Committee on Manufactures, 1888 **The Sex Appeal of the Inorganic** Mario Perniola, 2004-03-26 We live in a world where the one time opposition between things and humans has been transformed where the center of contemporary

sensibility is the encounter between philosophy and sexuality where sex extends well beyond both the act and the body We live in a world where to be sexy is to ignore the distinctions between animate and inanimate objects of desire where the aesthetics of sex are being revolutionized An organic sexuality based on sex difference and driven by desire and pleasure is being replaced by a neutral inorganic and artificial sexuality a sexuality always available but indifferent to beauty age or form a sexuality freed by thought from nature The Sex Appeal of the Inorganic takes the reader on a radical new tour of Western philosophy from Descartes Kant and Hegel to Heidegger Wittgenstein and Sartre to reframe our understanding of personal experience and the aesthetic to examine how if we are to remember how to feel we must become a thing who feels we must think ourselves closer to the inorganic world and move further from our bodies **Words Of Comfort** E.
