The Arabs And Mediaeval Europe:

The Arabs and Mediaeval Europe Norman Daniel,1979 *The Arabs and Mediaeval Europe* Norman Daniel,1975 El propósito de este libro es explorar los vínculos entre los árabes y la Europa medieval Su enfoque consiste en presentar la impresión que dejaron los árabes las reacciones de los europeos y algunas de las ideas que compartían con los árabes utilizando palabras contemporáneas en la medida de lo posible La intención no es indagar en los hechos históricos sino en comprender lo que sucedió en las mentes de los europeos planteándolo no como un medio para juzgar los acontecimientos históricos sino como un fin en sí mismo Se busca explorar cómo percibían el mundo que compartían con los árabes *The Arabs and Mediaeval Europe* Norman Daniel,1986 The Arab Influence in Medieval Europe Dionisius A. Agius,Richard Hitchcock,1994 A collection of essays covering a diverse range of topics with an underlying theme of the contact and the interaction between the Arabs and Europe during the medieval period **European Modernity and the Arab Mediterranean** Karla Mallette,2011-06-06 Over the past decade scholars have vigorously reconsidered the history of Orientalism and though Edward Said's hugely influential work remains a touchstone of the discussion Karla Mallette notes it can no longer be taken as the final word on Western perceptions of the Islamic East The French and British Orientalisms that Said studied in particular were shaped by the French and British colonial projects in Muslim regions nations that did not have such investments in the Middle East generated significantly different perceptions of Islamic and Arabic culture *European Modernity and the Arab Mediterranean* examines Orientalist philological scholarship of southern Europe produced between the mid nineteenth and mid twentieth century In Italy Spain and Malta Mallette argues a regional history of Arab occupation during the Middle Ages gave scholars a focus different from that of their northern European colleagues in studying the Arab world they were not so much looking on a distant and radically different history as seeking to reconstruct the past of their own nations She demonstrates that in specific instances Orientalists wrote their nations Arab history as the origin of modern national identity depicting Islamic thought not as exterior to European modernity but rather as formative of and central to it Joining comparative insights to the analytic strategies and historical genius of philology Mallette ranges from the complex manuscript history of the Thousand and One Nights to the invention of the Maltese language and Spanish scholarship on Dante and Islam Throughout she reveals the profound influences Arab and Islamic traditions have had on the development of modern European culture *European Modernity and the Arab Mediterranean* is an engaging study that sheds new light on the history of Orientalism the future of philology and the postcolonial Middle Ages **Travellers, Intellectuals, and the World Beyond Medieval Europe** James Muldoon,2017-05-15 As the articles reprinted in this volume demonstrate medieval men and women were curious about the world around them They wanted to hear about distant lands and the various peoples who inhabited them Travellers tales factual such as that of Marco Polo and fictional such as Chaucer's famous pilgrimage entertained audiences across Europe Colorful mappamundi placed in churches illustrated these other lands and peoples for

those who could not read Medieval travel literature was not only entertaining however it was also informative generating proto ethnological information about the world beyond Latin Christendom that provided useful guidance for those such as merchants and missionaries who intended to travel abroad Merchants learned about safe travel routes to foreign lands about dangers to be avoided on the roads and at sea about cultural practices that might interfere with their attempts at trade and about products that would be suitable for foreign markets Churchmen read the reports of missionaries to understand the beliefs of Muslims and other non believers in order to debate with them and to learn their languages These articles illustrate how travellers reports in turn shaped the European response to the world beyond Europe and are set in context in the editor s introduction

Christian Identity amid Islam in Medieval Spain Charles L. Tieszen,2013-05-30 In Christian Identity amid Islam in Medieval Spain Charles L. Tieszen explores a small corpus of texts from medieval Spain in an effort to deduce how their authors defined their religious identity in light of Islam and in turn how they hoped their readers would distinguish themselves from the Muslims in their midst It is argued that the use of reflected self image as a tool for interpreting Christian anti Muslim polemic allows such texts to be read for the self image of their authors instead of the image of just those they attacked As such polemic becomes a set of borders authors offered to their communities helping them to successfully navigate inter religious living
