Sisters in the Sky Adela R. Scharr, 1986 **Sisters in the Sky: The WASP** Adela Riek Scharr, 1986 **Women Military Pilots of World War II** Lois K. Merry, 2014-01-10 More than 2000 women in the United States Great Britain and the Soviet Union flew military airplanes in organized units during World War II yet their stories are largely unknown These pilots ferried aircraft flew targets for ground artillery practice tested airplanes and equipment and many of them flew in combat The women pilots proved that they could manage bombers and fighters as well as their male counterparts and several later remarked that the airplanes didn't care who flew them Topics covered include the training of female pilots how female flight units were developed and structured the hazards of conflict and how these women reintegrated into civilian life following the war *Sisters in the Sky, Vol. II - WASP* Adela Scharr, 1988 *Earning Their Wings* Sarah Parry Myers, 2023-09-14 Established by the Army Air Force in 1943 the Women's Airforce Service Pilots WASP program opened to civilian women with a pilot's license who could afford to pay for their own transportation training and uniforms Despite their highly developed skill set rigorous training and often dangerous work the women of WASP were not granted military status until 1977 denied over three decades of Army Air Force benefits as well as the honor and respect given to male and female World War II veterans of other branches Sarah Parry Myers not only offers a history of this short lived program but considers its long term consequences for the women who participated and subsequent generations of servicewomen and activists Myers shows us how those in the WASP program bonded through their training living together in barracks sharing the dangers of risky flights and struggling to be recognized as military personnel and the friendships they forged lasted well after the Army Air Force dissolved the program Despite the WASP program's short duration its fliers formed activist networks and spent the next thirty years lobbying for recognition as veterans Their efforts were finally recognized when President Jimmy Carter signed a bill into law granting WASP participants retroactive veteran status entitling them to military benefits and burials *Jacqueline Cochran* Rhonda Smith-Daugherty, 2015-03-10 Although Amelia Earhart remains the best known female pilot of the 1930s Jacqueline Cochran stood as the more important aviation pioneer and America's top woman pilot Among her many accomplishments Cochran was the first female aviator to win the Bendix Air Race to fly a bomber to break the speed of sound and to participate in astronaut training This revealing biography explores Cochran's childhood in an impoverished Florida mill town her early career as a pilot and her role in creating and leading the WASPs during World War II It also chronicles her postwar exploits including her participation in the NASA space program her unsuccessful 1956 bid for Congress and her surprising reluctance to crusade for the advancement of women This detailed profile removing Cochran from Earhart's shadow firmly establishes the aviatrix as a pivotal figure in the history of women in aviation and in war

Rhetoric and Resilience Sara Hillin, 2024-10-08 *Rhetoric and Resilience* explores discourse produced about and by the women involved in the World War II era Women Airforce Service Pilots program Aviators such as Jacqueline Cochran and

Nancy Harkness Love provided the initial rhetorical boost to successfully launch the program while countless other pilots such as Cornelia Fort and Barbara Poole wrote to define the significance of the work the WASP were doing. Despite a formidable amount of concrete evidence in her favor, Cochran was unsuccessful in having WASP militarized. After the program's disbandment in 1944, the women of WASP settled back into civilian life but maintained strong rhetorical bonds which served them greatly in the 1970s campaign for veteran status. Using the lenses of both feminist rhetorical theory and classical rhetoric, this book seeks to recover these rhetorics. The chapters illustrate how the women employed a spectrum of strategies carefully designed to provide a fitting response to those both supportive of and hostile to their labor in the arena of military aviation.

Women in the United States Military, 1901-1995, 1996-08-23 The only comprehensive annotated bibliography on women in the U S military from the establishment of the Army Nurse Corps in 1901 to the first deployment of women on combat ships in 1995.

Great Sky Woman Steven Barnes, 2009-03-24 The epic story of how primitive humans without words or machines set in motion civilization's long winding journey to the present. Thirty thousand years ago in the heart of the African continent and in the shadow of Mount Kilimanjaro lived the Ibandi who for generations nurtured their ancient traditions and met survival's daily struggle with quiet faith in their gods. T Cori an abandoned girl and Frog Hopping a boy possessing a gift that is also a curse are two of the Ibandi's chosen ones. Though they live in different encampments, Frog and T Cori are linked through the mysterious medicine woman known as Stillshadow who has sensed in them a destiny apart from others. Through the years and on their separate paths, T Cori's and Frog's fates entwine as an inevitable disaster approaches from the south from the very god they worship. For as long as there have been mountain sky and savannah, there has been a home for the Ibandi. Now in the face of an enemy beyond anything spoken of even in legend, they must ask their god face to face: Do we remain or do we depart?
