## **Television A Challenge To The Psychoanalytic Establishment:**

**Television** Jacques Lacan, 1990 An essential work for anyone wishing to understand the institutionalization of Freudian thought and the challenge Lacan represents as he answers the most frequently asked questions about his theory and practice  
Photographs *Jacques Lacan and the Freudian Practice of Psychoanalysis* Dany Nobus, 2013-01-11 Jacques Lacan and the Freudian Practice of Psychoanalysis paints a completely new picture of the man and his ideas The book succeeds in showing how ideas can become more accessible and re evaluates his significance within the field of psychodynamic psychotherapy The book is structured thematically around five key issues diagnosis the analyst's position during the treatment the management of transference the formulation of interpretations and the organisation of analytic training For each of these issues Lacan's entire work both published and unpublished material has been taken into account and theoretical principles have been illustrated with clinical examples The book also contains the first complete bibliography of Lacan's works in English Clear detailed and wide ranging Jacques Lacan and the Freudian Practice of Psychoanalysis will prove essential reading not only for professionals and students within the fields of psychology and psychiatry but for all those keen to discover a new Lacan *Critique of Psychoanalytic Reason* Dany Nobus, 2022-04-27 The highly arcane wisdom produced by the French psychoanalyst Jacques Lacan is either endlessly regurgitated and recited as holy writ by his numerous acolytes or radically dismissed as unpalatable nonsense by his equally countless detractors Contrary to these common strictly antagonistic yet uniformly uncritical practices this book offers a meticulous critique of some key theoretical and clinical aspects of Lacan's expansive oeuvre testing their consistency examining their implications and investigating their significance In nine interrelated chapters the book highlights both the flaws and the strengths of Lacan's ideas in areas of investigation that are as crucial as they are contentious within as well as outside psychoanalysis Drawing on a vast range of source materials including many unpublished archival documents it teases out controversial issues such as money organisational failure and lighthearted gay thinking and it relies on the highest standards of scholarly excellence to develop its arguments At the same time the book does not presuppose any prior knowledge of Lacanian psychoanalysis on the part of the reader but allows its readership to indulge in the joys of in depth critical analysis trans disciplinary creative thinking and persistent questioning This book will appeal to researchers and students alike in psychoanalytic studies and philosophy as well as all those interested in French theory and the history of ideas **Knowing Nothing, Staying Stupid** Dany Nobus, Malcolm Quinn, 2013-02-01 Why is stupidity sublime What is the value of a dialectics of ignorance for analysts and academics Knowing Nothing Staying Stupid draws on recent research to provide a thorough and illuminating evaluation of the status of knowledge and truth in psychoanalysis Adopting a Lacanian framework Dany Nobus and Malcolm Quinn question the basic assumption that knowledge is universally good and describe how psychoanalysis is in a position to place forms of knowledge in a dialectical relationship with non knowledge blindness ignorance and stupidity The book draws out

the implications of a psychoanalytic theory of knowledge for the practices of knowledge construction acquisition and transmission across the humanities and social sciences The book is divided into two sections The first section addresses the foundations of a psychoanalytic approach to knowledge as it emerges from clinical practice whilst the second section considers the problems and issues of applied psychoanalysis and the ambiguous position of the analyst in the public sphere Subjects covered include The Logic of Psychoanalytic Discovery Creative Knowledge Production and Institutionalised Doctrine The Desire to Know versus the Fall of Knowledge Epistemological Regression and the Problem of Applied Psychoanalysis This provocative discussion of the dialectics of knowing and not knowing will be welcomed by practicing psychoanalysts and students of psychoanalytic studies but also by everyone working in the fields of social science philosophy and cultural studies

*Zizek's Ontology* Adrian Johnston, 2008-03-19 By taking this avowal seriously Adrian Johnston finally clarifies the philosophical project underlying i ek s efforts

