**Common Ground** ,1998 *Image Encounters* Lisa Trever, 2022-02-08 2022 Mr and Mrs Raymond J Horowitz Book Prize Bard Graduate Center A landmark study of ancient Peruvian Moche mural art Moche murals of northern Peru represent one of the great yet still largely unknown artistic traditions of the ancient Americas Created in an era without written scripts these murals are key to understandings of Moche history society and culture In this first comprehensive study on the subject Lisa Trever develops an interdisciplinary methodology of archaeo art history to examine how ancient histories of art can be written without texts boldly inverting the typical relationship of art to archaeology Trever argues that early coastal artistic traditions cannot be reduced uncritically to interpretations based in much later Inca histories of the Andean highlands Instead the author seeks the origins of Moche mural art and its emphasis

on figuration in the deep past of the Pacific coast of South America Image Encounters shows how formal transformations in Moche mural art before and after the seventh century were part of broader changes to the work that images were made to perform at Huacas de Moche El Brujo Pa amarca and elsewhere in an increasingly complex social and political world In doing so this book reveals alternative evidentiary foundations for histories of art and visual experience Making Senses of the Past Jo Day,2013-03-19 Since the nineteenth century museums have kept their artifacts in glass cases to better preserve them and drawings and photographs have become standard ways of presenting the past These practices have led to an archaeology dominated by visual description even though human interaction with the surrounding world involves the whole body and all of its senses In the past few years sensory archaeology has become more prominent and Making Senses of the Past is one of the first collected volumes on this subject This book presents cutting edge research on new theoretical issues The essays presented here take readers on a multisensory journey around the world and across time In ancient Peru a site provides sensory surprises as voices resound beneath the ground and hidden carvings slowly reveal their secrets In Canada and New Zealand the flicker of reflected light from a lake dances on the faces of painted rocks and may have influenced when and why the pigment was applied In Mesopotamia vessels for foodstuffs build a picture of a past cuisine that encompasses taste and social activity in the building of communities While perfume and flowers are examined in various cultures in the chamber tombs of ancient Roman Palestine we are reminded that not all smells are pleasant Making Senses of the Past explores alternative ways to perceive past societies and offers a new way of wiring archaeology that incorporates the senses Christian History, Volume 2 Thomas S. Kidd,2024-09-01 Thomas S Kidd presents a global history of the Christian church in the modern age Christian History Volume 2 From the Reformation to the Present provides a composite picture of important influential and representative Christian beliefs thinkers activists trends and practices from about 1500 to the present day In a highly readable style Kidd covers the events and figures from the Reformation the Great Awakenings higher criticism and the culture wars of the late twentieth and early twenty first centuries This volume also covers the global nature of God s church by examining historical global traditions as well as the recent the demographic shift of active Christian communities to the global South In addition to the major theologians movements and events of the period Kidd highlights the everyday Christian experience through the centuries including accounts of ordinary men and women who experienced conversion lived sacrificially for the gospel or endured persecution A lively engaging and readable text Christian History Volume 2 From the Reformation to the Present will become a staple text for students and professors alike Imagined Empires Eric Wertheimer,1999 A 1999 study of the influence of South American culture on early American culture in particular literature An original history of ancien America George Jones,1843 Constructions of Time and History in the Pre-Columbian Andes Edward Swenson,Andrew Roddick,2018-03-15 Constructions of Time and History in the Pre Columbian Andes explores archaeological approaches to temporalities social memory and constructions of history in the pre

Columbian Andes The authors examine a range of indigenous temporal experiences and ideologies including astronomical cyclical generational eschatological and mythical time This nuanced interdisciplinary volume challenges outmoded anthropological theories while building on an emic perspective to gain greater understanding of pre Columbian Andean cultures Contributors to the volume rethink the dichotomy of past and present by understanding history as indigenous Andeans perceived it recognizing the past as a palpable and living presence We live in history not apart from it Within this framework time can be understood as a current rather than as distinct points moments periods or horizons The Andes offer a rich context by which to evaluate recent philosophical explorations of space and time Using the varied materializations and ritual emplacements of time in a diverse sampling of landscapes

**A Big History of North America** Kevin Jon Fernlund, 2022-12-16 The special relationship between the United Kingdom an established and secure power and the United States a rising one began after the War of 1812 as the former enemies sought accommodation with rather than the annihilation of one another At the same time Mexico also a rising power was not so fortunate Its relationship with Spain an established but declining power turned hostile with Spain's final exit from North America after Mexico's War of Independence leaving its former colony isolated internally unstable and vulnerable to external attack Significantly Mexico posed little threat to its northern neighbor By the third decade of the nineteenth century then the fate of North America was largely discernable Nevertheless the three century journey to get to this point had been anything but predictable The United States rise as a regional power was very much conditioned by constantly shifting transcontinental transpacific and above all transatlantic factors all of which influenced North America's three interactive cultural spheres the Indigenous the Hispano and the Anglo And while the United States profoundly shaped the history of Canada and Mexico so too did these two transcontinental countries likewise shape the course of U S history In this ground breaking work Kevin Fernlund shows us that any society's social development is directly related to its own social power and just as crucially to the protective extension or destructive intrusion of the social power of other societies
