Eric Friginal, Jack Hardy

Small Talk Social Function A Special Issues Of Research On Language And Social Interaction 36:

Variational Pragmatics Klaus P. Schneider, Anne Barron, 2008-05-13 This collection of papers is designed to establish variational pragmatics This new field is situated at the interface of pragmatics and dialectology and aims at systematically investigating the effect of macro social pragmatic variation on language in action As such it challenges the widespread assumption in the area of pragmatics that language communities are homogeneous and also addresses the current research gap in sociolinguistics for variation on the pragmatic level The introductory chapter establishes the rationale for studying variational pragmatics as a separate field of inquiry systematically sketches the broader theoretical framework and presents a framework for further analysis The papers which follow are located within this framework They present empirical variational pragmatic research focusing on regional varieties of pluricentric languages Speech acts and other discourse phenomena are addressed and analysed in a number of regional varieties of Dutch English French German and Spanish The seminal nature of this volume its empirical orientation and the extensive bibliography make this book of interest to both researchers and students in pragmatics and sociolinguistics

Cognitive Sociolinguistics Martin Pütz, Justyna A. Robinson, Monika Reif, 2014-05-15 This volume is intended to be a contribution to the rapidly growing field of research into Cognitive Sociolinguistics which draws on the convergence of methods and theoretical frameworks typically associated with Cognitive Linguistics and Sociolinguistics The papers in this volume written by internationally renowned scholars in the fields of sociolinguistics e g Labov and cognitive sociolinguistics seek to explore and systematize the key theoretical and epistemological bases for the emergence of this socio cognitive paradigm More specifically the papers originally published in Review of Cognitive Linguistics 10 2 2012 focus on terms and concepts which are foundational to the discussion of Cognitive Sociolinguistics such as the role of cognition in the sociolinguistic enterprise the social recontextualization of cognition variability in cognitive systems usage based conceptions of language pragmatic variation and cultural models of thought cultural conceptualizations and lexicography as well as cognitive processing models and perceptual dialectology All the papers are anchored in instrumental empirical data analysis The volume provides a welcome contribution to the field for anyone interested in Cognitive Linguistics and its new developments The seven papers included in this book were originally presented at the 34th International LAUD Symposium on Cognitive Sociolinguistics which took place in March 2010 at the University of Koblenz Landau Germany

The Interactional Organization of Academic Talk Holger Limberg, 2010 This book provides interesting and critical insights into a common university practice the academic office hour Office hours are a discursive site for a variety of different issues ranging from administrative matters to course related and study related concerns The study offers both an ethnographic account of this speech event within the socio cultural context of a German university as well as a more detailed analysis of the interactional organization of academic consultations It draws on natural recordings of entire office hour interactions in order to show how participants actions at different stages of the talk organize

and accomplish the consultation The analytical focus is set on the sequential activities teachers and students engage in as they conduct a consultation This includes for instance how participants open an office hour talk how they establish an agenda how they manage advice giving and how they close the consultation As such this book will be of practical use to students and faculty members as well as scholars from different disciplines who work in the areas of institutional talk and talk in interaction

Linguistics for Pragmatics provides a practical and comprehensive introduction to the growing field of corpus pragmatics. Taking a hands-on approach to showcase the applications of corpora in the exploration of core topics within pragmatics, this book covers six key areas of corpus pragmatic research including speech acts, deixis, pragmatic markers, evaluation, conversational structure, and multimodality. It demonstrates the use of freely available corpora, corpus interfaces, and corpus analysis tools to conduct original pragmatic analyses. This is accompanied by an e-resource which hosts multimodal data sets for additional exercises. Featuring case studies and practical tasks within each chapter, *Corpus Linguistics for Pragmatics* is an essential guide for students and researchers studying or conducting their own corpus-based research in pragmatics.

Thinking Globally, Composing Locally Rich Rice, Kirk St. Amant, 2018-05-01. *Thinking Globally, Composing Locally* explores how writing and its pedagogy should adapt to the ever-expanding environment of international online communication. Communication to a global audience presents a number of new challenges: writers seeking to connect with individuals from many different cultures must rethink their concept of audience; they must also prepare to address friction that may arise from cross-cultural rhetorical situations, variation in available technology, and in access between interlocutors and disparate legal environments. The volume offers a pedagogical framework that addresses three interconnected and overarching objectives: using online media to contact audiences from other cultures to share ideas; presenting ideas in a manner that invites audiences from other cultures to recognize, understand, and convey or act upon them; and composing ideas to connect with global audiences to engage in ongoing and meaningful exchanges via online media. Chapters explore a diverse range of pedagogical techniques including digital notebooks designed to create a space for active dialogic and multicultural inquiry, experience mapping to identify communication disruption points in international customer service, and online forums used in global distance education. *Thinking Globally, Composing Locally* will prove an invaluable resource for instructors seeking to address the many exigencies of online writing situations in global environments. Corpus and Context Svenja Adolphs, 2008-04-25. *Corpus and Context* explores the relationship between corpus linguistics and pragmatics by discussing possible frameworks for analysing utterance function on the basis of spoken corpora. The book articulates the challenges and opportunities associated with a change of focus in corpus research from lexical to functional units, from concordance lines to extended stretches of discourse, and from the purely textual to multi-modal analysis of spoken corpus data. Drawing on a number of spoken corpora, including the five million word Cambridge and Nottingham Corpus of Discourse in English (CANCODE), funded by CUP, a specific speech act function is being explored using different approaches and different levels of analysis. This involves a close analysis of contextual variables in relation to

lexico grammatical and discoursal patterns that emerge from the corpus data as well as a wider discussion of the role of context in spoken corpus research *Exploring the Power of Social Talk in a Foreign Language* Gerrard Mugford, 2023-12-13 This book examines the fundamental interactional dimension to foreign language communication including the establishment development consolidation and maintenance of interpersonal relations It argues that interpersonal language use such as small talk casual conversation and gossip talk is not only key to meaningful and productive communication but that it is an essential dimension with respect to successful foreign language interaction and that engaging in interpersonal language is communicatively valuable and worthwhile in its own right Crucially it explores how teaching and learning can utilise the role of social talk and relational engagement in helping interactants to express voice and convey their own values attitudes and beliefs Finally it develops a critical relational pedagogy focused on language speakers needs objectives and desires Redressing the imbalance between transactional and interactional language teaching and stressing the importance of phatic and relational language use in helping language users achieve their communicative goals it will appeal to researchers postgraduates and scholars in the fields of education and linguistics Corpus-Based Sociolinguistics Eric Friginal, Jack Hardy, 2013-12-17 In the last decade the availability of corpora and the technological advancements of corpus tools have increased dramatically Applied linguists have greater access to data from around the world and in a variety of languages through websites blogs and social networking sites and there is a high level of interest among these scholars in applying corpora and corpus based methods to other research areas particularly sociolinguistics This innovative guidebook presents a systematic in depth account of using corpora in sociolinguistics It introduces and expands the application of corpora and corpus approaches and tools in sociolinguistic research surveys the growing number of studies in corpus based sociolinguistics and provides instructions and options for designing and developing corpus based studies Readers will find practical information on such contemporary topics as workplace registers megacorpora and using the web as a corpus Vignettes case studies discussion questions and activities throughout further enhance students involvement with the material and provide opportunities for hands on practice of the methods discussed Corpus Based Sociolinguistics is a comprehensive and accessible guide a must read for any student or scholar interested in exploring this popular and promising approach to sociolinguistic research *Linguistics and Language Behavior Abstracts*, 2008