*The Four Lacanian Discourses* Jeanne Lorraine Schroeder, 2008-08-18 This book proposes a taxonomy of jurisprudence and legal practice based on the discourse theory of Jacques Lacan In the anglophone academy the positivist jurisprudence of H L A Hart provides the most influential account of law But just as positivism ignores the practice of law by lawyers even within the academy the majority of professors are also not pursuing Hart s positivist project Rather they are engaged in policy oriented scholarship that tries to explain law in terms of society s collective goals or in doctrinal legal scholarship that does not try to describe what law is or to supply justifications for it but which examines the internal logic of law Lacan s discourse theory has the power to differentiate the various roles of the practicing lawyer and the legal scholar It is also able to explain the striking lack of communication between diverse schools of legal scholarship and between legal academia and the legal profession Although extremely influential in Europe and South America Lacanian theory remains largely unexplored in the English speaking world outside of the field of comparative literature In taking up the jurisprudential ramifications of Lacan s work *The Four Lacanian Discourses* thus constitutes an original contribution to current theoretical and practical understandings of law

*Lacan - The Unconscious Reinvented* Colette Soler, 2018-04-17 This book focuses on Lacan s revisions and renewals of psychoanalytic concepts and shows the ways in which Lacan succeeded in the reinvention of psychoanalysis It explores those steps that led him to assert an unprecedented formula that says against all expectation that the unconscious is real

**Lacan and Marx** Pierre Bruno, 2019-08-13 *Lacan and Marx The Invention of the Symptom* provides an incisive commentary on Lacan s reading of Marx mapping the relations between these two vastly influential thinkers Unlike previous books Bruno provides a detailed history of Lacan s reading of Marx and surveys his references to Marx in both his writings and seminars Examining Lacan s key argument that Marx invented the symptom Bruno shows how Lacan went on to criticize Marx and contrasts Marx s concept of surplus value with Lacan s surplus enjoyment Exploring the division between Marxist and psychoanalytic perspectives on social and psychological need and Lacan s formalisation of the capitalist discourse the book compares the

positions of Althusser Deleuze and Guattari and i ek on the relations between Lacan Marx and capitalism using a wide range of cultural examples from Stevenson s Dr Jekyll and Mr Hyde to Brecht s Joan Dark and Pierpont Mauler Through these readings Bruno also elaborates an extended commentary on Lacan s central idea of the division of the subject His focus is not only on showing how we can exit from capitalism but also and just as importantly on showing how we can make capitalism exit from us This book will be of great interest to scholars and readers of Lacan and Marx from across the fields of psychoanalysis philosophy and political economy and will also appeal to Lacanian psychoanalysts in clinical practice

Irrepressible Truth Adrian Johnston,2017-09-19 This book offers readers a uniquely detailed engagement with the ideas of legendary French psychoanalyst Jacques Lacan The Freudian Thing is one of Lacan s most important texts wherein he explains the significance and stakes of his return to Freud as a passionate defence of Freud s disturbing epoch making discovery of the unconscious against misrepresentations and criticisms of it However Lacan is characteristically cryptic in The Freudian Thing The combination of his writing style and vast range of references renders much of his thinking inaccessible to all but a narrow circle of scholarly specialists Johnston s Irrepressible Truth opens up the universe of Lacanian psychoanalysis to much wider audiences by furnishing a sentence by sentence interpretive unpacking of this pivotal 1955 essay In so doing Johnston reveals the precision rigor and soundness of Lacan s teachings Dead Subjects Antonio Viego,2007-11-01 Examines how Lacanian theory lends itself to a new way of thinking about ethnic racialized subjectivity applying it to notions of Latino a subjectivity and experience in particular *The Vestal and the Fasces* Jeanne Lorraine Schroeder,2023-11-15 In this feminist exploration of the erotics of the marketplace Hegel s notion of property and Lacan s idea of the phallus serve parallel functions in creating the subjectivity necessary for self actualization Subjectivity requires intersubjective relationships mediated through a regime of possessing enjoying and exchanging an object of desire For Hegel this regime is property for Lacan it is sexuality symbolized by the Phallus which we conflate with the male organ and the female body Property law in Jeanne Schroeder s account is implicitly figured by similar anatomical metaphors for that which men wish to possess and that which women try to be and enjoy This is reflected in imagery taken from ancient Rome the axe and bundle of sticks known as the Fasces and the virgin priestess called the Vestal Schroeder traces the persistence of phallic metaphors in modern jurisprudence Rejecting the dominant schools of legal feminism she reconceptualizes property the legal relationship as well as its not necessarily material object as a necessary moment in the human struggle for love and recognition The Feminine for Schroeder is the radical negativity at the heart of both Lacan s split subject and Hegel s concept of freedom Feminine emancipation and private property are therefore equally necessary conditions for the actualization of the free individual and the just society Feminist scholars social theorists political scientists philosophers and lawyers will find in Schroeder s analysis scintillating new perspectives on property theory and the feminine within the market and the law In this feminist exploration of the erotics of the marketplace Hegel s notion of property and Lacan s idea of the

