**Philanthropists and Foundation Globalization** Joseph Kiger, 2017-07-28 The modern American foundation as an instrumentality for charitable and philanthropic giving is in many ways a unique and complex social economic political institution This is particularly the case for foundations with large assets As a social phenomenon the foundation has deep roots in the past At the beginnings of any degree of civilization charitable giving and rudimentary forms of foundations emerge This is the case in many regions of the world The pattern is consistent once enough property or wealth beyond primitive human needs is accumulated some of it begins to be set aside for what the donors of such wealth consider worthwhile purposes The serious literature contributing greatly to public perception of philanthropy and foundations has been relatively sparse Much of what is available is quantitative and statistical in nature There has been limited objective attention to the motives or reasons spurring individual philanthropists to engage or not to

engage in creating foundations such motivation needs historical and comparative analysis Major investigations and studies of foundations together with ancillary national regional and international organizations to facilitate such study have received spotty consideration Philanthropists and Foundation Globalization addresses three interrelated aspects of foundation history First it reviews biographical historical profiles of the founding philanthropists and their heirs engaged in international giving Second it discusses major governmental and non governmental investigations and studies of foundations including domestic ones and also foreign ones in which U S participants have played a prominent role spanning the period 1912 to the present Third it chronicles foundation developments and activities in Europe at the close of the twentieth century The volume provides a historical account of some U S foundations international activity in a particular region in a specific time period and their a

*Bill Gates Speaks* Janet Lowe, 2001-01-19 Our slogan from the very beginning was a computer on every desk and in every home For me to become gun shy might require surgery An icon more powerful than anything on a Windows screen Bill Gates today stands atop his fabled Microsoft fortress staring down competitors threats and injunctions from an annoyed U S Justice Department The kind of success Gates has created rarely escapes criticism And Bill is getting more than his share The story of how this Harvard dropout created the operating system that would become the worldwide standard for millions of computers is legendary And equally legendary has been the take no prisoners tactics of his corporate colossus Microsoft We've witnessed Gates's transformation from a geeky wunderkind into a business titan Whether admired or detested glorified or vilified Gates is a household name and a worldwide curiosity *Bill Gates Speaks* discloses what Bill Gates has to say on everything from financing a start up to running a conglomerate developing technology to raising a family and growing his business to expanding his personal wealth Drawing on quotes culled from speeches articles essays newscasts and interviews this unique book weaves all of this information into a compelling and easy to read biography Here is just a sample of what you'll find inside My parents weren't all that excited about their son announcing he was dropping out of a fine university to start a business in something almost nobody had heard of called microcomputers I think business is very simple Profit Loss Take the sales subtract the costs you get this big positive number The math is quite straightforward I envy people who thrive on three or four hours of sleep a night They have

so much more time to work learn and play We never waste a lot of time talking about what we re doing well It just isn t our culture Every meeting is about Sure we won in seven of the categories but what about that eighth category The PC industry is the model industry in the entire economy The rate of innovation the openness all of these things are just fantastic And Microsoft s role in creating this has been absolutely fundamental The world listens when Bill gates speaks I m not competent to judge his technical ability but I regard his business savvy as extraordinary If Bill had started a hot dog stand he would have become the hot dog king of the world Warren Buffett It is still possible to be a Vanderbilt an Astor a Rockefeller You can still do that you can be Bill Gates David Geffen Everybody is waiting for this guy to slip He hasn t slipped and there s very little chance that he will Everything that he keeps his hands in will work and he will win Alan Kerr Ogilvy Mather Love him or hate him but you can t ignore him Fortune *Christian Nation?* T. Adams Upchurch,2010-05-26 This fascinating study examines America s complex and confusing history of arguing with itself over religion and secularism God and politics church and state Hundreds of books are devoted to the ever timely subject of the separation of church and state in America but none does exactly what Christian Nation The United States in Popular Perception and Historical Reality does Unlike other studies this intriguing examination asks the right questions defines the terms of the debate explores the widely diverging points of view with equal respect for all sides and provides insightful commentary and factual conclusions that cut through the clutter The book begins with several questions Is the United States a Christian Nation Has it ever been Was it ever meant to be What did the Founding Fathers say How has this issue been interpreted by various individuals and factions over the centuries The author then surveys the vast literature on this topic including the U S Constitution and Declaration of Independence and the competing and or complimentary views of various Founding Fathers to arrive at the answers and at long last the truth

arts majors have gone on to find lucrative and fulfilling careers and anyone can do it by following Asher's advice. If you're just graduating you'll learn to promote the skills you already have, recognize how employers hire and what skills they value most and get influential people to help you. Or if you're already in the work world you'll learn to use internships, credential programs, post-baccalaureates and grad school to jump start a stalled career.
