The Faces and Stakes of Brand Insertion Sébastien Lefait, Sandrine Villers, 2022-03-22 With traditional forms of advertisement facing increasing challenges brand placement the integration of a product or brand in a work of art has exploded It has become a lucrative phenomenon whose goal is to produce a reaction of purchase in the mind of the receiver reader viewer or listener This volume seeks to complement extant studies of product placement strategies by introducing a methodology more systematically related to the field of cultural studies especially where the reception and impact of product

placement are concerned It explores the many iterations of brand placement in popular culture with a consideration of the crossover between advertisement and art in everything from Wes Anderson Blade Runner and the Fast and Furious franchise to music videos late night shows and plastic art The book considers the impact of brand placement in TV series on teenagers as well as the evolution of such placement in literature The originality of this volume is that when the impact of the placement is mentioned it is to be understood as an intended aesthetic impact at least as much as a prompt to buy a product Consequently the placement of consumer goods in a cultural production the book suggests may both increase the sales of specific products and positively impact the production s ratings This book is perfect for researchers and students interested in marketing brand placement mass media art film and cultural studies *Consuming Kids* Susan Linn,2005 Looks at the way corporations and advertisers target children as a profitable demographic as well as their methods for getting past parental safeguards to make products of all kinds appeal directly to even the youngest children *Big Media, Big Money* Ronald V. Woodward,Robert E. Denton, Jr.,2013-12-23 For more than twenty five years the authors have highlighted the complexities subtleties and pervasive influence of persuasive messages The seventh edition again blends historical rhetorical and social psychological approaches to persuasion theory The engaging discussions and multiple examples introduce the intricacies of social influence and highlight methods of presentation as well as evaluation The dynamic topic of persuasion presents a constantly changing palette for analysis The authors dissect theory and practice in multiple contexts from

interpersonal interactions to public communication and persuasive campaigns to advertising to politics Twitter YouTube and social networking sites offer new media for persuasive appeals The means of persuading one another changes constantly yet much of what was written by Aristotle continues to be relevant The production of persuasive messages and the study of message effects have been and will continue to be fertile ground for exploration Persuasion is an interactive process requiring willing and attentive participants Becoming responsible ethical and credible persuaders involves systematic thinking and informed preparation The skills required for planning composing and delivering effective messages are equally useful for evaluating messages received The seventh edition provides a thorough up to date discussion of classic and contemporary theories of persuasion to aid readers in developing skills as effective persuaders and as critical consumers of persuasive messages
