Sir William Dawson A Life In Science And Religion:

Sir William Dawson, a Life in Science and Religion Charles F. O'Brien, 1971 **John William Dawson** Susan Sheets-Pyenson, 1996 In the first full length biography of John William Dawson 1820-1899 eminent scientist and principal of McGill University Susan Sheets Pyenson highlights the extraordinary scope of Dawson's educational and scientific career and his commitment to science, rationality and the advancement of knowledge *A Disciplined Intelligence* A. B. McKillop, 2001 This highly original contribution to Canadian intellectual history examines the course of critical inquiry and its relationship to the assertion of moral authority in English Canadian thought during the Victorian era *The Americanization of the Apocalypse* Donald Harman Akenson, 2023 In *The Americanization of the Apocalypse: Creating America's Own Bible* Donald Harman Akenson examines the creation and spread of Dispensationalism, a belief system that produced The Scofield Reference Bible, the ur-text of American apocalyptic evangelicalism *The Regenerators, 2nd Edition* Ramsay Cook, 2016-01-01 A crisis of faith confronted many Canadian Protestants in the late nineteenth century. With their religious beliefs challenged by the new biological sciences and historical criticism of the Bible, they turned from personal salvation to the dire social problems of the industrial age. *The Regenerators* explores the nature of social criticism in this era and its complex ties to the religious thinking of the day, showing how the path blazed by nineteenth-century religious liberals led not to the Kingdom of God on earth but ironically to the secular city. The winner of the Governor General's Literary Award for Non-Fiction when it was first published in 1985, *The Regenerators* became an instant classic for its fascinating portraits of evolutionists, rationalists, spiritualists, socialists, and free thinkers before the turn of the century. This new edition features an introduction by historian and biographer Donald Wright *Sir William C. Macdonald* William Fong, 2007-08-24 Born into a prominent Scottish family on Prince Edward Island, Macdonald rejected his Catholic upbringing and left home when he was eighteen. After three years in Boston as a bookkeeper, he headed to Montreal and began to work as a commission agent. By 1868, Macdonald had become the leading manufacturer of chewing tobacco in Canada, and by 1885 he may have been the richest person in the country *Four Treatises for the Reconsideration of the History of Science* Fabio Farina, 2003 Was Isaac Newton considered by many to be the most important scientist of all time, actually a mystical occultist? Was Galileo often viewed as science's greatest voice of reason, to blame for his conflict with the Catholic Church? *Four Treatises for the Reconsideration of the History of Science* examines these and other momentous episodes in the history of science by shedding light on some of the more prevalent misconceptions regarding our views concerning the genesis of science. Historian and freelance writer Fabio J. A. Farina provides an excellent academic introduction to four important case studies necessary for understanding the historical contexts that have influenced science. His arguments show that there is a far more complex interplay of issues, ideologies, and philosophies rather than the simple rationalist evolution as many may view it today. The many interesting concepts and viewpoints presented in this small yet invaluable collection will undoubtedly fuel interest.
