Spellbound Marcia Montenegro, 2013-08-05 Our culture is saturated with the supernatural TV shows such as *Medium Charmed* and *Lost* all have an otherworldly theme Most of them blur the lines between good and evil This past year was a record year for Hollywood in the production of films that dealt with the supernatural paranormal While we choose our entertainment our kids don't often have the luxury of choosing whether to be exposed to these things at school This book seeks to present a lucid and comprehensive examination of the paranormal and occult by breaking down the principles of paranormal practices giving key points about the practices so that parents can readily identify them The book discusses the occult view of supernatural energy and of good and evil and how these concepts are seen in some popular literature and movies The book also explains the dangers and gives a biblical basis for concern Christian parents need to be equipped to discuss these matters with their children

Multidimensional Healing Carol Dignam, 2024-12-06 Multidimensional

Healing offers a holistic physical psycho spiritual model of healing While the current global healthcare system biomedical allopathy is well suited to support physical healing using objective methods such as drugs it ceased to be well suited to support subtle energetic psycho spiritual healing when its subjective method of psychoanalytic regression was displaced by drugs The author Carol Dignam discovered an ancient narrative describing both physical and psycho spiritual healing in traditional myths When Hero myths describe men using weapons to kill bad guys to heal the kingdom they are describing how allopathic doctors use drugs to kill germs to heal the body When Heroine myths describe weavers meditatively ravelling and unravelling disharmonious threads until the weaving is magical they are describing how meditators unravel psychic trauma until the psyche is harmonious When both myths describe magical beings supporting the journey they are describing the psychic and spiritual parts supporting healing In search of a meditation supporting holistic physical psycho spiritual healing like the heroines of old the author began weaving together the cross cultural subjective healing methods of shamanic journeying meditation prayer and regression until a universal somatic meditation shone through Likewise in search of an archetypal system that accurately described the psychic parts supporting psychic integration the author wove together the cross cultural archetypal systems until the second golden thread of a universal archetypal system shone through Like the Greek myth of Ariadne whose golden thread led Theseus safely through the labyrinth of his psyche the first golden thread was designed to lead the reader through their psychic labyrinth while the second illuminates the psychic parts therein supporting healing

THOUGHT FORMS AND HALLUCINATIONS Chidambaram Ramesh, 2014-02-27 In recent times the subject of consciousness has emerged as an important paradigm of scientific investigation and research despite most of its concerns having roots in philosophy religion and occultism What is consciousness What is the substance of consciousness Is it material or immaterial mortal or immortal How is it connected with a body Has it a particular seat in any particular body as the brain does Is consciousness synonymous with mind Is it eternal and non local These questions have interested thinkers for many centuries It is the object of this book to demonstrate through a series of cases reported across the world at various times relating to many curious mind related phenomena like the creation of mental entities the imprints of indelible images on the human body stigmata birthmarks and bodily deformities corresponding to the injuries sustained in the previous life thought photography materialization experiments etc that Human mind can bring into being thought forms and can exteriorize them giving them some objective consistency There can be continuity of thoughts even after the destruction of the physical brain These psychic entities are sometimes given a kind of autonomy so that they may act and seemingly think without the consent or even knowledge of their creator The book does not stop with the mere reproduction of recorded cases and just messaging the dimension of the problem but extends over to solve it by suggesting a bio holographic theory of body and mind The book is alike novel fun filled profound and useful thus affording the blend of interest and instruction which cannot fail to render it interesting to the inquisitive and candid mind
