## **Tell El Mazar Cemetery A:**

Tell El Mazar I Khair Yassine, 1984      **A Corpus of Ammonite Inscriptions** Walter E. Aufrecht, 2019-05-22 This second edition of *A Corpus of Ammonite Inscriptions* presents all of the published inscriptions that have been identified as Ammonite in one volume Each entry is accompanied by a complete bibliography a physical description and details about its location a photograph and or drawing relevant linguistic information and a history of the inscription s interpretation The discovery of the Amman Theater Inscription Amman Citadel Inscription Tall S r n Bottle isb n Ostraca and Tall al Mazar Ostraca opened a new chapter in the study of ancient Northwest Semitic inscriptions with the recognition and analysis of the language and script of ancient Ammon These new discoveries prompted a reclassification of a number of epigraphs previously identified as Hebrew Phoenician or Aramaic Since the first edition of this corpus the discussion of the criteria used to classify inscriptions as Ammonite including provenance language onomastics paleography and iconography has advanced considerably In addition the number of known inscriptions has increased This updated edition includes 254 additional inscriptions four new appendixes and in many cases new and improved images      *Children in the Ancient Near Eastern Household* Kristine Garroway, 2014-10-21 Children were an important part of the ancient Near Eastern household This idea seems straightforward but it can be understood in many ways On a basic level children are necessary for the perpetuation of a household On a deeper level the definitions of child and member of the household are far from categorical This book begins to explore the multiple definitions of child and the way the child fits within a household It examines what membership in the household looks like for children and what factors contribute to it A study addressing what a child is and how a child s gender and social status affect her place in the household is vital to a proper understanding of the ancient Near Eastern household Despite their importance children have long been marginalized in discussions of ancient societies Only recently has this trend begun to change within biblical and ancient Near Eastern scholarship A recent wave of studies especially in relation to the Hebrew Bible has started to address children in their own right In light of the current state of scholarship on children the purpose of this book is threefold First Garroway continues to fill out the picture of the child in the ancient Near East by compiling child centric texts and archaeological realia In analyzing these materials she surveys the relationship between children and ancient Near Eastern society by examining the extent to which structuring forces in a community such as social status and gender contribute to the process of a child s becoming a member of his household and society Finally this information provides a base for future research for example a cross cultural study of children in the ancient Near East in Classical Antiquity      **Judahite Burial Practices and Beliefs about the Dead** Elizabeth Bloch-Smith, 1992-05-01 The family tomb as a physical claim to the patrimony the attributed powers of the dead and the prospect of post mortem veneration made the cult of the dead an integral aspect of the Judahite and Israelite society Over 850 burials from throughout the southern Levant are examined to illustrate the Judahite form of burial and its development Vessels for foods

and liquids were of paramount importance in the afterlife followed by jewellery with its protective powers The cult of the dead began to be an unacceptable feature of the Jerusalem Yahwistic cult in the late eighth to seventh century BCE This change of attitude was precipitated by the fall of the northern kingdom of Israel and the consequent theological response

MacDonald, Younker, 2023-11-13 This work is a presentation on a people of Transjordan known to readers of the Bible as a neighbour and often an enemy of first millennium B C Israel Topics include a review of archaeological research in Ammon the emergence of the Ammonites and Ammonite territory and sites **Midian, Moab, and Edom** John F. A. Sawyer, David J. A. Clines, 1983-01-01 Specialists from different fields converge on one relatively circumscribed and until recently largely neglected area of biblical archaeology The eleven papers comprise archaeological reports from Buseira Biblical Bozrah and Wadi el Hasa in Moab technical studies of Midianite and Edomite pottery Iron Age burial practices and copper smelting in the Arabah a semantic study of barzel iron in Biblical Hebrew and three essays of more general interest on the history of the Ishmaelites and the Midianites

*The Archaeology of Israelite Samaria. Volume 2: The Eighth Century BCE* Ron E. Tappy, 2018-08-14 In this comprehensive study Professor Tappy rounds out the study of the Iron Age strata at Samaria that he began with the first volume of this work published in 1992 The Early Iron Age through the Ninth Century HSS 44 Tappy's goal is to provide a thorough going analysis of prior archaeologists work at this important north Israelite site with a view to providing a complete reconstruction of the depositional history of the site during the Iron Age The two volumes together are important not only for the history of the city of Samaria but for the archaeological sequences of the Iron Age in northern Israel *Life on the Watershed* Eva Kaptijn, 2009 The scarcity of water is a major problem in many parts of the Near East today and has been so in the past To survive in such a region people should be able to structurally attain more water than rainfall alone can supply The archaeology of this area should not only identify when

people inhabited such a region and what the character of this habitation was but also how people were able to survive in such a region and why they chose to live there in the first place In this book these questions have been studied for the Zerqa Triangle a region in the middle Jordan Valley around Tell Deir Alla Jordan By means of a detailed pedestrian archaeological survey the intensity of habitation of the region from the Neolithic to early modern periods is investigated Efforts have been undertaken to reconstruct the agricultural practices in the various periods and simultaneously the means by which the different communities were able to practice agriculture in other words how did they irrigate the land By focussing on the different social responses of communities conclusions have been drawn on how and why people managed to create a living in this arid but potentially very fertile region This book not only contributes to the ongoing discussion of the archaeology of marginal areas but also provides a huge amount of new data on the archaeology of the Jordan Valley both in the form of newly discovered settlement sites from several different periods as well as remains from several more inconspicuous types of human activity present in the countryside

