*The Nation on Screen* Enric Castelló, Alexander Dhoest, 2020-07-24 But we can still rise now runs a line of Scotland s unofficial national anthem Flower of Scotland and be the nation again who defeated the English King Edward II in 1314 at the Battle of Bannockburn These short lines tell us much about the concept of the nation Firstly the pronoun of the nation is we Secondly nationhood remains aspirational for some while it is entirely taken for granted for others Thirdly nations often trace their origins back to an implausibly dim and distant past Finally it points to the fundamentally discursive nature of the nation the nation appears not as something which simply is but as something which can be called into existence through talk official documents official and unofficial national anthems ceremonies and parades monuments and statuary press coverage and increasingly television This book which arose out of a conference held in Tarragona in 2007 focuses on the complex discourses of the nation to be found in the television systems of twelve different countries examining how these circulate in fiction in news and documentary including re enactment formats and in entertainment programmes adverts and the coverage of large scale sporting events The nation which emerges is everywhere and nowhere talked about endlessly but never finally grasped repeatedly staged and re enacted but lacking a foundational script In short it is a site of struggle The stakes are high since the nation when mobilised is a force to be reckoned with and the on going attempts to define it are many varied and often highly creative This book details many such events from the high drama of war reporting to the self mocking irony of ten second commercial spots

**Multicultural Nationalism** Asifa M. Hussain, William L. Miller, 2006-07-20 When the focus is on black or Asian minorities Britain is frequently described as a multi cultural state But when the focus is on Scotland England and Wales Britain is also described as a multi national state Yet debates about multiculturalism and nationalism have been held in parallel without sharing even a common vocabulary This book is a pioneering study of how multiculturalism interacts with multinationalism especially within post devolution Scotland It gives equal attention to Scotland's largest visible and invisible minorities ethnic Pakistanis almost all of them Muslim and English immigrants Rising Scottish self consciousness could have posed a challenge both these minorities But in practice potential problems have proved themselves to be solutions integrating rather than alienating In the eyes of the minorities devolution has made Scots at once more proud and less xenophobic Even English immigrants feel devolution has defused tensions calmed frustrations and forced Scots to blame

themselves rather than others for their problems Pakistanis have suffered increasing harassment but they attribute that to 9/11 not to devolution And Muslims adopt Scottish identities Scottish attitudes even Scottish nationalism consciously or unconsciously using these as tools of integration The book is based in part on large scale surveys of Pakistani and English minorities within Scotland and of the majority populations in Scotland and England But it is also based on systematic analysis of transcripts of focus group discussions with minorities revealing the variety of opinion within minorities as well as the contrasts between them In particular it presents a unique account of how Scottish Muslims express their feelings in a time of crisis
