Annual Report of the Dept. of Public Works** Chicago (Ill.). Department of Public Works,1899 *Official Congressional Directory* United States. Congress,1921 Includes maps of the U S Congressional districts **Annual Report of the Attorney General for the Year ...** United States. Department of Justice,1929 *John Randolph Haynes* Tom Sitton,1992 For four decades John Randolph Haynes 1853 1937 was in the forefront of social reform crusades and political action in Los Angeles and California with his most important legacies in the fields of direct legislation and public ownership of utilities He

was the individual most responsible for the adoption of the initiative referendum and recall in Los Angeles in 1902 and in California in 1911 His vigilant protection of these measures thereafter and his promotion of direct legislation throughout the nation earned him the title father of direct legislation in California From 1910 until his death Haynes s chief priority was to shape the Los Angeles Department of Water and Power into a glowing example of public ownership of utilities Today LADWP operates the world s largest municipal water and electrical power generation and distribution system continuing to serve the needs of an ever growing region whose extent even Haynes could not have envisaged In many ways Haynes is an enigma He was not a typical progressive having amassed a fortune in his medical practice and in real estate mining and other capitalistic ventures However he spent a large portion of his wealth to promote a form of gradual democratic socialism in the United States Haynes advocated the transformation of the nation s economy and government yet he campaigned for morality laws that limited personal freedom Haynes s motivation was not social status or money both of which he had before his conversion to social reform Nor was it political power he never ran for office except as a temporary freeholder or created a personal political machine His primary motive was a perhaps arrogant yet honest desire to aid in the creation of a more just society by improving the living and working conditions of the less fortunate In one way or another Haynes participated in all the major social and political events that shaped California and Los Angeles in a most dynamic era of their development In a broader sense Haynes s life serves as a yardstick with which to measure other progressives of his time and as a key for understanding the motivation of those idealists who helped shape our present political institutions

The Many Faces of Judge Lynch C. Waldrep,2002-11-08 The U S is the most violent industrialized country in the world and lynching that is murder endorsed by the community may be a key to understanding America s heritage of violence and perhaps point to solutions that can eradicate it While lynchings are predominantly racial in tone and motive Christopher Waldrep s sweeping study of the meaning and uses of lynching from the colonial period to the present reveals that the definition of the term has shifted dramatically over time and that the victims and perpetrators of lynching were as diverse as its many meanings By examining lynching from a comparative and temporal perspective Waldrep teaches us important lessons not only about racial violence in America but about the ways in which communities define and justify crime and the punishment of its criminals

California Disasters, 1812-1899 William B. Seacrest,William B. Seacrest,2006 First person accounts of the major catastrophies of 19th century California **California in the 1930s** Federal Writers' Project,2013-04-23 Alive with the exuberance contradictions and variety of the Golden State this Depression era guide to California is more than 700 pages of information that is as David Kipen writes in his spirited introduction anecdotal opinionated and altogether habit forming Describing the history culture and roadside attractions of the 1930s the WPA Guide to California features some of the very best anonymous literature of its era with writing by luminaries such as San Francisco poet Kenneth Rexroth composer writer hobo Harry Partch and authors Tillie Olsen and Kenneth Patchen **The City of Vines** Thomas Pinney,2017-12-07 The

author of *A History of Wine in America* recounts the beginnings of California's wine trade in the once isolated pueblo now called Los Angeles. Winner of the 2016 California Historical Society Book Award, With incisive analysis and a touch of dry humor, *The City of Vines* chronicles winemaking in Los Angeles from its beginnings in the late eighteenth century through its decline in the 1950s. Thomas Pinney returns the megalopolis to the prickly pear studded lands upon which Mission grapes grew for the production of claret, port, sherry, angelica, and hock. From these rural beginnings, Pinney reconstructs the entire course of winemaking in a sweeping narrative punctuated by accounts of particular enterprises, including Anaheim's foundation as a German winemaking settlement and the undertakings of vintners scrambling for market dominance. Yet Pinney also shows Los Angeles's wine industry to be beholden to the forces that shaped all California under the flags of Spain, Mexico, and the United States: colonial expansion dependent on labor of indigenous peoples, the Gold Rush population boom, transcontinental railroads, rapid urbanization, and Prohibition. This previously untold story uncovers an era when California wine meant Los Angeles wine and reveals the lasting ways in which the wine industry shaped the nascent metropolis.

The Frontier Challenge John G. Clark, 2021-10-29 The story of the westward expansion of this country does not stop with the hardships encountered by travelers on the Mormon Trail, the discomforts endured by early settlers in sod houses, the bravery of the Pony Express riders, the romantic solitude of the cowboys, or the sufferings of the Indians forced to abandon their homes, bleak and alien country. Much has been written about these colorful episodes, and through the courtesy of Hollywood and TV, has been brought into millions of homes in living color. But what happened to the people, including the Indians who survived the great raid on Fort X, the bitter winters and scorching summers spent in primitive housing, the terrible loneliness and lack of communication with eastern kin? What did migrants do when they reached the end of the Mormon Trail? And did the Cherokee's Trail of Tears become a never-ending journey from one relocation to another? How did people develop and accommodate themselves to an environment which was itself constantly altered by an ever-changing society? In these essays, we find that tragedy and joy, victory and defeat, human fulfillment and human degradation are visible in roughly equal proportions in the story of the Americanization of the West: that the goals, both realistic and unrealistic, of one group, society, or culture are frequently pursued only at the expense of other groups; and that the skeletons in the closet of American history abound to a greater extent than a nation convinced of its own virtue is willing to admit. Racism has plagued the nation since its inception, and exploitation of one group by another was sadly a part of the Western frontier. However, there was a freshness and vigor in the history of the West. Young railroads continued to grow, linking productive farms with brawling cities. New businesses and new political parties emerged, all contributing to the growth of the region that Stephen A. Douglas called the adhesive of the Union. These essays do not add up to a complete history of the Trans-Mississippi West; rather, each historian has pursued his own particular research interest, and various topics and settings are presented in this volume. The result is a fascinating collection that serves to illuminate both the tragedies and accomplishments of the westward movement.
