Robert Rauschenberg and Surrealism Gavin Parkinson, 2023-03-23 The art of Robert Rauschenberg 1925 2008 is usually viewed as quite distinct from Surrealism a movement which the artist himself displayed some hostility towards However Rauschenberg had a very positive reception among Surrealists particularly across the period 1959 69 In the face of Rauschenberg's avowals of his own literalism and insistence on his art as facts this book gathers generous evidence of the poetic metaphorical allusive associative and connotative dimensions of the artist's oeuvre as identified by Surrealists and thus extrapolates new readings from Rauschenberg's key works on that basis By viewing Rauschenberg's art against the expansion of the cultural influence of the United States in Europe in the period after the Second World War and the increasingly politicized activities of the Surrealists in the era of the Algerian War of Independence 1954 62 Robert Rauschenberg and Surrealism shows how poetic inference of the artist's work was turned towards political interpretation By analysing Rauschenberg's art in the context of Surrealism and drawing from it new interpretations and perspectives this volume simultaneously situates the Surrealist movement in 1960s American art criticism and history

The Archaeology of Foucault Stuart Elden, 2022-12-01 On 20 May 1961 Foucault defended his two doctoral theses on 2 December 1970 he gave his inaugural lecture at the Collège de France Between these dates he published four books travelled widely and wrote extensively on literature the visual arts linguistics and philosophy He taught both psychology and philosophy beginning his explorations of the question of sexuality Weaving together analyses of published and unpublished material this is a comprehensive study of this crucial period As well as Foucault's major texts it discusses his travels to Brazil Japan and the USA his time in Tunisia and his editorial work for Critique and the complete works of Nietzsche and Bataille It was in this period that Foucault developed the historical philosophical approach he called archaeology the elaboration of the archive which he understood as the rules that make possible specific claims In its detailed study of Foucault's archive the book is itself an archaeology of Foucault in another sense both excavation and reconstruction This book completes a four volume series of major intellectual histories of Foucault Foucault's Last Decade was published by Polity in 2016 Foucault The Birth of Power followed in 2017 and The Early Foucault in 2021 Discipline and Practice Stefan Herbrechter, Ivan Callus, 2004 Has theory become resistible Has it betrayed its promise and sold out on its practice Should theory after having become a discipline still lay claims on the radical or should it embrace its establishment within the university What future's could theory have if there is disagreement about its presents and its past's and what and how should it from now proceed to read Foucault 2.0 Eric Paras, 2020-01-14 A dramatically new interpretation of the development of the thought of Michel Foucault one of the 20th century's most influential thinkers In this lucid and groundbreaking work Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised Foucault's critical axes of power and knowledge which purposefully eradicated the concept of free will reappear as targets in his later work Paras demonstrates the logic that led Foucault to move from a microphysics of power to an aesthetics of individual experience He is the first to show a transformation that not only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists Foucault 2.0 draws on the full range of the philosopher's writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault's published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the Collège de France for more than a decade At the same time Foucault 2.0 highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike *The Strategy of Maoism in the West* Jones, David M., Smith, M. Cacheiro,2022-03-03 Posthuman Worlds Roberto Bola o s Narrative and Virtual Reality presents interpretations of several novels and one short story by Roberto Bola o As befits the global setting of most of these narratives they are analyzed from the perspective of global culture and politics Particular attention is paid to transnational European politics as this topic is central to an understanding of the intertwined themes of politics and the law in Bola o s work In Distant Star and Labyrinth these themes exist within the context of a preoccupation with personal identity and ideology Adolfo Cacheiro utilizes psychoanalytic interpretation and philosophical exegesis to clarify the subjective component of this preoccupation in the aforementioned texts The law is also a prominent theme of *The Savage Detectives* which Cacheiro interprets in relation to mythology One of the most innovative aspects of this book is the discussion of the role of virtual reality in *Amulet* and *2666* These novels are read as representations of a posthuman world that manifest an intertextual relationship with science fiction In *2666* virtual reality unifies the diverse components of a world system in time and space A phenomenological investigation of this reality supports the conclusion that the principle subject matter of *2666* is a naturalistic theology based on technology

The nouveau roman and Writing in Britain After Modernism Adam Guy, 2019-12-10

The nouveau roman and Writing in Britain After Modernism recovers a neglected literary history. In the late 1950s, news began to arrive in Britain of a group of French writers who were remaking the form of the novel. In the work of Michel Butor, Marguerite Duras, Robert Pinget, Alain Robbe-Grillet, Nathalie Sarraute, and Claude Simon, the hallmarks of novelistic writing—discernible characters, psychological depth, linear chronology—were discarded in favour of other aesthetic horizons. Transposed to Britain's highly polarized literary culture, the nouveau roman became a focal point for debates about the novel. For some, the nouveau roman represented an aberration and a pernicious turn against the humanistic values that the novel embodied. For others, it provided a route out of the stultifying conventionality and conformism that had taken root in British letters. On both sides, one question persisted: given the innovations of interwar modernism, to what extent was the nouveau roman actually new? This book begins by drawing on publishers' archives and hitherto undocumented sources from a wide range of periodicals to show how the nouveau roman was mediated to the British public. Of central importance here is the publisher Calder Boyars and his belief that the nouveau roman could be enjoyed by a mass public. The book then moves onto literary responses in Britain to the nouveau roman, focusing on questions of translation, realism, the end of empire, and the writing of the project. From the translations of Maria Jolas through to the hostile responses of the circle around C. P. Snow and onto the literary debts expressed in novels by Brian W. Aldiss, Christine Brooke-Rose, Eva Figs, B. S. Johnson, Alan Sheridan, Muriel Spark, and Denis Williams, the nouveau roman is shown to be a central concern in the postwar British literary field.

Theoretical Schools and Circles in the Twentieth-Century Humanities Marina Grishakova, Silvi Salupere, 2015-04-10

Schools and circles have been a major force in twentieth-century intellectual movements. They fostered circulation of ideas within and between disciplines, thus altering the shape of intellectual inquiry. This volume offers a new perspective on theoretical schools in the humanities, both as generators of conceptual knowledge and as cultural phenomena. The structuralist, semiotic, phenomenological, and hermeneutical schools and circles have had a deep impact on various disciplines, ranging from literary studies to philosophy, historiography, and sociology. The volume focuses on a set of loosely interrelated groups with a strong literary, linguistic, and semiotic component but extends to the fields of philosophy and history, the interdisciplinary conjunctions arising from a sense of conceptual kinship. It includes chapters on unstudied or less studied groups such as Tel Aviv School of poetics and semiotics or the research group Poetics and Hermeneutics. The volume presents a significant supplement to the standard historical accounts of literary, critical, and related theory in the twentieth century. It enhances and complicates our understanding of the twentieth-century intellectual

and academic history by showing schools and circles in the state of germination dialogue controversy or decline in their respective historical and institutional settings while reaching simultaneously beyond those dense settings to the new cultural and ideological situations of the twenty first century *Modern French Philosophy* Vincent Descombes, 1980 A critical introduction to modern French philosophy from one of the liveliest contemporary practitioners
