The Apocalypse In The Middle Ages:

The Apocalypse in the Middle Ages Richard Kenneth Emmerson, Bernard McGinn, 1992 An innovative overview of the influence of the Apocalypse on the shaping of the Christian culture of the Middle Ages *The Apocalypse in the Middle Ages*

Richard Kenneth Emmerson, Bernard McGinn, 1992 An innovative overview of the influence of the Apocalypse on the shaping of the Christian culture of the Middle Ages **Last Things** Caroline Walker Bynum, Paul Freedman, 2012-10-19

When the medievals spoke of last things they were sometimes referring to events such as the millennium or the appearance of the Antichrist that would come to all of humanity or at the end of time But they also meant the last things that would come to each individual separately not just the place Heaven Hell or Purgatory to which their souls would go but also the accounting the calling to reckoning that would come at the end of life At different periods in the Middle Ages one or the other of these sorts of last things tended to be dominant but both coexisted throughout In Last Things Caroline Walker Bynum and Paul Freedman bring together eleven essays that focus on the competing eschatologies of the Middle Ages and on the ways in which they expose different sensibilities different theories of the human person and very different understandings of the body of time of the end Exploring such themes as the significance of dying and the afterlife apocalyptic time and the eschatological imagination each essay in the volume enriches our understanding of the eschatological awarenesses of the European Middle Ages

The Apocalypse in the Early Middle Ages James Palmer, 2014-11-17 This groundbreaking study reveals the distinctive impact of apocalyptic ideas about time evil and power on church and society in the Latin West c 400 c 1050 Drawing on evidence from late antiquity the Frankish kingdoms Anglo Saxon England Spain and Byzantium and sociological models James Palmer shows that apocalyptic thought was a more powerful part of mainstream political ideologies and religious reform than many historians believe Moving beyond the standard Terrors of the Year 1000 The Apocalypse in the Early Middle Ages opens up broader perspectives on heresy the Antichrist and Last World Emperor legends chronography and the relationship between eschatology and apocalypticism In the process it offers reassessments of the worlds of Augustine Gregory of Tours Bede Charlemagne and the Ottonians providing a wide ranging and up to date survey of medieval apocalyptic thought This is the first full length English language treatment of a fundamental and controversial part of medieval religion and society

Apocalypse and Reform from Late Antiquity to the Middle Ages Matthew Gabriele, James T. Palmer, 2018-09-03 Apocalypse and Reform from Late Antiquity to the Middle Ages provides a range of perspectives on what reformist apocalypticism meant for the formation of Medieval Europe from the Fall of Rome to the twelfth century It explores and challenges accepted narratives about both the development of apocalyptic thought and the way it intersected with cultures of reform to influence major transformations in the medieval world Bringing together a wealth of knowledge from academics in Britain Europe and the USA this book offers the latest scholarship in apocalypse studies It consolidates a paradigm shift away from seeing apocalypse as a radical force for a suppressed minority and

towards a fuller understanding of apocalypse as a mainstream cultural force in history Together the chapters and case studies capture and contextualise the variety of ideas present across Europe in the Middle Ages and set out points for further comparative study of apocalypse across time and space Offering new perspectives on what ideas of reform and apocalypse meant in Medieval Europe **Apocalypse and Reform from Late Antiquity to the Middle Ages** provides students with the ideal introduction to the study of apocalypse during this period **Dominion of God** Brett Edward Whalen, 2010-02-15 Whalen explores the belief that Christendom would spread to every corner of the earth before the end of time During the High Middle Ages the Western followers of Rome imagined the future conversion of Jews Muslims pagans and Eastern Christians into one fold of God's people assembled under the authority of the Roman Church **From the Brink of the Apocalypse** John Aberth, 2001 It was a firm belief in the ways of providence and the first stirrings of greater political freedom says Aberth history U of Nebraska that allowed European communities to endure the full share and more of misery that befell them during the later Middle Ages He takes his themes from the Four Horsemen of the Apocalypse to describe responses to the Great Famine and the Black Death that swept away nearly half of the continent's population while English and French leaders occupied themselves with the Hundred Years War Annotation copyrighted by Book News Inc Portland OR **A Companion to Popular Apocalypticism in the High and Late Middle Ages** Sally Mayall Brasher, 2025-04-07 The many crises of the high and late Middle Ages in Europe saw a resurgence of interest in apocalypticism and millenarianism Pious Christians who feared the coming judgement day but found the established Church lacking in an adequate response sought out leadership and direction from thinkers who appealed to their lived experience In this volume we examine how this eschatology was interpreted expressed and disseminated in popular culture by a variety of lay religious movements and individuals such as the Order of Apostles Bianchi Guglielmites Wycliffites and Hussites among others The authors here focus on how this creative response to apocalypticism reflected the changing social and political culture of medieval Europeans and is intended to illuminate the active exchange of popular and elite religious culture in the era Contributors include Sally M Brasher Steven A Hackbarth Eleanor Janega Stephen Lahey Richard Landes Alexandra R A Lee Lucie Mazalov Jerry B Pierce and Sergio Sancho Fibla **The Cambridge Illustrated History of the Middle Ages** Robert Fossier, 1986 This is the second volume of one of the finest general introductions to the medieval world of recent times first published in French by Armand Colin Volume II begins at the turn of the millennium and covers the extraordinary rebirth of Europe in terms of demographic expansion agrarian settlement and organisation the establishment of towns and villages the ascendancy of the feudal system the appearance of formal states and kingdoms and the dramatic controlling ascendancy of the western Church In the east despite the external appearance of grandeur the Islamic countries were being torn apart by mutual rivalry while the Byzantine empire lost massive border territories through political and economic incompetence Full coverage is given to both east and west and their artistic heritage is displayed lavishly in many of the colour plates A comprehensive bibliography

