Guides to Library Collection Development

John Thomas Gillespie,Ralph J. Folcarelli,1994-08-15 Intended to enhance collection development in school public and college libraries this volume lists and annotates approximately 1 500 significant bibliographies published from 1985 through 1993 with some earlier but still useful publications Annotations indicate scope of the work size often the number of entries kinds of material included purpose arrangement nature of entries indexes special features and a recommendation Author title and subject indexes provide easy access to the entries With its deep and comprehensive coverage this work will help not only in the process of selecting and acquiring materials for the library but also in the process of identification of items for reference readers advisory interlibrary loan and collection evaluation

Sustainable Diets Pamela Mason,Tim Lang,2017-03-27 How can huge populations be fed healthily equitably and affordably while maintaining the ecosystems on which life depends The evidence of diet s impact on public health and the environment has grown in recent decades yet changing food supply consumer habits and economic aspirations proves hard This book explores what is meant by sustainable diets and why this has to be the goal for the Anthropocene the current era in which human activities are driving the mismatch of humans and the planet Food production and consumption are key drivers of transitions already underway yet policy makers hesitate to reshape public eating habits and tackle the unsustainability of the global food system The authors propose a multi criteria approach to sustainable diets giving equal weight to nutrition and public health the environment socio cultural issues food quality economics and governance This six pronged approach to sustainable diets brings order and rationality to what either is seen as too complex to handle or is addressed simplistically and ineffectually The book provides a major overview of this vibrant issue of interdisciplinary and public interest It outlines the reasons for concern and how actors throughout the food system governments producers civil society and consumers must engage with un sustainable diets
