Rose, 2007 Volume 1 Traces the social issues technological advances and combative encounters of the international naval race from 1890 through WWI as the largest industrial nations U S Great Britain Japan and Germany scrambled to secure global markets and empire using their battleship navies as pawns of power politics Provided by publisher *All Hands*, 1966 **Newsletter**, 1993 *Monthly Newsletter*, 1965 **Surface Warfare**, 1981 NATO's Southern Allies John Chipman, 2004-01-14 This book analyses the internal sources of foreign policy within those NATO states whose primary security concerns lie in the southern area of the Alliance It takes a careful look at foreign and defence policy formulation and assesses the special perspective of each of these countries in turn and the military threats that they face Attention is paid to the role of the military in society especially in the geographically peripheral states as the Alliance seeks to adapt to a possible shift southward of some of its security concerns A full understanding of the politics in each of these states is essential to determine the relative importance of national and Alliance priorities in each country as the tensions between external policies and internal necessities increase The book offers an assessment of evolving security requirements in the southern region and of the capacity of NATO Mediterranean states to deal individually and collectively with the changing situation Political and Strategic Implications of Homeporting in Greece United States.