phallus serve parallel functions in creating the subjectivity necessary for self actualization Subjectivity requires intersubjective relationality

**Reading the Impossible** Elizabeth Weed, 2024-05-07 Reading the impossible has never seemed less possible A few decades ago critical readings could view the collapse of foundationalism optimistically With meaning no longer soldered onto being there was hope for all those beings whose meaning had been forever ordained by Nature or the Divine Critical reading thus became a way of exploring the devious workings of knowledge and power But as non foundational systems of meaning have proven to be so perfectly suited to the transactional logics of the market reading for the impasses of meaning has come to be seen as quixotic impractical and dated To concur with that view Elizabeth Weed argues is to embrace the fantasy told by the neoliberal order To read the impossible is to disrupt that fantasy with its return to stable categories of marketable identity in order to contest the inexorable workings of misogyny and racism This book seeks to disturb the positivity of identity in the hope of retrieving the impossibility of sexual difference an impossibility that has its effects in the Real of misogyny A return to the famous debate between Derrida and Lacan on the impossibility of sexual difference yields two different readings of the impossible In reconsidering these questions Weed shows how the practice of reading can powerfully stage the wiles of language and the unconscious In returning to that earlier moment in the context of current debates on the role of reading and interpretation Weed offers a fresh perspective on what is at stake for critical reading in the neoliberal university

**Infinite Greed** Adrian Johnston, 2024-05-14 Selfishness is essential to capitalism or so both advocates and opponents claim In Infinite Greed Adrian Johnston argues that this consensus is mistaken Through a novel synthesis of Marxism and psychoanalysis he reveals how the relentless pursuit of profits is not fundamentally animated by human acquisitiveness Instead capitalism's strange infinite greed demands that individuals sacrifice their pleasures their well being and even themselves to serve inhuman capital Johnston traces the mechanisms that compel capitalist subjects to obey the cold imperative to accumulate in perpetuity and without limits and also without regard for the consequences for everyone and everything else Facing crises such as spiraling wealth inequality and the profit driven prospect of a looming ecological apocalypse the rational self interest of the majority would seem to dictate putting a stop to capitalist accumulation By bringing together the Marxian critique of political economy with psychoanalytic metapsychology Johnston shows why and how capitalism rather than being responsive to people's rationally selfish interests disregards and overrides them instead Unlike previous syntheses of Marxism and psychoanalysis Infinite Greed pairs Freudian and Lacanian concepts with the economic heart of Marx's historical materialism In so doing Johnston brings to light the complex intertwining of political and libidinal economies keeping us invested and complicit in perpetuating capitalism and its ills

