about this exquisite art form **Lincoln Hall at the University of Illinois** John Hoffmann, 2024-03-18 Lincoln Hall at the University of Illinois named to commemorate the centennial of Abraham Lincoln's birth has long been a familiar landmark on the Urbana Champaign campus and the home for undergraduate and graduate work in the liberal arts and communication. Funded by the Illinois State Legislature in 1909, the building was dedicated in 1913 on Lincoln's birthday, February 12. In addition to its function as space for offices, classrooms, and departmental libraries, Lincoln Hall was commissioned, designed, and built to convey the wisdom and patriotism of the democracy of learning. That spirit of freedom and equality in education was manifest in Lincoln Hall's artistic design, which features terra cotta panels depicting Lincoln's life, quotations from his writings, and portraits of prominent figures of his day. At the outset of the building's conception, Evarts B. Greene, professor of history and dean of the College of Literature and Arts, provided detailed information about Lincoln that defined the building's artistic program. Wishing to retain the dignified simplicity of the overall design, he conferred with W. Cary Zimmerman, the State Architect, about the nature and placement of the panels and other ornamental details that have become key features of the building's design. Commemorating the bicentennial of Lincoln's birth, this magisterial volume chronicles the history of Lincoln Hall from its conception to its expansion and its present role on the campus. John Hoffmann identifies each of the building's historical panels and the portraits of Lincoln's contemporaries. Lavishly illustrated to show how much care was taken with the details of the design, this book provides a lasting historical record of the building's century-long place at the University of Illinois. Supported by the Office of the Chancellor of the University of Illinois at Urbana Champaign **In the Arts and Crafts Style** Barbara Mayer, 1992-10 Since its birth at the turn of the century, the Arts and Crafts style, an aesthetic that encompasses furniture, fabrics, tiles, lighting, fixtures, and pottery, has innovated home design. Each chapter of this lovely volume, illustrated with some 150 color photos by Rob Gray, examines a different facet of this aesthetic, beginning with its European origins and proceeding to American classics, including California's Mission style. Includes a source listing of dealers, auctioneers, and artisans associated with the style. 91 2x11 1/4 Annotation copyrighted by Book News, Inc. Portland, OR

Wright on Exhibit Kathryn Smith, 2022-07-12 The first history of Frank Lloyd Wright's exhibitions of his own work, a practice central to his career. More than one hundred exhibitions of Frank Lloyd Wright's work were mounted between 1894 and his death in 1959. Wright organized the majority of these exhibitions himself and viewed them as crucial to his self-presentation, as his extensive writings. He used them to promote his designs, appeal to new viewers, and persuade his detractors. Wright on Exhibit presents the first history of this neglected aspect of the architect's influential career. Drawing extensively from Wright's unpublished correspondence, Kathryn Smith challenges the preconceived notion of Wright as a self-promoter who displayed his work in search of money, clients, and fame. She shows how he was an artist-architect projecting an avant-garde program, an innovator who expanded the palette of installation design as technology evolved, and a social activist driven to revolutionize society through design. While Wright's earliest exhibitions were largely for other architects by the

1930s he was creating public installations intended to inspire debate and change public perceptions about architecture The nature of his exhibitions expanded with the times beyond models drawings and photographs to include more immersive tools such as slides film and even a full scale structure built especially for his 1953 retrospective at the Guggenheim Museum Placing Wright s exhibitions side by side with his writings Smith shows how integral these exhibitions were to his vision and sheds light on the broader discourse concerning architecture and modernism during the first half of the twentieth century Wright on Exhibit features color renderings photos and plans as well as a checklist of exhibitions and an illustrated catalog of extant and lost models made under Wright s supervision Metropolitan Review ,1990 **American Art Pottery** Charles Hosmer Morse Museum of American Art,Alice Cooney Frelinghuysen,1995 **The Arts & Crafts Collector's Guide** Suzanne Sliker,David Rudd,2005 Packed with insider information this is the ultimate field guide for Arts and Crafts collectors interested in acquiring art pottery furniture metalworking and lighting Lost Twin Cities Larry Millett,1992 1993 American Institute of Architects International Architecture Book Award **American Art Pottery** David Rago,1997 Explores the characteristics and unique features of the main pottery studios in the U S **20th Century Decorative Arts** Sotheby's (Firm),1994 **The Magazine Antiques** ,1989-10 American Art Directory National Register Publishing,2007-12 Warman's American Pottery and Porcelain Susan D.
