Teenagers' Perspectives on the Role of Religion in their Lives, Schools and Societies. A European Quantitative Study Pille Valk, Gerdien Bertram-Troost, Markus Friederici, Céline Béraud, 2009 Religion is on the European agenda again The secularisation paradigm has lost its explanatory power and the newly coined term post secularism is used to describe the realisation that in the current social transformation religion cannot be ignored any longer The quantitative study presented in this book is part of the research effort by the REDCo project REDCo is the abbreviation for Religion in Education A contribution to Dialogue or a Factor of Conflict in Transforming Societies of European Countries The project brought together nine research teams from eight European countries England Estonia France Germany The Netherlands Norway Russia and Spain The research involved interdisciplinary cooperation between specialists in the different academic fields of education religious education sociology political science anthropology psychology theology and religious studies The book offers valuable interpretations and

inspirations on the question how the students in the 14-16 year age group in Europe see the relevance of religions for dialogue and conflict in their daily lives in the school environment and in society as a whole. The young respondents of the quantitative study are clearly aware that the diversity of religious and non-religious worldviews is the reality of the European contexts they have to manage within. Most of them are convinced that religion must be addressed in schools as it is too important as a factor in social life and for the coexistence of people from different cultural and religious backgrounds throughout Europe to be ignored.

Talking with Your Kids about God Natasha Crain, 2017-10-17 Christian parenting is hard work and it's getting harder. Parents have a deep desire to pass on their faith but fear that today's increasingly skeptical and hostile world will eventually lead their kids to reject the truth of Christianity. That leaves many parents feeling overwhelmed, uncertain of what they can do to help their children given the difficulty and extent of the faith challenges they will face. This practical and timely resource gives parents the confidence of knowing what to discuss with their children and how to discuss it in order to facilitate impactful conversations that will form the basis of a lifelong faith. In a friendly parent-to-parent voice, Natasha Crain identifies 30 specific conversations about God that parents must have with their children, organizing them under the categories of the existence of God, science and God, the nature of God, believing in God, the difference God makes. Chapters are sequenced in a curriculum-oriented way to provide a cumulative learning experience, making this book a flexible resource for use in multiple settings: homes, church classes, youth groups, small groups, private Christian schools, and homeschools. Every chapter has a step-by-step conversation guide with discussion questions and tips, and content is readily adaptable for use with kids of any age, elementary through high school.

Endorsements: My prayer is that God will use this book to both motivate and equip you to help your kids develop convictions about their faith. From the foreword by Sean McDowell, PhD, Biola University professor, speaker, and author of more than eighteen books, including *A New Kind of Apologist*. I can't think of a more relevant or more needed book for parents raising kids in today's culture. This book on apologetics will lead parents in critical conversations that will help grow and guide kids to be lifelong followers of Christ. Kristen Welch, author of *Raising Grateful Kids in an Entitled World*. Hey parents, do you want to reduce the chances that your child will follow the crowd to the point of rejecting Christ and the values and truths you hold so dearly? Then you need to have the conversations that Natasha Crain so brilliantly describes in this book. Prevent heartbreak later by reading and heeding this book now. Frank Turek, PhD, president of CrossExamined Ministries and author of *I Don't Have Enough Faith to Be an Atheist* and *Stealing from God*. May this book lead to thousands more Moms and Dads engaging with their kids through an intelligent faith. And may there be tens of thousands more kids who feel loved because the adults in their lives take their questions seriously. Jeff Myers, PhD, president, Summit Ministries.

The National Study of Youth and Religion asserts that instead of consequential faith most American teenagers practice Moralistic Therapeutic Deism a superficial low commitment self serving spirituality that seems to characterize many American churches Dean believes that churches must

recover a missional mindset the conviction that we are not here for ourselves and that consequential faith begins by helping teenagers parents and congregations reclaim de centering practices like translation testimony and spiritual detachment what the mystics called the ability to focus on God and others instead of ourselves Drawing on a major national study this volume argues that the Church has failed to instill genuine religious passion in American teenagers **Facing "The Talk"** Wendy Elizabeth Chapin,2015-09-25 What are we teaching our daughters about sex Professor Elizabeth Chapin inspires you to have open conversations about sex that will prepare your girls to make healthy wise and informed choices Give them more than a set of rules about sex instead offer them an alternative imagination that reframes what Western media culture defines sex to be **Guest Pass: Access To Your Teen's World** Yumi Bryana Cha,2011 Guest Pass Access To Your Teen s World gives you a back stage entry to tour your teen s world It is co written by a mother psychologist and daughter high school junior who discuss topics relevant to today s teenage culture from multiple perspectives This book explores parent teen issues related to the use of social network media body art emotional distress substance use and more Although the specifics of parents adolescents and their relationships are unique there are common challenges that arise during this developmental stage Guest Pass Access to Your Teen s World provides theoretical analysis and clinical research to facilitate your understanding of your teenagers Each chapter also includes exercises for self assessment questions to explore with your adolescents and practical suggestions on how to apply what you have learned By increasing your knowledge you will be better equipped to build healthier relationships with your teens Soul Searching : The Religious and Spiritual Lives of American Teenagers Christian Smith Dr William R Kenan Jr Professor of Sociology University of Notre Dame,Candidate University of North Carolina Melina Lundquist Denton Ph.D, Chapel Hill USA,2005-01-25 In innumerable discussions and activities dedicated to better understanding and helping teenagers one aspect of teenage life is curiously overlooked Very few such efforts pay serious attention to the role of religion and spirituality in the lives of American adolescents But many teenagers are very involved in religion Surveys reveal that 35% attend religious services weekly and another 15% attend at least monthly 60% say that religious faith is important in their lives 40% report that they pray daily 25% say that they have been born again Teenagers feel good about the congregations they belong to Some say that faith provides them with guidance and resources for knowing how to live well What is going on in the religious and spiritual lives of American teenagers What do they actually believe What religious practices do they engage in Do they expect to remain loyal to the faith of their parents Or are they abandoning traditional religious institutions in search of a new more authentic spirituality This book attempts to answer these and related questions as definitively as possible It reports the findings of The National Study of Youth and Religion the largest and most detailed such study ever undertaken The NYSR conducted a nationwide telephone survey of teens and significant caregivers as well as nearly 300 in depth face to face interviews with a sample of the population that was surveyed The results show that religion and spirituality are indeed very significant in the lives of

many American teenagers Among many other discoveries they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought They refute the conventional wisdom that teens are spiritual but not religious And they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes This eagerly awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but because teenagers serve as bellwethers for possible future trends it affords an important and distinctive window through which to observe and assess the current state and future direction of American religion as a whole
