Crimes That Changed Our World Paul H. Robinson, Sarah M. Robinson, 2018-06-15 Can crime make our world safer Crimes are the worst of humanity's wrongs but oddly they sometimes trigger improvement in our lives Crimes That Changed Our World explores some of the most important trigger cases of the past century revealing much about how change comes to our modern world The exact nature of the crime outrage reform dynamic can take many forms and Paul and Sarah Robinson explore those differences in the cases they present Each case is in some ways unique but there are repeating patterns that can offer important insights about what produces change and how in the future we might best manage it Sometimes reform comes as a society wrestles with a new and intolerable problem Sometimes it comes because an old problem from which we have long suffered suddenly has an apparent solution provided by technology or some other social or economic advance Or sometimes the engine of reform kicks into gear simply because we decide as a society that we are no longer willing to tolerate a long standing problem and are

now willing to do something about it As the amazing and often touching stories that the Robinsons present make clear the path of progress is not just a long series of course corrections sometimes it is a quick turn or an unexpected lurch In a flash we can suddenly feel different about present circumstances seeing a need for change and can often just as suddenly do something about it Every trigger crime that appears in Crimes That Changed Our World highlights a societal problem that America has chosen to deal with each in a unique way But what these extraordinary and sometime unexpected cases have in common is that all of them describe crimes that changed our world **Game Time** Christopher Hanson,2018-03-08

Preserving pausing slowing rewinding replaying reactivating reanimating Has the ability to manipulate video game timelines altered our cultural conceptions of time Video game scholar Christopher Hanson argues that the mechanics of time in digital games have presented a new model for understanding time in contemporary culture a concept he calls game time Multivalent in nature game time is characterized by apparent malleability navigability and possibility while simultaneously being highly restrictive and requiring replay and repetition When compared to analog tabletop games sports film television and other forms of media Hanson demonstrates that the temporal structures of digital games provide unique opportunities to engage players with liveness causality potentiality and lived experience that create new ways of experiencing time Featuring comparative analysis of key video games titles including Braid Quantum Break Battle of the Bulge Prince of Persia The Sands of Time Passage The Legend of Zelda The Ocarina of Time Lifeline and A Dark Room **Mad as Hell** Dominic

Sandbrook,2012-02-14 I m mad as hell and I m not going to take it anymore The words of Howard Beale the fictional anchorman in 1976 s hit film Network struck a chord with a generation of Americans In this colourful new history Dominic Sandbrook ranges seamlessly over the political economic and cultural high and low points of American life in the 1970s exploring the roots of the fears resentments cravings and disappointments we know so well today From Richard Nixon and Ronald Reagan to Anita Bryant and Jerry Falwell he shows how the 1970s saw the emergence of a new right wing populism setting the stage for the bitter partisanship and near total cynicism of our modern political landscape *Everyday Miracles*
