Congress. House. Committee on the Judiciary. Subcommittee on Crime, Terrorism, and Homeland Security,2010      Beyond Empiricism Joan McCord,2017-10-19 Beyond Empiricism expands the discourse on theories of criminal behavior It considers institutional social and individual issues related to criminal behavior while individually each raises questions about the adequacy of current theoretical claims

The topics have significant implications both for policy and research in criminology Per Olof Wikstrom introduces a cross level action theory of crime He suggests that better understanding of causal mechanisms can lead to a situational theory of action based on perception of alternatives and the process of choice David Wolcott and Steven Schlossman provide new perspectives on the issues of racial disparity and the incarceration of adolescents in adult prisons These authors highlight gaps in our understanding of early twentieth century juvenile justice and negate some popular claims about recent changes in the criminal law Peter Grabosky spotlights privatization policies in the criminal justice system suggesting a framework for analyzing the balance of advantage resulting from three basic forms of institutional relationships in policing Steven Messner and Richard Rosenfeld discuss why institutional analysis has been seriously underdeveloped in etiological analyses of crime Jordan Pederson and Matthew Shane scrutinize the concept of aggression Their descriptions of aggressive behavior among non human animals provide a fascinating backdrop for understanding human actions Joan McCord emphasizes the intentionality of crimes as she argues that to understand what causes crime one must have a theory about what it means to act intentionally After critically appraising prior theories McCord introduces and defends a new theory of motivation based on a post empiricist theory of language This latest volume in the distinguished *Advances in Criminological Theory* series continues to add to the theoretical underpinnings of the field and will be important to all collections of social science research on criminology

*When Medicine Goes Awry* Juanne Nancarrow Clarke, 2022-01-27 Medical error often results in disability pain and suffering and it is the third leading cause of death in hospitals Despite its frequency medical error has been largely invisible to the mainstream public Within the medical system itself medical error is often understood as the result of an isolated case of malpractice When *Medicine Goes Awry* argues that the causes of medical error are not an anomaly but rather the outcome of a number of factors at play ranging from political to social to economic When *Medicine Goes Awry* dismisses the common blame perspective associated with medical malpractice instead asserting that medical error is and will continue to be inevitable given the relentless and expanding processes of medicalization Shedding light on the ways these forces lead to medicine going awry the book examines seven well known cases of medical error Taking an in depth look at both patients and medical care providers Juanne Nancarrow Clarke offers a novel approach to medical error or mishap that applies sociological research and theory to the larger societal forces contributing to a taxing and endemic medical problem
