Resources in Education ,1985-09      **Directions** ,1979      **Political Speech as a Weapon** Sylvia

Gonzalez-Gorman,2018-09-20 Provides a penetrating examination of how political rhetoric from public officials creates tensions via microaggression cues due to changing demographics campaign rhetoric and the use of social media What are microaggression cues and what are examples of those cues in political rhetoric How have microaggression cues from former presidents elected officials and political candidates led to further polarization of America s citizens What are the connections between these microaggression cues the demographic shift of the United States and the growing fear among longtime majority populations Political Speech as a Weapon Microaggression in a Changing Racial and Ethnic Environment answers these questions and helps readers understand related topics such as nativism the transformation process of the U S population and cultural norms and how Americans can best respond to evolving conditions to meet these challenges Author Sylvia Gonzalez Gorman addresses a blind spot in the field of American politics and connects hostile rhetoric by public officials to the effect of such rhetoric which leads to the marginalization of groups and a polarizing cultural environment The book specifically focuses on the role of political rhetoric as a microaggression cue and clearly illustrates how these cues are a well established and damaging component of U S political culture

**Television Courtroom Broadcasting Effects** Paul Lambert,2013-07-05 Court and policy makers have increasingly had to deal with and sometimes even embrace technology from podcasts to the Internet Televised courtroom broadcasting especially remains an issue The debate surrounding the US Supreme Court and federal courts as well as the great disparity between different forms of television courtroom broadcasting rages on What are the effects of television courtroom broadcasting Does research support the arguments for or against Despite three Supreme Court cases on television courtroom broadcasting the common thread between the cases has not been highlighted The Supreme Court in these cases maintains a common theme there is not a sufficient body of research on the effects of televising courtroom proceedings to resolve the debate in a confident manner

**Subject Guide to Books in Print** ,1997      **Media Violence and Children** Douglas A. Gentile,2014-09-30 Stripping away the hype this book describes how when and why media violence can influence children of different ages giving parents and teachers the power to maximize the media s benefits and minimize its harm There are many opinions about media violence and children but not all are supported by science In this book the top experts gather the latest results from 50 years of scientific study as the basis for a comprehensive in depth examination of the complex issues surrounding the effects of media violence of different types Each chapter focuses on a particular issue of concern including hot topics such as brain development cyber bullying video games and verbal aggression Articles take into account factors such as economics differences based on the ages of children and differences between types of media violence This book provides the information parents and those who work with families need to make the best choices It includes chapters specifically relevant to the types of bullying schools have the most

trouble identifying and controlling. Most importantly the writing is both intelligent and accessible so that parents, educators, pediatricians and policymakers can understand and apply the findings presented.

**Books in Print**, 1991 *Television and Behavior* National Institute of Mental Health (U.S.), 1982 Abstract A comprehensive report summarizes the past 10 years of research activities and findings concerning the effects of television viewing on child behavior and development. Approximately 90% of all research publications on this topic appeared during this period representing over 2500 titles. The report is presented in 2 volumes: a summary report and technical reviews. The technical reviews comprise overall comprehensive and critical syntheses of the scientific literature on specific topic areas developed by 24 researchers in this area. The topic areas address such issues as cognitive and emotional aspects of television viewing, television's influences on physical and mental health, television as it relates to socialization, and viewer's conceptions of social reality and television as an American institution. The overall orientation of the report is toward research and public health issues.

**Resources in Education**, 1979 The British National Bibliography Arthur James Wells, 1992 The SAGE Glossary of the Social and Behavioral Sciences Larry E. Sullivan, 2009-08-31 The SAGE Glossary of the Social and Behavioral Sciences provides college and university students with a highly accessible curriculum driven reference work both in print and on line defining the major terms needed to achieve fluency in the social and behavioral sciences. Comprehensive and inclusive its interdisciplinary scope covers such varied fields as anthropology, communication and media studies, criminal justice, economics, education, geography, human services, management, political science, psychology and sociology. In addition, while not a discipline methodology is at the core of these fields and thus receives due and equal consideration. At the same time we strive to be comprehensive and broad in scope we recognize a need to be compact, accessible and affordable. Thus the work is organized in A to Z fashion and kept to a single volume of approximately 600 to 700 pages.

*Tuning In to Young Viewers* Tannis M. MacBeth, 1996-05-07 Both provocative and controversial *Tuning In to Young Viewers* focuses on a key area of media studies. Today issues such as violence on television and children's dependence on television are continually debated. This volume provides a much needed overview of the crucial topics concerning the uses and effects of television. Designed both in style and organization as an upper level text for courses in communication and psychology it is written by scholars well known to both fields and particularly recognized for their work related to media influences. Topics include diversity on television, television dependence and its diagnosis and prevention, television and the socialization of young children, children's fear and other indirect effects of television. For researchers and professionals interested in the effects of television this book delves into the important topics related to television viewing. The extensive analysis provided makes this text a necessity for courses in media communication, developmental psychology, sociology and popular culture.