**New Insights into the Iron Age Archaeology of Edom, Southern Jordan**

Erez Ben-Yosef, Thomas E. Levy, Mohammad Najjar, 2014-12-31 Situated south of the Dead Sea near the famous Nabatean capital of Petra the Faynan region in Jordan contains the largest deposits of copper ore in the southern Levant The Edom Lowlands Regional Archaeology Project ELRAP takes an anthropological archaeology approach to the deep time study of culture change in one of the Old World's most important locales for studying technological development Using innovative digital tools for data recording curation analyses and dissemination the researchers focused on ancient mining and metallurgy as the subject of surveys and excavations related to the Iron Age ca 1200-500 BCE when the first local historical state level societies appeared in this part of the eastern Mediterranean basin This comprehensive and important volume challenges the current scholarly consensus concerning the emergence and historicity of the Iron Age polity of biblical Edom and some of its neighbors such as ancient Israel Excavations and radiometric dating establish a new chronology for Edom adding almost 500 more years to the Iron Age including key periods of biblical history when David Solomon and the Egyptian pharaoh Shoshenq I are alleged to have interacted with Edom Included is a 7 gigabyte DVD with over 55 000 files of additional data and photographs from the project

**Tel Beth-Shemesh: A Border Community in Judah**

Shlomo Bunimovitz, Tzvi Lederman, 2016-05-09 Excavations at Beth Shemesh are actually a story within a story On the one hand they are the story of the archaeology of the Land of Israel in a nutshell from the pioneering days of the Palestine Exploration Fund through the Golden Age of American biblical archaeology to current Israeli and international archaeology On the other hand they are the fascinating story of a border site that was constantly changing its face due to its geopolitical location in the Sorek Valley in the Shephelah a juncture of Canaanite Philistine and Israelite entities and cultures It is no wonder that two celebrated biblical border epics Samson's encounters with the Philistines and the Ark narrative took real or imagined place around Beth Shemesh In this report summarizing the first ten years 1990-2000 of archaeological work in the ongoing project

of the renewed excavations at Tel Beth Shemesh the authors have strived to tell anew the story of the Iron Age people of Beth Shemesh as exposed and interpreted Using the best theoretical and methodological tools that modern archaeology has made available every effort has been made to keep in view archaeology's fundamental duty to read the ancient people behind the decayed walls and shattered pottery vessels and bring alive their lost world Furthermore the story of ancient Beth Shemesh has been written in a way that will enable scholars students and other interested people to learn and understand the life of the communities living at Beth Shemesh As a result the book is organized in a manner different from usual archaeological site reports The two volumes will be essential for anyone who wishes the best and latest information on this important site

**On the Skirts of Canaan in the Iron Age** Edward Lipiński, 2006 The history of Canaan in the Iron Age is generally written from the perspective of the kingdoms of Israel and Judah The scope of this book is to inverse this relation and to focus on the skirts of Canaan while regarding the United Monarchy and the Divided Monarchy as external and sometimes marginal players of the regional history After having examined the transition from the Late Bronze Age to the Iron Age in the mid 12th century B C the book deals thus with the Philistines and the role of Egypt in Canaan during Iron Age II especially in the face of the Assyrian expansion It treats further of the Phoenicians and the Aramaeans There follow five chapters on Bashan Gilead Ammon Moab and Edom with the Negeb Several indices facilitate the consultation of the work on particular topics

American Journal of Archaeology, 1897 **Excavations at Tall Jawa, Jordan, Volume 2 The Iron Age Artefacts** Michèle Daviau, 2001-12-17 This volume presents a functional and typological study of the Iron Age artefacts recovered during six years of excavation at the site of Tall Jawa in central Jordan The introduction presents information on the recording and classification system used to identify artefact types The main chapter presents each category of artefact with examples of the most representative items and their parallels from sites in Israel and Syria Examples include jewellery figurines weapons food processing tools and tools used in a variety of crafts and industries A CD ROM is included containing the database and illustrations of all registered items dating to the Iron Age 100 600 BC

*Canaanites* Jonathan N. Tubb, 1998 *Canaanites* explores the ancient population of the Western Levant Israel Transjordan Lebanon and coastal Syria examining the development of its distinctive culture from the early farming communities of the eighth millennium B C to the fragmentation of its social and cultural ideals in the latter half of the first millennium B C Jonathan N Tubb makes judicious use of the Hebrew Bible in describing Canaanite culture He views the Bible as a rich resource for understanding the literary and theological heritage of Israel which he classifies as a subculture of Canaan At the same time he reveals the limitations of the Bible as a historical document arguing that to reconstruct the Canaanites history we must first look at the archaeological data Tubb stresses the continuity of Canaanite civilization portraying events such as the imposition of Egyptian imperial rule and the development of historical Israel as episodic interruptions
