The Ancient Kingdoms Of The Nile:

The Ancient Kingdoms of the Nile Walter Ashlin Fairservis, 1962 **Ancient Kingdoms of the Nile** Walter Ashlin Fairservis, 1962-10-01 *The Ancient Kingdoms of the Nile and the Doomed Monuments of Nubia* Walter Ashlin Fairservis, 1962 A noted archaeologist and anthropologist describes the stone records of many lost civilizations as he plots the historical course of the river from the empires of the pharaohs in Egypt to the British Empire in the Sudan His urgent plea is that the great monuments of Nubia imposing records of man's ancient past be saved from the waters of the dam now being built by the United Arab Republic Back cover **The Ancient Kingdoms of the Nile and the Doomed Monuments of Nubia. (Illustr.)** Walter Ashlin Fairservis (jr), 1962 *The Black Kingdom of the Nile* Charles Bonnet, 2019-05-20

Landmark archaeological excavations that radically revise the early history of Africa For the past fifty years Charles Bonnet has been excavating sites in present day Sudan and Egypt that point to the existence of a sophisticated ancient black African civilization thriving alongside the Egyptians In *The Black Kingdom of the Nile* he gathers the results of these excavations to reveal the distinctively indigenous culture of the black Nubian city of Kerma the capital of the Kingdom of Kush This powerful and complex political state organized trade to the Mediterranean basin and built up a military strong enough to resist Egyptian forces Further explorations at Dukki Gel north of Kerma reveal a major Nubian fortified city of the mid second millennium BCE featuring complex round and oval structures Bonnet also found evidence of the revival of another powerful black Nubian society seven centuries after Egypt conquered Kush around 1500 BCE when he unearthed seven life size granite statues of Black Pharaohs ca 744-656 BCE Bonnet's discoveries have shaken our understanding of the origins and sophistication of early civilization in the heart of black Africa Until Bonnet began his work no one knew the extent and power of the Nubian state or the existence of the Black Pharaohs who presided successfully over their lands The political military and commercial achievements revealed in these Nubian sites challenge our long held belief that the Egyptians were far more advanced than their southern neighbors and that black kingdoms were effectively vassal states Charles Bonnet's discovery of this lost black kingdom forces us to rewrite the early history of the African continent *Ancient Nubia* Marjorie M. Fisher, Peter Lacovara, Salima Ikram, Sue D'Auria, 2012-09-06 A lushly illustrated gazetteer of the archaeological sites of southern Egypt and northern Sudan and named a 2012 American Publishers PROSE Awards winner for Best Archaeology Anthropology Book For most of the modern world ancient Nubia seems an unknown and enigmatic land Only a handful of archaeologists have studied its history or unearthed the Nubian cities temples and cemeteries that once dotted the landscape of southern Egypt and northern Sudan Nubia's remote setting in the midst of an inhospitable desert with access by river blocked by impassable rapids has lent it not only an air of mystery but also isolated it from exploration Over the past century particularly during this last generation scholars have begun to focus more attention on the fascinating cultures of ancient Nubia ironically prompted by the construction of large dams that have flooded vast tracts of the ancient land This book

attempts to document some of what has recently been discovered about ancient Nubia with its remarkable history architecture and culture and thereby to give us a picture of this rich but unfamiliar African legacy The Cosmic E.G.G.G. Richard Bruce Wallace,2023-02-16 Many are the mysteries concerning the universe and the life that is found within it This is also true regarding the theories laws that govern it In this book we examine the most popular ones past and present in search of the common constant that binds life laws and the universe It exposes the views of the early hominids of Africa and those of the ancient Egyptians It includes the Assyrians Babylonians Chaldean and ancient Sumerians of Asia up to the Europeans and modern day Americans By combining the knowledge of all of these cultures and that of mankind worldwide a stunning conclusion is reached The concept of Unification is confirmed and it is realized in The Order of Existence

Ancient Kingdoms of the Nile and the Doomed Monuments of Nub Walter Ashlin Fairbairns,1962 The Language of the Past Ross Wilson,2016-07-14 The Language of the Past analyzes the use of history in discourses within the political media and the public sphere It examines how particular terms phrases and allusions first came into usage developed and how they are employed today To speak of something or someone as representing the stone age or characterize an institution as byzantine to describe a business relationship as feudal or to disparage ideals or morality as Victorian refers to both a perception of the past and its relationship to the present Whilst dictionaries and etymologies define meanings and origin points of words or phrases this study examines how history is maintained and used within society through language Detailing the specific words and phrases associated with particular periods used to describe contemporary society this thorough examination of language and history will be of great interest to those studying historiography social history and linguistics The Double Kingdom Under Taharqa Jeremy W. Pope,2014-01-13 The establishment of Kushite rule over Egypt during the eighth and seventh centuries BC resulted in a state of extraordinary geographic dimensions and ecological diversity stretching from the tropics of Sudanese Nubia over 3 000 km to the Mediterranean In The Double Kingdom under Taharqa Jeremy Pope uses the copious documentary and archaeological evidence from Taharqa's reign to address a series of questions which have dogged study of the Twenty Fifth Dynasty how was it possible for one king to control all of that territory To what extent were the Kushite pharaohs strategies of governance influenced by the circumstances of their homeland versus the precedents of Egyptian and Libyan rule And how did Kushite policies differ from those of their Saite successors Bringing to bear an impressive mastery of the sources and refreshingly open to anthropological and comparative approaches Jeremy Pope's study is welcome in providing a close and careful analysis of varied sources both historical and archaeological David N Edwards University of Leicester a seminal work pioneering a new historical approach to the Twenty Fifth Dynasty László Tóth Hungarian Academy of Sciences The Pitcher is Broken Gösta Werner Ahlström,Steven Winford Holloway,Lowell K. The River Basin in History and Law Ludwik A. Teclaff, 2012-12-06 Fresh water is one of man's most vital needs The distribution of water within river basins has a direct bearing on the organization of water resources development to meet this ever expanding need River basins despite their very great diversity in other respects have one physical characteristic in common each is a more or less self contained unit within whose bounds all the surface and part or all of the ground waters form an interconnected interdependent system This inter dependence has such far reaching implications for pollution and flood control apportionment of supply relations between upstream and downstream riparians to mention only a few examples that the river basin has become almost universally accepted within the past 20 or 30 years at least as the unit of optimal water resources development Professor Teclaff's work which was originally submitted to the New York University School of Law as a doctoral dissertation is the first fully developed response to the important resolution passed by the International Law Association at its New York meeting in 1958 recognizing the legal nature of the international river basin His study quite properly therefore poses the question whether the adoption of the river basin unit is a temporary phenomenon reflecting the current stage of technology and of administrative economic and legal thought on water resources development or whether the determinative influence of the river basin's physical unity which has always operated in the past will continue to operate in the future
