Technology and Human Values Bruce O. Watkins, Roy Meador, 1977 *Technology and Human Values* Bruce O. Watkins, Roy Meador, 1977 **Energy Abstracts for Policy Analysis**, 1983 **Technology and Values in American Civilization** Stephen H. Cutcliffe, Judith Adams-Volpe, Christine Roysdon, 1980 *Energy* Joseph Russell Rudolph, 1995 A road map for the novice researcher contemplating the broad field affected by and concerned with energy Canadian Intellectuals, the Tory Tradition, and the Challenge of Modernity, 1939-1970 Philip Massolin, 2015-05-27 In this well researched book Philip Massolin takes a fascinating look at the forces of modernization that swept through English Canada beginning at the turn of the twentieth century Victorian values agrarian religious and the adherence to a rigid set of philosophical and moral codes were being replaced with those intrinsic to the modern age industrial secular scientific and anti intellectual This work analyses the development of a modern consciousness through the eyes of the most fervent critics of modernity adherents to the moral and value systems associated with Canada's tory tradition The work and thought of social and moral critics Harold Innis Donald Creighton Vincent Massey Hilda Neatby George P Grant W L Morton Northrop Frye and Marshall McLuhan are considered for their views of modernization and for their strong opinions on the nature and implications of the modern age These scholars shared concerns over the dire effects of modernity and the need to attune Canadians to the realities of the modern age Whereas most Canadians were oblivious to the effects of modernization these critics perceived something ominous far from being a sign of true progress modernization was a blight on cultural development In spite of the efforts of these critics Canada emerged as a fully modern nation by the 1970s Because of the triumph of modernity the toryism that the critics advocated ceased to be a defining feature of the nation's life Modernization in short contributed to the passing of an intellectual tradition centuries in the making and rapidly led to the ideological underpinnings of today's modern Canada **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1978 **One World or Many** Richard Tiplady, 2003-06-01 This book considers in detail the key drivers of globalization its contemporary shape and its implications for world mission It also looks at the impact of globalization on different contemporary issues affecting mission such as ethnicity the environment and global health as well as globalization's effect on more traditional missionary questions of the world religions contextualization theology and the church One World or Many is written by a variety of authors from all over the world This book was published in partnership with the World Evangelical Alliance *Selected Library Acquisitions* United States. Department of Transportation, *Nuclear is Not the Solution* M.V. Ramana, 2024-07-30 NUCLEAR POWER WILL SLOW OUR RESPONSE TO CLIMATE CHANGE AND INCREASE THE RISK OF WEAPONS PROLIFERATION AND CATASTROPHE THE CLIMATE CRISIS has propelled nuclear energy back into fashion Its proponents argue we already have the technology of the future and that it only needs perfection and deployment Nuclear Is Not the Solution demonstrates why this sort of thinking is not only naive but dangerous Even beyond

the horrific implications of meltdown and the intractable problem of waste disposal nuclear is not practicable on such a large scale Any appraisal of future energy technology depends on two important parameters cost and time Nuclear fails on both counts It is more costly than its renewable competitors wind and solar And importantly given the need for rapid transformation it is slow A plant takes a decade to come online If you include permits and fundraising this adds another decade And we should not forget the deep roots it has in the defense industry M V Ramana s powerful book destroys any illusion that nuclear is our answer to climate change untangling technical arguments into simple and sensible language Importantly Nuclear Is Not the Solution also unmasks the powerful groups with vested interests in the maintenance of the status quo currently working hard to greenwash a spectacularly dirty industry **Optical Spectra** ,1978 **Isis**
