**Sir Arthur Conan Doyle** Harold Orel,1991 *Oscar Wilde, Interviews and Recollections* E. H. Mikhail,1979 Conan Doyle Douglas Kerr,2013-07-18 Conan Doyle Writing Profession and Practice approaches Conan Doyle s writing in terms of themes such as sport science crime and empire finding within it a complex and surprising interpretation of a late Victorian and early twentieth century world emerging into a troubling modernity The Cambridge Companion to Sherlock Holmes Janice M. Allan,Christopher Pittard,2019-05-02 Accessible exploration of Sherlock Holmes and his relationship to late Victorian culture as well as his ongoing significance and popularity **The Edwardian Detective** Professor Joseph Kestner,2017-11-22 This title was first published in 1999 the law as literature the role of literature in surveillance and policing the interpretation of legal issues by literature the degree to which literature describes and interprets law the description of legal processes in detective literature and the connections between detective literature and cultural practices and transitions **Sherlock Holmes Handbook** Christopher Redmond,2009-09-28 Here in one convenient volume is everything needed for the enjoyment of Holmess canon Postal Pleasures Kate Thomas,2012 In 1889 uniformed post boys were discovered moonlighting in a West End brothel frequented by men of the upper classes The Cleveland Street Scandal erupted and Victorian Britain faced the possibility that the Post Office a bureaucratic backbone of nation and empire was inspiring and servicing subversive sexual behavior However the unlikely alliance between sex and the postal service was not exactly the news the sensational press made it out to be Postal Pleasures explores the relationship between illicit sex and the Royal Mail from reforms initiated in 1840 up to the imperial end of the nineteenth century With a combination of historical details and literary analyses Kate Thomas illustrates how the postal network its uniformed employees and its material trappings envelopes postmarks stamps were used to signal and circulate sexual intrigue For many the idea of an envelope promiscuously jostling its neighbors in a post boy s bag or the notion that secrets passed through the eyes and fingers of telegraph girls was more stimulating than the actual contents of correspondence Writers like Anthony Trollope Eliza Lynn Lynton Henry James Oscar Wilde Arthur Conan Doyle and others invoked the postal system as both an instrument and a metaphor for sexual relations that crossed and double crossed lines of class marriage and heterosexuality Postal Pleasures adds a new dimension to studies of the era as it uncovers the unlikely linkage between the Victorian Post Office and the queer networks it inspired *Articulating Dinosaurs* Brian Noble,2016-08-12 In this remarkable interdisciplinary study anthropologist Brian Noble traces how dinosaurs and their natural worlds are articulated into being by the action of specimens and humans together Following the complex exchanges of palaeontologists museums specialists film and media makers science fiction writers and their diverse publics he witnesses how fossil remains are taken from their partial state and re composed into astonishingly precise animated presences within the modern world with profound political consequences Articulating Dinosaurs examines the resurrecting of two of the most iconic and gendered of dinosaurs First Noble traces the

emergence of Tyrannosaurus rex the king of the tyrant lizards in the early twentieth century scientific literary and filmic cross currents associated with the American Museum of Natural History under the direction of palaeontologist and eugenicist Henry Fairfield Osborn Then he offers his detailed ethnographic study of the multi media model making curatorial and laboratory preparation work behind the Royal Ontario Museum s ground breaking 1990s exhibit of Maiasaura the good mother lizard Setting the exhibits at the AMNH and the ROM against each other Noble is able to place the political natures of T rex and Maiasaura into high relief and to raise vital questions about how our choices make a difference in what comes to count as nature An original and illuminating study of science culture and museums Articulating Dinosaurs is a remarkable look at not just how we visualize the prehistoric past but how we make it palpable in our everyday lives Investigative Psychology David V. Canter, Donna Youngs, 2009-12-21 This ground breaking text is the first to provide a detailed overview of Investigative Psychology from the earliest work through to recent studies including descriptions of previously unpublished internal reports Crucially it provides a framework for students to explore this exciting terrain combining Narrative Theory and an Action Systems framework It includes empirically tested models for Offender Profiling and guidance for investigations as well as an agenda for research in Investigative Psychology Investigative Psychology features The full range of crimes from fraud to terrorism including burglary serial killing arson rape and organised crime Important methodologies including multi dimensional scaling and the Radex approach as well as Social Network Analysis Geographical Offender Profiling supported by detailed analysis of the underlying psychological processes that make this such a valuable investigative decision support tool The full range of investigative activities including effective information collection detecting deception and the development of decision support systems In effect this text introduces an exciting new paradigm for a wide range of psychological contributions to all forms of investigation within and outside of law enforcement Each chapter has actual cases and quotations from offenders and ends with questions for discussion and research making this a valuable text for undergraduate and postgraduate courses in Applied and Forensic Psychology Criminology Socio Legal Studies and related disciplines **Shadow Sites** Kitty Hauser, 2007-03-29 At certain times of the day at sunrise and sunset the outlines of prehistoric fields barrows and hill forts in the British landscape may be thrown into relief Such shadow sites best seen from above and captured by an airborne camera are both examples of and metaphors for a particular way of seeing the landscape At a time of rapid modernisation and urbanisation in mid twentieth century Britain an archaeological vision of the British landscape reassured and enchanted a number of writers artists photographers and film makers From John Piper Eric Ravilious and Shell guide books to photographs of bomb damage aerial archaeology and The Wizard of Oz Kitty Hauser delves into evocative interpretations of the landscape and looks at the affinities between photography as a medium to capture traces of the past as well as their absence
