Teddy Gets Lost Babies For Bab:

Taming the Lost Prince & Keeping Her Baby's Secret Raye Morgan, 2012-05-01 An experienced fighter pilot Max Arragen became a hero and then a prince. He had no desire to celebrate his long lost royal status but he accepted it until it was suggested he should marry. Kayla Mandrake was brought in to tame the new prince but she didn't expect it to be Max, her late husband's best friend. The same man whose baby she had after a reckless unforgettable night of passion. How could she face him again and tell him the truth about their child?

Motherhood Lost Linda L. Layne, 2014-02-04 Nearly 20% of all pregnancies in the U.S. end in miscarriage or stillbirth. Yet pregnancy loss is seldom acknowledged and rarely discussed. Opening the topic to a thoughtful and informed discussion, Linda Layne takes a historical look at pregnancy loss in America, reproductive technologies, and the cultural responses surrounding miscarriage. Examining both support groups and the rituals they create to help couples through loss, her analysis offers valuable insight on how material culture contributes to conceptions of personhood. A fascinating examination, *Motherhood Lost* is also a provocative challenge to feminists and other activists to increase awareness and provide necessary support for this often hidden but critically important topic.

Measuring Attachment Everett Waters, Brian E. Vaughn, Harriet Salatas Waters, 2021-05-04 This volume provides an in-depth examination of traditional and emerging measures of attachment behavior and representations from infancy to adulthood. Leading authorities share their expertise on the Strange Situation, the Attachment Q set, Ainsworth's Maternal Sensitivity Scales, the Adult Attachment Interview, the Attachment Script Assessments, and the Adult Attachment Projective Picture System, as well as analogue and experimental methods. The book clarifies the conceptual and empirical underpinnings of the various measures and shows how they fit into a coherent developmental framework. Offering detailed discussions of key constructs such as attachment security, the secure base phenomenon, disorganization, and narrative structure, this is a valuable resource for both researchers and practitioners who use attachment assessments in their work.

This inspiring book shows how Early Years staff can support the best possible practice for children under three and their families whilst making use of the limited funding available. Promoting the idea of infants as powerful learners, the authors focus on 0-3 years as the vital first phase of education and care which can require a very specific pedagogical approach. They discuss the principles that underpin the practice of working with the youngest children, the critical nature of highly effective pedagogical practice and the important role of family workers in building relationships with parents and the extended family. *Working with Children Aged 0-3 and Their Families* explores the challenges and responsibilities of working with young children and communicates the Pen Green approach. Pen Green has become a focal point for Early Years professionals due to its outstanding Early Years provision. The innovative approach chronicled in this book will encourage practitioners to research their own practice and use the outcomes to create a radical, unique and yet highly effective provision for infants, toddlers and their families. The book will be of interest to Early Years professionals, foundation and undergraduate students and early childhood educators. *Rights of Children, 1972* United States. Congress. Senate. Committee on Labor and Public Welfare. Subcommittee on Children and Youth, 1972. *How Children Grieve* Corinne Masur, 2024-07-09. Understand how children process grief at every age and stage of development in this accessible guide for parents and caretakers. An award-winning childhood grief expert shares clinically informed advice for supporting kids and teens through difficult times, from family deaths and lost pets to unexpected moves and beyond. A necessary and impactful guide to understanding children's grief from the inside and to guiding children through loss, from the death of a parent and other family members to the loss of friends, pets and even the family home. Dr Masur, an award-winning clinical psychologist specializing in grief and mourning, describes how to understand, help and guide children at each age and stage of development and uses her own childhood experience with loss through empathetic yet clinically informed advice. When Dr Masur was fourteen years old, her father died. Like most children and teens facing loss, Masur didn't know how to handle her grief and she was never encouraged to acknowledge or share what she was feeling with her family, teachers or friends. Her experience of shock and emotional paralysis around her loss is what led her to become an expert in childhood grief in order to help grieving children and to help others to support the children in their lives who have experienced loss. As a psychologist and child psychoanalyst, Dr Masur has helped many children recognize and express their feelings after loss. In *How Children Grieve*, Masur shares her expertise with caregivers of all kinds, giving them the tools they need to help a child or teenager mourn, move forward and make meaning of terrible loss. **White Male Infant** Barbara D'Amato, Dr Dooley McSweeney and his wife Claudia dearly love the son they adopted from Russia four years ago.
