Leone Leoni George Sand, 1902 The Sins of the Father Thomas Dixon, 2004-12-17 Today Thomas Dixon is perhaps best known as the author of the best selling early twentieth century trilogy that included the novel *The Clansman* 1905 which provided the core narrative for D W Griffith s groundbreaking and still controversial film *The Birth of a Nation* It was *The Sins of the Father* however that Dixon regarded as the most aesthetically satisfying child of his Ku Klux Klan saga In this novel he telescopes the trilogy s sprawling historical canvas into one tightly scripted narrative A best seller in 1912 the novel s themes of interracial sex and incest outraged many upon its publication Nearly a century later Dixon s work is undergoing a critical reevaluation A new introduction by Steven Weisenburger lends a valuable historical and critical perspective to this important and divisive classic of American literature Thomas Dixon 1864 1946 was born in Shelby North Carolina He is also the author of *The Clansman* and *The Flaming Sword* Steven Weisenburger Mossiker Chair in Humanities at Southern Methodist University is the author of several books including *Modern Medea A Family Story of Slavery and Child murder from the Old South* *The Ante-Nicene Fathers* Alexander Roberts, 1887 **The Oxford History of the Novel in English** Patrick Parrinder, 2011 This series presents a comprehensive global and up to date history of English language prose fiction and written by a international team of scholars dust jacket The Chilean Dictatorship Novel Helene Carol Weldt-Basson, 2025-11-04 A survey of classic literature from Chile born of the repressive Pinochet dictatorship in the seventies Though the civil rights abuses by the Pinochet dictatorship in Chile 1973 1990 were later recognized by reparations and truth commissions the difficult emotions suffered by the victims and their families were often pushed into the background or out of the national conversation entirely In response novelists began writing the feelings experienced during the dictatorship into their books In *The Chilean Dictatorship Novel* Weldt

Basson examines fifteen novels and one testimony written on the topic of dictatorship to illustrate how these Chilean narratives center on affect and emotions. Each chapter focuses on a different emotion: feelings of loss because of a father's abandonment and spatial injustice caused by the neoliberal urbanization of Santiago; despair articulated through tragic romances and affective landscapes; left-wing nostalgia and melancholia communicated through allegory; feelings of abjection caused by torture and betrayal; and the creation of affect through violent events, aggressive child play, and sexual torture. Through a close look at the work of José Donoso, Ariel Dorfman, Diamela Eltit, Carlos Franz, and Nona Fernández among others, Weldt Basson effectively argues that by inspiring emotion and creating empathy within readers, the authors of these books instill a drive in the readers for ongoing social justice advocacy, thereby transforming the process of reading into a platform for future action. Weldt Basson's landmark study will serve as a basis for the future study of Latin American literature for decades to come.

A Man of Many Parts Barbara Rawlinson, 2006. This comprehensive study of George Gissing's short stories and related non-fiction is essential reading for students of nineteenth-century realism. For the first time, readers will be able to follow the development which transformed Gissing's unremarkable early stories into the very individual tales that elevated his work to the vanguard of realistic short fiction. Gissing's American period is notable for its accumulation of themes that were repeatedly refined and adapted for his later work: causality emerging as the dominant voice. On his return to England, shifting political and philosophical beliefs expressed in his non-fiction had a vital impact on his second phase of short fiction, and the part played by realism in the author's short stories and his writings on Charles Dickens added further dimensions to his work as a whole. By the final phase of Gissing's remarkable development, it is evident that his interest in the concept of causality as the major force in his short work had been replaced by a more challenging preoccupation with the human psyche. This introduced philosophical, sociological, and psychological dimensions to Gissing's work that established him in the field of short fiction as a leading exponent of late nineteenth-century realism.
