**Hedonizing Technologies** Rachel P. Maines,2009-08-01 Rachel P Maines s latest work examines the rise of hobbies and leisure activities in Western culture from antiquity to the present day As technologies are hedonized consumers find increasing pleasure in the hobbies associated tools methods and instructional literature Work once essential to survival and comfort gardening hunting cooking needlework home mechanics and brewing have gradually evolved into hobbies and recreational activities As a result the technologies associated with these pursuits have become less efficient but more appealing to the new class of leisure artisans Maines interprets the growth and economic significance of hobbies in terms of broad consumer demand for the technologies associated with them Hedonizing Technologies uses bibliometric and retail census data to show the growth in world markets for hobby craft tools books periodicals and materials from the late 18th century to today The book addresses basic issues in the history of labor and industry and makes an original contribution to the discussion of how technology and people interact

**Remaking the World** James Roy King,1996 In Remaking the World James Roy King weaves together strands of thought creating a tapestry that mirrors John Dewey s pragmatism of sufficiencies King uses the concept of activity sets relatively stable combinations of activities that characterize every large scale human enterprise to explain how modeling can help people make sense of the world around them

**Patent Cultures** Graeme Gooday,Steven Wilf,2020-03-26 Tracing global histories of patenting this book reveals the resilient diversity of patent systems challenging the universality of intellectual property

[A Social History of the Media](#) Asa Briggs,Peter Burke,2005-07-29 It will be an ideal text for students in history media and cultural studies and journalism but it will also appeal to a wide general readership

**Prior Art** Peter H. Christensen,2024-05-07 A groundbreaking text on the history of the use of patents in architecture Although patents existed in Renaissance Italy and even in Confucian thought it was not until the middle third of the nineteenth century that architects embraced the practice of patenting in significant numbers Patents could ensure as they did for architects engineering brethren the economic and cultural benefits afforded by exclusive intellectual property rights But patent culture was never directly translatable to the field of architecture which tended to negotiate issues of technological innovation in the context of the more abstract issues of artistic influence and formal expression In Prior Art scholar Peter Christensen offers the first full scale monographic treatment of this complex relationship between art and invention Christensen s method a site oriented approach steeped in multinational and multilingual archival work is geared toward unifying fractured global histories of architectural patents through the distinct union of architectural cultural and legal history Prior Art offers a record of the marriage of intellectual property and architectural invention a momentous understudied and still underutilized aspect of architectural culture in the nineteenth and twentieth centuries and the ways in which it influenced how buildings are conceived designed engineered constructed

and promoted **The Evolution of Technology** George Basalla,1988 Three emerging themes challenge the popular notion that technology advances through the efforts of a few who produce a series of revolutionary inventions that owe little or nothing to the technological past

**Early American Technology** Judith A. McGaw,2014-01-01 This collection of original essays documents technology s centrality to the history of early America Unlike much previous scholarship this volume emphasizes the quotidian rather than the exceptional the farm household seeking to preserve food or acquire tools the surveyor balancing economic and technical considerations while laying out a turnpike the woman of child bearing age employing herbal contraceptives and the neighbors of a polluted urban stream debating issues of property odor and health These cases and others drawn from brewing mining farming and woodworking enable the authors to address recent historiographic concerns including the environmental aspects of technological change and the gendered nature of technical knowledge Brooke Hindle s classic 1966 essay on early American technology is also reprinted and his view of the field is reassessed A bibliographical essay and summary of Hindle s bibliographic findings conclude the volume The contributors are Judith A McGaw Robert C Post Susan E Klepp Michal McMahon Patrick W O Bannon Sarah F McMahon Donald C Jackson Robert B Gordon Carolyn C Cooper and Nina E Lerman

**Learning and Technological Change** Ross Thomson,1993-10-13 In this book fifteen prominent scholars of the economy business and technology argue that technical change can fruitfully be interpreted as an institutionally structured learning process These essays show that the analysis of knowledge generating institutions including firms industries patenting systems and occupations provides important insights into the pace direction and persistence of technological change The authors use these insights to both reshape economic theory and reinterpret the economic development of Britain the USA Germany and Japan
