anyone who has ever thrilled to the sight of a rare bird In Flight Paths Darryl McGrath weaves together science politics personal struggle and the emotional gravity of permanent loss into poignant tales of survival She reminds us that our actions and determination can have a huge impact on birds and other wildlife that make their homes in the Adirondack Park She brings a fresh perspective to modern conservation efforts and reminds us why birds matter in our everyday lives Anyone who loves the Adirondack Park or just appreciates wild places will enjoy reading this book William C Janeway Executive Director Adirondack Council Not since David R Zimmerman s To Save a Bird in Peril has there been a popular book on rare and endangered birds so well researched and documented as this one McGrath writes the story of the remarkable restoration of our national bird in New York a saga that is largely the story of a few unique people who devoted their lives to this endeavor She writes similar stories about the peregrine falcon the common loon the Bicknell s thrush and the short eared owl emphasizing the special problems and solutions for each species Anyone interested in the details of what it takes to save rare or endangered species from extinction should read this sympathetic and well written book Tom J Cade Founding Chairman and Director The Peregrine Fund In Flight Paths Darryl McGrath tells the compelling story of New York s legacy as a national and international innovator in modern bird conservation In an engaging style that often reads more like a novel than typical historical reporting she focuses on the successful efforts to save the peregrine falcon and bald eagle from extinction in the Lower 48 states Her conversations and field experience with the dedicated scientists and conservationists whose tireless efforts brought these magnificent birds back from the brink bring a rare depth and richness to the narrative The pioneering work described in this well told tale give some hope that when courageous and innovative scientists simply refuse to take no for an answer seemingly intractable problems will yield Kenneth P Able editor of Gatherings of Angels Migrating Birds and Their Ecology *A Year in the Wonderland of Birds* Francis Blake Atkinson,1925 Forest and Stream ,1903 **Just How Dumb Do You Think I Am?** Samuel Goodwin,2008-03 Just How Dumb Do You Think I Am Makes you ask yourself this question When scientists and scholars are trying to push their theories and ideas off on you This book contains some of the Lords answers to them With cross references in the Bible that prove out the validity of the word of God and its references to the everyday Life we live and about prophecies coming to pass and about creation verses evolution It tells some of the problems I have encountered and some of the people around me It dispels evolution and what a lot of scientists are saying about the big bang theory It tells about a vision the Lord gave me about Spiritual dreams that I had these things only God could know about God brought me back to life six times He also inspired me to write this book You will not be disappointed Samuel H Goodwin was born in 1942 in Aztec New Mexico In the early sixties he served his country in the Armed Forces stationed in South Korea and Fort Polk Louisiana As a born again Christian Mr Goodwin worked as a Union Industrial Asbestos Insulator on electric generating powerhouses across the United States spreading the Gospel of Jesus Christ to his fellow employees as he felt guided by the Lord Many times he has felt the protection and guidance of Christ in his travels
