Everest Media, 2022-06-13T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 I was home for the holidays one night when someone brought up the subject of Frankie Filia my mother's cousin who had come home to visit He was a jazz singer who had left town a lifetime ago for Las Vegas but he had recently decided to retire and come home 2 I knew my grandfather was a mobster but I didn't know the details I didn't want to learn more and I never did I was afraid of what those details might reveal about my family 3 I can't do this I know that at the center of this story is my grandfather a dimly lit figure who had a different life outside of my grandmother's house I know that the research would lead me to the source of her pain 4 I was named after my grandfather who died of a heart attack at the age of 57 I didn't think about him for a year or so after that night at the club until I saw his name on the back of a membership card

edition now features over 220 references to specific scenes in more than 160 sci fi movies and TV episodes spanning over 100 years of cinematic history Designed as the primary text for a college level course this book will appeal to students across the fine arts humanities and hard sciences as well as any reader with an interest in science and science fiction Praise for the first edition This journey from science fiction to science fact provides an engaging and surprisingly approachable read Jen Jenkins Journal of Science Fiction Vol 2 1 September 2017
