*The Acts of Peter, Gospel Literature, and the Ancient Novel* Christine M. Thomas, 2003-03-27 The Acts of Peter one of the Apocryphal Acts of the Apostles that detail the exploits of the key figures of early Christianity provides a unique window into the formation of early Christian narrative Like the Gospels the Acts of Peter developed from disparate oral and written narrative from the first century The apocryphal text however continued to develop into a number of recastings translations abridgements and expansions The Acts of Peter present Christian narrative in an alternate universe in which canonization did not halt the process of creative recomposition Now in this groundbreaking book Thomas examines the sources and subsequent versions of the Acts from the earliest traditions through the sixth century Passions of the Apostles arguing the importance of its narrative fluidity the existence of the work in several versions or multiforms This feature shared with the Jewish novels of Esther and Daniel the Greek romance about Alexander the Great and the Christian Gospels allows these narratives to adapt to accommodate the changing historical circumstances of their audiences In each new version the audiences defining conflicts were reflected in the text echoing a historical consciousness more often identified with primary oral societies in which the account of the past is a malleable script explaining the present Although the genre most closely comparable to these works is the ancient novel their serious historical intent separates them from the later more self consciously fictive novels and maintains them within the realm of the earlier historical novels produced by ethnic subcultures
