**To Die Is Gain: A Theological (Re-)Introduction to the Sacrament of Anointing of the Sick for Clergy, Laity, Caregivers, and Everyone Else** Roger W. Nutt, 2022-05-05 The Anointing of the Sick is possibly the most underappreciated and understudied sacrament In *To Die Is Gain* Roger Nutt seeks to bring greater attention to and appreciation for the Anointing of the Sick Beginning with an examination of cultural perceptions of dying death and burial *To Die Is Gain* exposes the ways in which contemporary atheism and physicalism mark a clear divergence from ancient attitudes In contrast to contemporary hopelessness the Anointing of the Sick is a powerful counter witness that highlights the great dignity of the human person and the depth of Christian hope Unlike the cures to particular ailments facilitated by modern medical science in Holy Anointing Jesus gives his dying followers the healing graces that they need to pass from this life to the next in loving union with Him As Nutt exposes the biblical and traditional foundations of this sacrament he corrects common misconceptions and malpractice of this sacrament especially the ways in which Vatican II is often misleadingly enlisted to support a broadening of the sacrament from end of life situations to non life threatening illnesses Finally Nutt carefully describes the graces and effects of the Anointing of the Sick and richly expounds the theological depth of the rite of the Anointing of the Sick The result is that readers can confidently say with St Paul that To die is gain Philippians 1:21

The Art of Living & Dying Well Peter Roche de Coppens, 2012-03-15 To live well one must be able to die well and vice versa Life and death are two faces of the same coin but with a fundamental transformation when one moves from the spiritual dimension to the physical and back to the spiritual Actually there is but one thing Life without beginning and without ending but with two expressions one on the spiritual plane and the other on the material plane Today in the West we find a great paradox we have made enormous progress at the material technological level but not at the human and psychological level One aspect of this paradox is that we do not die well We are afraid of death we deny it and seek to postpone it for as long as possible at an enormous human and economic cost The spiritual tradition always had very substantial cognitive and practical contributions

to make to our understanding of life death and life after death The basic objective of this book is to present these contributions and help us die with more dignity and less fear In fact this work was written to help you live and die without fear anxiety guilt blame or frustration with an appreciation and gratitude for all our human experiences which include birth life and death

**The Darker Vision of the Renaissance** Robert S. Kinsman,2024-03-29 *The Darker Vision of the Renaissance* explores political literary social religious medical and artistic events between 1300 and 1670 that led beyond the bounds of reason into the nonrational irrational and suprarational phenomena of the European Renaissance Robert S Kinsman s introduction examines Renaissance uses of ratio fancy and folly melancholy anxietas and alienation Lynn White Jr presents the essential thesis of the collection in his view that the years 1300 1650 constituted one of the most psychically disturbed eras ever in European history The world alienation of the period is analyzed by Donald R Howard illustrated by two poems of the late fourteenth century Gawain and the Green Knight and Toilus and Criseyde The flourishing of hermetic magical cabalistic and astrological practices in the Renaissance is described by John G Burke The gentleman and courtier s physical and psychological tensions resulting from literal exile or from psychic alienation from his lesser fellows are investigated by

Lauro Martines An analysis of the structures of Renaissance mysticism is provided by Kees W Bolle Gilbert Reaney's essay examines ratio as the basis for the measured music of the fourteenth century against which the newer duple and triple rhythms that came into prominence in the later half of the century were assessed An essay by Marc Bensimon concerns itself with Renaissance modes of perception as illustrated in works of art of literature and of philosophic speculation that seem shaped by primordial anxieties caused by the passing of time and the fear of death The reflections of theological notions about the dreadful hidden will of God in such pieces as Marlowe's Dr Faustus are given full background and perceptive treatment by Paul R Sellin Robert Kinsman concludes with his study Folly Melancholy and Madness Shifting Styles of Medical Analysis and Treatment 1450 1675 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 *Saints, Miracles, and Social Problems in Italian Renaissance Art* Diana Bullen Presciutti, 2023-05-04 In this book Diana Bullen Presciutti explores how images of miracles performed by mendicant saints reviving dead children redeeming the unjustly convicted mending broken marriages quelling factional violence exorcising the demonically possessed actively shaped Renaissance Italians' perceptions of pressing social problems related to gender sexuality and honor She argues that depictions of these miracles by artists both famous Donatello Titian and anonymous played a critical role in defining and conceptualizing threats to family honor and social stability Drawing from art history history religious studies gender studies and sociology Presciutti's interdisciplinary study reveals how miracle scenes whether painted sculpted or printed operated as active agents of lived religion and social negotiation in the spaces of the Renaissance Italian city *The Art of Dying Well* St Robert Bellarmine, 2022-05-09 176 pages Catholic book by Saint Robert Bellarmine *The Art of Dying Well* A classic among Catholic writings Excerpt PREFACE OF BELLARMINE BEING now free from Public business and enabled to attend to myself when in my usual retreat I consider what is the reason why so very few endeavour to learn the Art of dying Well which all men ought to know I can find no other cause than that mentioned by the Wise man The perverse are hard to be corrected and the number of fools is infinite Ecclesiastes 1 15 For what folly can be imagined greater than to neglect that Art on which depend our highest and eternal interests whilst on the other hand we learn with great labour and practise with no less ardour other almost innumerable arts in order either to preserve or to increase perishable things Now every one will admit that the Art of dying Well is the most important of all sciences at least every one who seriously reflects how after death we shall have to give an account to God of everything we did spoke or thought of during our whole life even of every idle word and that the devil being our accuser our conscience a witness and God the Judge a sentence of happiness or misery everlasting awaits us We daily see how when judgment is expected to be given even on affairs of the slightest consequence the interested party enjoy no rest but consult at

one time the lawyers at another the solicitors now the judges and then their friends or relations But in death when a Cause is pending before the Supreme Judge connected with life or death eternal often is the sinner compelled when unprepared oppressed by disease and scarcely possessed of reason to give an account of those things on which when in health he had perhaps never once reflected This is the reason why miserable mortals rush in crowds to hell and as St Peter saith If the just man shall scarcely be saved where shall the ungodly and the sinner appear 1st of St Peter 4 1 I have therefore considered it would be useful to exhort myself in the first place and then my Brethren highly to esteem the Art of dying Well And if there be any who as yet have not acquired this Art from other learned teachers I trust they will not despise at least those Precepts which I have endeavoured to collect from Holy Writ and the Ancient Fathers But before I treat of these Precepts I think it useful to inquire into the nature of death whether it is to be ranked among good or among evil things Now if death be considered absolutely in itself without doubt it must be called an evil because that which is opposed to life we must admit cannot be good Moreover as the Wise man saith God made not death but by the envy of the devil death came into the world Wisdom 1 11 verses 13 24 With these words St Paul also agrees when he saith Wherefore as by one man sin entered into this world and by sin death and so death passed upon all men in whom all have sinned Romans 5 12 If then God did not make death certainly it cannot be good because every thing which God hath made is good according to the words of Moses And God saw all things that he had made and they were very good But although death cannot be considered good in itself yet the wisdom of God hath so seasoned it as it were that from death many blessings arise **American Book Publishing Record**
