Communities Today Joseph G. Healey, Jeanne Hinton, 2005 How can churches in America modeling the oldest Christian communities renew themselves from within They can look to examples of thriving small Christian communities within their own country and throughout the world This inspiring book shows what is happening now across six continents to give pastors and lay leaders of every denomination encouragement through useable examples from their counterparts around the world

Effective Small Churches in the Twenty-First Century Carl S. Dudley, 2010-09-01 Dudley's work in Making the Small Church Effective 1978 broke new ground in understanding the dynamics of life in the small congregation In this revised edition Dudley revisits the small church posing new questions reflective of the considerable changes that have swept over small churches in the last two decades Among the most significant recent developments are shifts in institutional loyalty and individual's sense of identity in relation to larger groups and organizations Dudley explores the key components that contribute to a small congregation's sense of unity and that motivate its members to more faithfully live out their faith

Christian Community in History Roger Haight, 2004 E F G H I J K L M N O P Q R S T U V W Y Z Christian Community in History Volume 2 Roger D. Haight, 2005-03-17 Ecclesiology from below as it operates in this work is directed to history it moves through the actual church of history to ecclesiology or to an understanding of the church both as it is and as it should be In the first volume that passage was fairly explicit because comprehensive ecclesiologies in our sense did not exist In this volume ecclesiology itself becomes much more directly the subject matter of the book but without losing sight of concrete history and the degree to which these ecclesiologies are historically conditioned Put somewhat differently the main goal of this comparative ecclesiology is not simply to lay down one after another different ecclesiologies that emerged over the last five hundred years although that describes the book with empirical accuracy Its larger intent is to show the richness vitality and creativity of the whole church as it moves through history adjusting to new times places and cultures