is also included **Revelation and the Apocalypse in Late Medieval Literature** Justin M. Byron-Davies, 2020-02-01 The book will equip the reader with a stronger understanding of the religious and historical background to these late medieval texts It will provide insight into the influence of the biblical Apocalypse upon the literature of the period in a systematic way Importantly by treating the writings of Julian of Norwich and William Langland as contemporaneous the book balances the female and male approaches to and engagement with the biblical Apocalypse Angels & Angelology in the Middle Ages David Keck, 1998 Angels have made a remarkable comeback in the popular imagination their real heyday however was the Middle Ages This text offers a study of angels and angelology in the Middle Ages seeking to discover how and why angels became so important in medieval society **Nature in the Middle Ages and the Early Modern Times** Albrecht Classen, 2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches **The Middle Ages** Winston Black, 2019-07-01 This book guides readers through 10 pervasive fictions about medieval history provides them with the sources and analytical tools to critique those fictions and identifies what really happened in the Middle Ages This book is the first to present fictions about the medieval world to serious students of history Instead of merely listing myths and stating they are wrong this volume promotes critical historical analysis of those myths and how they came to be Each of the ten chapters outlines a pervasive modern myth about medieval European history describing What People Think Happened and What Really Happened and illustrating both trends with primary source documents The book demonstrates that historical fictions also have a history and that while we need to replace those fictions with facts about the medieval past we can also benefit from understanding how a fiction about the Middle Ages developed and what that says about our modern perspectives on the past Through this innovative presentation readers are introduced to a wide range of sources from Roman imperial perspectives on the Fall of Rome to songs of chivalry

and chronicles of the Crusades scientific treatises on the shape of the Earth and the creation of the universe and early modern stories and textbooks that developed or perpetuated historical myths *Artists of the Middle Ages* Leslie D. Ross, 2003-06-30 In the first volume of the Artists of an Era series Leslie Ross examines the identities of artists attributed to the most famous and influential works of medieval art These works are much discussed within the realm of art history yet the identities of medieval artists fall victim to incomplete historical records and often remain enigmatic In ten narrative chapters Ross examines this significant area of the art world including architecture iconography metalwork scribe work sculpture even medieval art instruction and summarizes the lives and work of that genre's leading artist or artists Students will learn not only what is factually known of an artist's life as well as what is purely speculative but also the processes used to gather the information and fuel speculation Readers will also gain unique insights into the practices and traditions of medieval art and the role it played within medieval society A timeline chapter bibliographies a list of further resources on medieval art and an index offer additional tools to students of medieval art and art history

The Use and Abuse of Eschatology in the Middle Ages Werner Verbeke, D. Verhelst, Andries Welkenhuysen, 1988 An interdisciplinary approach with a comparative study of sources helps to highlight the intellectual preoccupations of many religious thinkers who grappled with the overwhelming prospect of Universal destruction

Death in Medieval Europe Joelle Rollo-Koster, 2016-10-04 Death in Medieval Europe Death Scripted and Death Choreographed explores new cultural research into death and funeral practices in medieval Europe and demonstrates the important relationship between death and the world of the living in the middle ages This volume explores overarching topics such as burials commemorations revenants mourning practices and funerals capital punishment suspicious death and death registrations using case studies from across Europe including England Iceland and Spain Drawing together and building upon the latest scholarship this book is essential reading for all students and academics of death in the medieval period

A Dream of the Judgment Day John Howard Smith, 2021 The United States has long thought of itself as exceptional a nation destined to lead the world into a glorious future But what

is at the root of these convictions John Howard Smith's *A Dream of the Judgment Day* explores the origins of beliefs about the biblical end of the world and how this belief led to the idea that the United States is an exceptional nation with a unique destiny to fulfill However these beliefs implicitly and explicitly excluded African Americans and American Indians because they didn't fit white Anglo Saxon ideals while women and marginal groups were likewise influential in ways that have not been adequately explored Featuring a broadly diverse cast of historical figures *A Dream of the Judgment Day* synthesizes more than forty years of scholarship into a compelling and challenging portrait of early America

The End of the World in Medieval Thought and Spirituality Eric Knibbs, Jessica A. Boon, Erica Gelser, 2019-04-27 This essay collection studies the Apocalypse and the end of the world as these themes occupied the minds of biblical scholars theologians and ordinary people in Antiquity the Middle Ages and Early Modernity It opens with an innovative series of studies on Gendering the Apocalypse devoted to the texts and contexts of the apocalyptic through the lens of gender A second section of essays studies the more traditional problem of Apocalyptic Theory and Exegesis with a focus on authors such as Augustine of Hippo and Joachim of Fiore A final series of essays extends the thematic scope to The Eschaton in Political Liturgical and Literary Contexts In these essays scholars of history theology and literature create a dialogue that considers how fear of the end of the world among the most pervasive emotions in human experience underlies a great part of Western cultural production

Contesting the Middle Ages John Aberth, 2018-10-03 *Contesting the Middle Ages* is a thorough exploration of recent arguments surrounding nine hotly debated topics the decline and fall of Rome the Viking invasions the Crusades the persecution of minorities sexuality in the Middle Ages women within medieval society intellectual and environmental history the Black Death and lastly the waning of the Middle Ages The historiography of the Middle Ages a term in itself controversial amongst medieval historians has been continuously debated and rewritten for centuries In each chapter John Aberth sets out key historiographical debates in an engaging and informative way encouraging students to consider the process of writing about history and prompting them to ask questions even of already thoroughly debated subjects such as why the Roman Empire fell or what significance the Black Death had both in the late Middle Ages and beyond Sparking discussion and inspiring examination of the past and its ongoing significance in modern life *Contesting the Middle Ages* is essential reading for students of medieval history and historiography
