Daim,2011 Understanding the technology dynamics is a required capability in today s technology driven industries This volume focuses on three areas technology assessment technology forecasting and technology diffusion It shows an introduction to different types of assessment methods and applications from different sectors including energy healthcare and communications technology forecasting and foresight and a review of conventional and emerging methods and the diffusion of technologies by exploring adoption of products and services from different sectors Back cover *A Practical Guide to Call Center Technology* Andrew Waite,2002-01-02 Get the

most out of ACDs automatic call distributors and other complex systems in order to boost customer satisfaction and increase sales Includes three ready to use RFPs request for proposals for buying an ACD computer telephony system or recording

**Perspectives in Defense Management** ,1969      **Technology Assessment for New Water Development Projects**  
Virodyne Corporation,1976      **Quantitative Techniques for Research Program Planning in Structural Mechanics**  
National Research Council (U.S.). Ad Hoc Committee on Research Program Formulation in Structural Mechanics,1969      **A practical guide to opportunity assessment methods** Peter Liao,Amy Witsil,2008-02-28 Based on the authors experience a gap is apparent between technology managers needs and opportunity assessment resources Many organizations need a tool for evaluating seed funding or small business investment opportunities but they lack a means for determining what options are available This research report describes several opportunity assessment methods and matches the methods to user types in public and private sector organizations in analyzing technical business and market information for investment and commercialization decisions Organizations that may benefit from this review share a common goal of seeking to strengthen the viability of a new technology venture or capitalizing on their investment in new technology These include venture capitalists who choose investments in early stage technology companies that will return the largest return on investment for their client investors angel investors placing their own money in pet projects public or quasi public new or small business funding agencies and academic and government research and development agencies The authors focus was to evaluate not only the availability of methods but also the associated analysis framework in order to understand which opportunity assessment methods are optimal in supporting various investment objectives and stakeholders This report should also provide individuals in the technology transfer and commercialization community with a succinct useful reference for identifying what methods are available to them and which methods work best in various situations      *Hierarchical Decision Modeling* Tugrul U. Daim,2015-07-25 This volume developed in honor of Dr Dundar F Kocaoglu aims to demonstrate the applications of the Hierarchical Decision Model HDM in different sectors and its capacity in decision analysis It is comprised of essays from noted scholars academics and researchers of engineering and technology management around the world This book is organized into five parts Technology Policy Planning Strategic Technology Planning Technology Assessment Application Extensions and Methodology Extensions Dr Dundar F Kocaoglu is one of the pioneers of multiple decision models using hierarchies and creator of the HDM in decision analysis HDM is a mission oriented method for evaluation and or selection among alternatives A wide range of alternatives can be considered including but not limited to different technologies projects markets jobs products cities to live in houses to buy apartments to rent and schools to attend Dr Kocaoglu s approach has been adopted for decision problems in many industrial sectors including electronics research and development education government planning agriculture energy technology transfer semiconductor manufacturing and has influenced policy locally nationally and internationally Moreover his students developed advanced tools and software

applications to further improve and enhance the robustness of the HDM approach Dr Kocaoglu has made many contributions to the field of Engineering and Technology Management During his tenure at Portland State University he founded the Engineering and Technology Management program where he served as Program Director and later Department Chair He also started the Portland International Conference on Management of Engineering and Technology PICMET which organizes an annual conference in international locations such as Korea Turkey South Africa Thailand and Japan His teaching has won awards and resulted in a strong sense of student loyalty among his students even decades later Through his academic work and research Dr Kocaoglu has strongly supported researchers of engineering management and has provided tremendous service to the field This volume recognizes and celebrates Dr Kocaoglu s profound contributions to the field and will serve as a resource for generations of researchers practitioners and students

**Management, a Continuing Literature Survey with Indexes** ,1969 **A Practical Guide to Price Index and Hedonic Techniques** Ana M. Aizcorbe,2014-06-12 This book provides an accessible guide to price index and hedonic techniques with a focus on how to best apply these techniques and interpret the resulting measures One goal of this book is to provide first hand experience at constructing these measures with guidance on practical issues such as what the ideal data would look like and how best to construct these measures when the data are less than ideal A related objective is to fill the wide gulf between the necessarily simplistic elementary treatments in textbooks and the very complex discussions found in the theoretical and empirical measurement literature Here the theoretical results are summarized in an intuitive way and their numerical importance is illustrated using data and results from existing studies Finally while the aim of much of the existing literature is to better understand official price indexes like the Consumer Price Index the emphasis here is more practical to provide the needed tools for individuals to apply these techniques on their own As new datasets become increasingly accessible tools like these will be needed to obtain summary price measures Indeed these techniques have been applied for years in antitrust cases that involve pricing where economic experts typically have access to large granular datasets

**Forecasting Intelligence: A Practical Guide to Predicting Success** Pasquale De Marco,2025-03-07 In a world characterized by constant change and uncertainty the ability to accurately predict future events has become an invaluable asset Forecasting Intelligence A Practical Guide to Predicting Success is your comprehensive roadmap to navigating the complexities of forecasting empowering you to make informed decisions and seize opportunities in an ever shifting landscape This book is not just a collection of technical methods and theories it s an invitation to develop a forecasting mindset that embraces uncertainty cultivates critical thinking and values the power of collaboration Through engaging case studies and real world examples Forecasting Intelligence brings the world of forecasting to life demonstrating its practical applications across diverse fields Whether you re a business leader seeking to anticipate market trends a policymaker aiming to mitigate risks or an individual planning for the future this book offers invaluable insights into the art and science of forecasting Discover the secrets of successful forecasters learn from both
