

# TEACHING STYLES

Teaching styles refer to the various methods and approaches that educators use to impart knowledge, skills, and values to their students.

## TYPES

The simplest way to differentiate between teaching styles is to compare student-centered to teacher-centered:

- **Student-centered** teaching focuses on the student and their needs.
- **Teacher-centered** teaching puts the teacher center stage.

## EXAMPLES

- **Facilitator:** a student-centered teacher who observes and supports students as they learn through the use of prompting questions or strategic interventions.
- **Delegator:** a student-centered teacher who delegates task roles to students, who often work in groups to achieve their goals.

**Language Pedagogy** Akira Tajino, 2019-04-05 This volume represents the first attempt in the field of language pedagogy to  
apply a systems approach to issues in English language education In the literature of language education or more specifically  
second or foreign language learning and teaching each topic or issue has often been dealt with independently and been  
treated as an isolated item Taking grammar instruction as an example grammatical items are often taught in a sequential  
step by step manner there has been no road map in which the interrelations between the various items are demonstrated  
This may be one factor that makes it more difficult for students to learn the language organically The topics covered in this  
volume including language acquisition pedagogical grammar and teacher collaboration are viewed from a holistic perspective  
In other words language pedagogy is approached as a dynamic system of interrelations In this way emergent properties are  
expected to manifest This book is recommended for anyone involved in language pedagogy including researchers teachers  
and teacher trainers as well as learners      **Comprehensive Problem-Solving and Skill Development for**
