Television And Its Viewers:

Television and Its Viewers James Shanahan, Michael Morgan, 1999-09-09 Television and its Viewers reviews cultivation research which investigates the relationship between exposure to television and beliefs about the world James Shanahan and Michael Morgan both distinguished researchers in this field scrutinize cultivation through detailed theoretical and historical explication critical assessments of methodology and a comprehensive meta analysis of twenty years of empirical results They present a sweeping historical view of television as a technology and as an institution Shanahan and Morgan's study looks forward as well as back to the development of cultivation research in a new media environment They argue that cultivation theory offers a unique and valuable perspective on the role of television in twentieth century social life Television and its Viewers the first book length study of its type will be of interest to students and scholars in communication sociology political science and psychology and contains an introduction by the seminal figure in this field George Gerbner

Television and its Viewers James Shanahan, Michael Morgan, 1999-09-09 How does television influence people Cultivation research examines the relationship between how much television people watch and what they believe avid viewers beliefs are very different from those of occasional viewers James Shanahan and Michael Morgan leading scholars in this field explore the differences in viewers beliefs on issues such as violence sex roles and political attitudes Their compelling account the first book length study of this important and controversial area will be of interest to students and scholars in communication sociology political science and psychology

Television and Its Viewers James Shanahan, 2003 Television and its Viewers reviews cultivation research which investigates the relationship between exposure to television and beliefs about the world Shanahan and Morgan present a sweeping historical view of television as a technology and as an institution Shanahan and Morgan's study looks forward as well as back to the development of cultivation research in a new media environment

Television and Its Viewers Jim Shanahan, 1999 **An Introduction to Television Studies** Jonathan Bignell, 2013 An Introduction to Television Studies is a comprehensive introduction to the field It provides resources for thinking about key aspects and introduces institutional textual cultural economic production and audience centred ways of looking at television

Television and Its Audience Patrick Barwise, Andrew Ehrenberg, 1988-11-24 This book by two leading experts takes a fresh look at the nature of television starting from an audience perspective It draws on over twenty years of research about the audience in the United States and Britain and about the many ways in which television is funded and organized around the world The overall picture which emerges is of a medium which is watched for several hours a day but usually at only a low level of involvement an audience which views mainly for relaxation but which actively chooses favourite programmes a flowering of new channels but with no fundamental change in what or how people watch programmes costing millions to produce but only a few pennies to view a wide range of programme types apparently similar to the range of print media but with nothing like the same degree of audience segmentation a global communication medium of dazzling scale speed and

impact but which is slow at conveying complex information and perhaps less powerful than generally assumed The book is packed with information and insights yet is highly readable It is unique in relating so many of the issues raised by television to how we watch it There is also a highly regarded appendix on advertising as well as technical notes a glossary and references for further reading

Queer TV Glyn Davis, Gary Needham, 2008-12-03 Queer TV Theories Histories Politics is the first book to explore television in all its scope and complexity its industry production texts audiences pleasures and politics in relation to queerness With contributions from distinguished authors working in film television studies and the study of gender sexuality it offers a unique contribution to both disciplines

Television and New Media Jennifer Gillan, 2010-10-18 Television and New Media introduces students to the ways that new media technologies have transformed contemporary television production distribution and reception practices Drawing upon recent examples including Lost 24 and Heroes this book closely examines the ways that television programming has changed with the influx of new media transforming nearly every TV series into a franchise whose on air online and on mobile elements are created simultaneously and held together through transmedia storytelling This book is essential for understanding how creative and industrial forces have worked together in the new media age to transform the way we watch TV

Television and Political Communication in the Late Soviet Union Kirsten Bönker, 2020-07-15 This study focuses on Soviet television audiences and examines their watching habits and the way they made use of television programs Kirsten Bönker challenges the common misconception that viewers perceived Soviet television programming and entertainment culture as dull and formulaic This study draws extensively on archival sources and oral history interviews to analyze how Soviet television involved audiences in political communication and how it addressed audiences emotional commitments to Soviet values and the Soviet way of life Bönker argues that the Brezhnev era influenced political stability and brought an unprecedented rise of the living standards creating new meanings for consumerism the idea of the home and private life among Soviet citizens Exploring the concept of emotional bonding this study engages broader discussions on the durability of the Soviet Union until perestroika

The End of Television? Elihu Katz, Paddy Scannell, 2009-09-17 Is television dead The classic television era of the 1950s and 1960s characterized by limited choices of programs broadcast on over the air channels to families as if they were seated around a hearth and to a nation as if gathered around a campfire has indeed ended That early stage of sharedness and scarcity gave way to the television of plenty when satellite and cable and competition reigned choice was suddenly expanded and every room in the home had its own television set And now television offers infinite choices where we can view what we like when we like where we like on a variety of screens telephones and Web sites Some researchers assert that television is not dead but has merely moved from a collectivist to an individualist phase Throughout the drastic evolution of this media thousands of studies have examined the short term effects of television such as the evaluation of persuasion campaigns Yet there is scant research on the overreaching sociological impacts of television and its centrality to Western culture over the

past 60 years This compelling volume of The ANNALS is the first collection of rigorous articles devoted to studying ways in which television has impacted our values ideologies institutions social structure and culture Focusing on classic television these leading experts in media studies delve into the effects on social institutions namely family and politics and its effects on values and everyday behavior These seminal articles lay the groundwork for innovative studies of the numerous ways that television has impacted democracy social integration nation and family trust and suspiciousness materialism and identity social and physical Students and researchers will find a wealth of inspiration for new research projects It is a must have resource for social scientists interested in media studies

TV Cops Jonathan Nichols-Pethick, 2012 The police drama has been one of the longest running and most popular genres in American television In TV Cops Jonathan Nichols Pethick argues that perhaps more than any other genre the police series in all its manifestations from Hill Street Blues to Miami Vice to The Wire embodies the full range of the cultural dynamics of television Exploring the textual industrial and social contexts of police shows on American television this book demonstrates how polices drama play a vital role in the way we understand and engage issues of social order that most of us otherwise experience only in such abstractions as laws and crime statistics And given the current diffusion and popularity of the form we might ask a number of questions that deserve serious critical attention Under what circumstances have stories about the police proliferated in popular culture What function do these stories serve for both the television industry and its audiences Why have these stories become so commercially viable for the television industry in particular How do stories about the police help us understand current social and political debates about crime about the communities we live in and about our identities as citizens

Television Studies and Research on Series Denis Newiak, Dominik Maeder, Herbert Schwaab, 2024-07-17 Television series enjoy an unbroken popular as well as scholarly attention It is surprising however that in works on seriality in media and cultural studies approaches to television studies and television history still play a rather minor role Yet seriality should always be thought of in terms of television since the two have always been inextricably interwoven economically technically and aesthetically But what else constitutes the serial in television and how does it change its face in times of digitalization streaming and interactivity Is it possible to think of a genuine serial theory of the televisual and what in turn can be learned from this for seriality beyond television The essays in this volume contribute to shedding new light on the serial as a core principle of television and to providing new impulses for a television theory of the serial on the basis of diverse examples from the current range of television series