**First Love** Sigi Jottkandt, 2010 First Love A Phenomenology of the One takes seriously literature OCOs repeated attestations of a One in its stories poems and plays entitled First Love With this groundbreaking work JAttkandt suspends the contemporary philosophical stricture against every idea of a whole to unmask the figure concealed behind the psychoanalytic

myth of first love      Drama Trauma Timothy Murray, 2013-11-05 In this engaging cross disciplinary study Timothy Murray examines the artistic struggle over traumatic fantasies of race gender sexuality and power Establishing a retrospective dialogue between past and present stage and video Drama Trauma links the impact of trauma on recent political projects in performance and video with the specters of difference haunting Shakespeare's plays The book provides close readings of cultural formations as diverse as Shakespearean drama the Statue of Liberty contemporary plays by women African American performance and feminist interventions in video performance and installation The texts discussed include installations by Mary Kelly and Dawn Dedeaux plays by Ntozake Shange Rochelle Owens Adrienne Kennedy Marsha Norman and Amiri Baraka performances by Robbie McCauley Jordan Orlan and Carmelita Tropicana stage film and video productions of King Lear Othello Romeo and Juliet and All's Well that Ends Well      **Comedy and Critical Thought** Iain MacKenzie, Fred Francis, Krista Bonello Rutter Giappone, 2018-03-13 Throughout history comedians and clowns have enjoyed a certain freedom to speak frankly often denied to others in hegemonic systems More recently professional comedians have developed platforms of comic license from which to critique the traditional political establishment and have managed to play an important role in interrogating and mediating the processes of politics in contemporary society This collection will examine the questions that arise when of comedy and critique intersect by bringing together both critical theorists and comedy scholars with a view to exploring the nature of comedy its potential role in critical theory and the forms it can take as a practice of resistance      **Key Concepts of Lacanian Psychoanalysis** Dany Nobus, 2020-10-13 By detailing the constitutive incompleteness of the Lacanian project the contributors have guaranteed the success of their book which will remain a major reference for a long time to come Joan Copjec      The Switch Image Lorenz Engell, 2021-04-22 Television is the most powerful system of images in the late 20th and early 21st centuries Nonetheless TV has attained only little philosophical attention so far especially compared to other visual media such as film This book looks at TV as what happens on the screen and beyond it which is mainly the operation of switching images It therefore proposes a new definition of TV as the first picture that can be switched on off and over which stresses that TV is more tactile than visual Through the operation of switching TV figures the world from within and as the course of its figuration This is grasped here by the term of ontography Through the ongoing interlacing and bridging of TV 1.0 the image is being switched and TV 2.0 the image is a switch TV exponentially increases the production and circulation of images It transforms the world and itself from an analogue state to a digital one and from central perspectivism to pluri perspective In terms of time through switching and the switch it develops and reworks new temporal orderings such as instantaneity synchronicity flow and seriality TV makes its own history In space it creates a mediasphere as its habitat and hence new forms of being in the world of proximity and distance and scale Anthropologically it works on what a subject and an object is on what makes the human being and ontographically how it is possible that there is something at all instead of nothing through switch images      **A Theology of the Church for the**

**Third Millennium** Kenan B. Osborne, Rev Kenan Osborne, 2009 At the beginning of the new millennium the Christian Churches are in a process of renewal The Roman Catholic Church since Vatican II has been in a major stage of renewal Contemporary globalization multi cultural interrelationships and inter religious dialogues have presented serious challenges to these renewal efforts In this volume I want to offer to the Catholic Renewal and from there to other denominational renewals a view of the church from the rich tradition of Franciscan philosophy and theology To date there are only a few books which include small essays on this theme This volume presents an in depth Franciscan approach to ecclesiology

Subversive Symmetry George Young, 2021-10-11 A rigorous analysis of Mark 6 45 56 Jesus sea walk The first part of the book argues that given the complexities which challenge the reader in Mark 6 45 56 traditional historical critical approaches lack the terminology and conceptual categories necessary to provide an adequate elucidation of the passage in all its fantastic array The second part proposes a theoretical framework for scholars to examine the Gospel of Mark using tools and terms often associated with fantasy literature and suggests that this gospel is best viewed as an illustration of ancient fantastic fiction The final part of the book shows how the tools of fantasy studies can be applied to the gospel using Mark 6 45 56 as a case in point
