Six Strategies For War The Practice Of Effective Leadership:

Six Strategies for War Hsuan-ming Wang,Xuanming Wang,1993 SIX STRATEGIES FOR WAR was highly regarded by rulers of ancient China The six strategies Civil Military Dragon Tiger Leopard Hound each deal with a different subject corresponding plan for success **The Expert Negotiator, 4th Revised Edition** Raymond Saner,2012-05-31 In this book the social scientist and economist Professor Dr Raymond Saner draws on his long years of experience as a negotiation adviser teacher trainer researcher and university lecturer to show that two thirds of negotiation practice is learnable The author treats the different aspects of negotiation practice in a way that is useful to both academics and practitioners such that the general laws and principles gradually become evident as and of themselves **The Expert Negotiator, 4th Edition** Raymond Saner,2012-05-31 Success in negotiation is not a matter of chance but the result of careful planning and specialized skills Some of these skills are inborn others need to be learnt In this book the social scientist and economist Professor Dr Raymond Saner draws on his long years of experience as a negotiation adviser teacher trainer researcher and university lecturer to show that two thirds of negotiation practice is learnable Yet very few people are specifically trained in this everyday task Without sacrificing scientific accuracy Professor Saner offers a highly readable and fascinating guide to the subject In so doing he does not limit himself to the over simplified tips generally put out on successful bargaining in every imaginable situation Rather he treats the different aspects of negotiation practice in a way that is useful to both academics and practitioners such that the general laws and principles gradually become evident as and of themselves The aim of this approach is to reveal the essence of negotiation through the experience of both the author and the reader Such an understanding of the processes involved in negotiation is of far greater practical value than a mere collection of recipes with no discussion of the underlying theory while the most comprehensive treatment of the theory without reference to its application in practice would be only half the story Thus the text is supplemented by a series of illustrative examples and case studies from the business political NGO and international organization arenas plus some seventy figures and tables With all this the author has paid considerable attention to writing a text that is both entertaining to read and rigorous in content

The Expert Negotiator Raymond Saner,2008 Success in negotiation is not a matter of chance but the result of careful planning and specialized skills Some of these skills are inborn others need to be learnt In this book the social scientist and economist Professor Dr Raymond Saner draws on his long years of experience as a negotiation adviser teacher trainer researcher and university lecturer to show that two thirds of negotiation practice is learnable Yet very few people are specifically trained in this everyday task *Origins of Zen* Zhizhong Cai,1990 The 28th Indian Zen Patriarch Bodhidharma made a fateful trip to China in 527 AD The Zen teaching he introduced flourished in a foreign country and reached its Golden Age in Tang China whereas Buddhism was to eventually die out in the land of its birth Orthodox Buddhism was often under attack in imperial China as being an alien philosophy However Zen flowered because it remained down to earth and it

addressed the consciousness common to all humanity regardless of race or culture Tsai Chih Chung takes the origin and development of Zen in China with a light hearted touch which is very much in keeping with the Zen spirit of absolute freedom and unbounded creativity Living Hell Chor Boon Goh,1999
