Telex Iran Gilles Peress In The Name Of Revolution:

Telex Iran Gilles Peress, Ghulām Ḥusayn Sā'idī, 1997 *Telex Iran* is an extraordinarily personal document of a public event. The photographs Gilles Peress took over a five week period during the 1979-80 seizure of the American embassy in Tehran form neither a study nor an analysis. Peress didn't plan to go to Iran; the instant imagery, the caricatures of fanatics on his TV got to him. He felt the need to understand for himself the apparent madness about which the Western media could only generalize.

Telex Iran Gilles Peress, 1980 *Afterimages* Liam Kennedy, 2016-03

Liam Kennedy here takes as his focus the ways in which selected photographers have sought to frame the activities and effects of American foreign policy often with a critical perspective and how their work engages the dynamics of power and knowledge that attend the American worldview. What is at issue in this book is understanding relations between the geopolitical conditions of visibility and the particulars of the image. Conditions of visibility for Kennedy are the ideologies that determine certain ways of seeing that support actions and representations which establish visibilities and which police the relationship between seeing and believing the American worldview. The individual photographers whose work Kennedy so insightfully dissects are those who have pushed the boundaries of photographic practice and who reflect critically on the contexts and scenery of war: Larry Burrows and Philip Jones Griffiths in Vietnam; Gilles Peress covering the Iranian Revolution; Susan Meiselas in El Salvador and Nicaragua; Ron Haviv and Gary Knight in the Balkans; Ashley Gilbertson and Chris Hondros in Iraq; and Tim Hetherington and Lynsey Addario in Afghanistan. These individuals expanded the conception and technical repertoire of photojournalism, receiving critical acclaim, provoking public and professional controversy, and often incurring great personal cost to themselves. *Afterimages* presents us with a revisionary understanding of the art of conflict photography. The images are often searing; they sometimes demonize and dehumanize the enemy but also humanize friend or victim, a focus on the human roots of the range of feeling in such imagery from horror to pity.

The Cruel Radiance Susie Linfield, 2011-05-27

In *The Cruel Radiance* Susie Linfield challenges the idea that photographs of political violence exploit their subjects and pander to the voyeuristic tendencies of their viewers. Instead, she argues passionately that looking at such images and learning to see the people in them is an ethically and politically necessary act that connects us to our modern history of violence and probes the human capacity for cruelty. Grappling with critics from Walter Benjamin and Bertolt Brecht to Susan Sontag and the postmoderns, and analyzing photographs from such events as the Holocaust, China's Cultural Revolution, and recent terrorist acts, Linfield explores the complex connection between photojournalism and the rise of human rights ideals. In the book's concluding section, she examines the indispensable work of Robert Capa, James Nachtwey, and Gilles Peress and asks how photography should respond to the increasingly nihilistic trajectory of modern warfare. A bracing and unsettling book, *The Cruel Radiance* convincingly demonstrates that if we hope to alleviate political violence, we must first truly understand it and to do that we must begin to look.
