The Heart Of The Pearl Shell The Mythological Dimension Of Foi Sociality:

The Heart of the Pearl Shell ,1988 The Heart of the Pearl Shell James F. Weiner,2023-11-15 For the Foi people who live on the edge of the central highlands of Papua New Guinea the flow of pearl shells is the heart of their social life The pearl shell is the exchange item that mediates the creation of their most important sexual and social roles The Heart of the Pearl Shell analyzes a number of myths of the Foi people elegantly bringing together significant ethnographic materials in a way that has important implications for the development of social theory in anthropology and in Melanesian studies Scholars of semiotic symbolic anthropology and of comparative religion will also share the author s interest in the meaning and role of mythology in Foi culture Instead of relying on orthodox methods of Freudian or structuralist interpretation James Weiner assumes there is a dialectical relationship between the images of Foi myth and the images of the Foi s social world He demonstrates how each set of these images is dependent upon the other for its creation This innovative study locates Foi social meaning in the re creation and attempted solution of the moral dilemmas that are crystallized in mythology and other poetic usages This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 Dealing with Inequality Marilyn Strathern,1987-12-10 This 1987 volume comprises ten essays by anthropologists who interrogate the nature of social inequality between the sexes in societies mostly in Melanesia Emplaced Myth Alan Rumsey,James F. Weiner,2001-01-01 Australia and Papua New Guinea share a number of important social cultural and historical features making a sustained comparison between the two especially productive This situates the ethnography of the two areas within a comparative framework and examines the relationship between indigenous systems of knowledge and place an issue of growing concern to anthropologists The essays demonstrate the manner in which regimes of restricted knowledge serve to protect and augment cultural property and the proprietorship over sites and territory how myths evolve to explain and culturally appropriate important events pertaining to contact between indigenous and Western societies how graphic designs and other culturally important iconic and iconographic processes provide conduits of cross cultural appropriation between indigenous and non indigenous societies in today s multicultural nation states **The Lost Drum** James F. Weiner,1995 A fascinating sophisticated anthropological psychoanalytic consideration of certain Papuan myths that deal with lost or detached objects which although destined to complete the missing parts of persons instead elude their control or incorporate the whole person rather than being reincorporated themselves Like sexual organs they have their own embarrassing powers of extensibility intrude themselves into people s desire swallow other objects organs persons and discourses Introduction Paper edition unseen 19 95 Annotation copyright by Book News Inc Portland OR **Ku Waru** Francesca Merlan,Alan Rumsey,1991-03-29 The highlanders of New Guinea are

renowned for their elaborate systems of ceremonial exchange Although much has been written about them previous accounts have concentrated far less on the conduct of exchange events than on the structure of exchange systems This 1991 book deals centrally with the conduct of particular exchange events and shows through examination of them how larger social structures are reproduced and transformed As part of the emphasis on exchange as social action the book closely examines the oratory that plays a crucial part in the events Basing their study on original fieldwork carried out in the Nebilyer Valley Francesca Merlan and Alan Rumsey focus on an inter related set of large scale compensation payments which arose out of an episode of warfare This book furthers our understanding of the interaction between social structures and historical events and particularly of the crucial role of talk It will be of special interest to anthropologists and linguists Masculinity, Motherhood, and Mockery Eric Kline Silverman, 2001 An important ethnographic analysis of motherhood in one Melanesian society *The Archaeology of People* Alisdair Whittle, 2003-09-02 Alasdair Whittle's new work argues powerfully for the complexity and fluidity of life in the Neolithic through a combination of archaeological and anthropological case studies and current theoretical debate The book ranges from the sixth to the fourth millennium BC and from the Great Hungarian Plain central and western Europe and the Alpine foreland to parts of southern Britain Familiar terms such as individuals agency identity and structure are dealt with but Professor Whittle emphasises that they are too abstract to be truly useful Instead he highlights the multiple dimensions which constituted Neolithic existence the web of daily routines group and individual identities relations with animals and active but varied attitudes to the past The result is a vivid original and perceptive understanding of the early Neolithic which will offer insights to readers at every level *From Primitive to Postcolonial in Melanesia and Anthropology* Bruce Knaft, 2025-10-01 What have anthropologists taught us about Melanesia one of anthropology's most important and intensively studied world regions In this book Professor Bruce Knaft draws together and critically reanalyzes what we know about major features of Melanesian cultural history warfare and politics gender bodily practices and spirituality as discerned from more than a century of academic study *From Primitive to Postcolonial in Melanesia and Anthropology* is arguably the most comprehensive single reassessment of Melanesia as an ethnographic world area to have been published in several decades Written for students as well as professional scholars this work further broadens our understanding by analyzing the history of Melanesian ethnography and relating this history to the larger relationship between Melanesia as a contemporary world area and anthropology as a field of contemporary human study Bruce M Knaft is Professor of Anthropology Emory University and the author of three previous books as well as some thirty journal articles and chapters Knaft's interests span a wide range of issues in the anthropology of Melanesia and he is articulate with general issues of cultural theory and anthropological history *Civil Sociality* Sally Anderson, 2008-04-01 Sally Anderson's book on sport cultural policy and civil sociality in Denmark has been a long time in coming but it's well worth the wait Based on many years of familiarity with Danish society and countless hours of intensive fieldwork Dr

Anderson provides us with a unique anthropological perspective on the process by which state cultural policy actively engages civil society in a quest to shape social relations in the public sphere. The particular domain of policy and social activity is nonschool voluntary sport in its various forms. By definition of course such activity takes place outside the regular Danish school curriculum but it is not for this reason any less educational. Indeed although it is very broadly attended and institutionalized perhaps because Danish after school sport is not compulsory it is all the more compelling for children and youth and therefore more powerful in certain ways. Indeed Dr Anderson has a signal talent for showing us how afterschool sport in Denmark both transmits and produces social knowledge and powerfully shapes social relations.
