the book introduces the concepts intelligence crime and critical forensics It also reviews as an exemplar of this phenomenon apex crime a watershed event involving government in the support of a contested political and social order and its primary opponent as the obvious offender which is then subject to a confirmation bias Chapters feature case study analysis of a selection of familiar high profile crimes in which the motives and actions of security or intelligence actors are considered as blurred or smeared depending on their interconnection in transactional political events or according to friend enemy status *Propaganda, Communication and Empire* Sumanth Inukonda, Oliver Boyd-Barrett, Lara Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state's role

in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9 11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions The chapters in the final section re present specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest to students of propaganda studies media and communication studies US foreign policy and international relations The Cambridge Companion to Twenty-First-Century American Poetry Timothy Yu,2021-03-11 A new poetic century demands a new set of approaches This Companion shows that American poetry of the twenty first century while having important continuities with the poetry of the previous century takes place in new modes and contexts that require new critical paradigms Offering a comprehensive introduction to studying the poetry of the new century this collection highlights the new multiple centers of gravity that characterize American poetry today Essays on African American Asian American Latinx and Indigenous poetries respond to the centrality of issues of race and indigeneity in contemporary American discourse Other essays explore poetry and feminism poetry and disability and queer poetics The environment capitalism and war emerge as poetic preoccupations alongside a range of styles from spoken word to the avant garde and an examination of poetry s place in the creative writing era Mudros to Lausanne Briton Cooper Busch,1976-01-01
