Small Town Gun:

Crime and Policing in Rural and Small-Town America Ralph A. Weisheit, David N. Falcone, L. Edward Wells, 2005-09-21 While most researchers see the urban setting as being the only laboratory for studying crime problems throughout the United States Crime and Policing in Rural and Small Town America directly challenges this notion with an authoritative look at crime and the criminal justice system in rural America today The assumption that rural crime is rare and comparable across various communities has led to incompatible theories and irrelevant practices In order to transform this misconception the Third Edition offers a clear outline of the definition of rural and provides a vital argument for why rural and small town crime should be studied more than it is The book also explores the individual nature of issues that emerge in these communities including illegal drug production domestic violence agricultural crimes rural poverty and gangs in addition to the training needs of rural police probation in rural areas and rural jails and prisons Responding to rural crime requires an awareness of its context and how justice is carried out as well as an appreciation of how features vary across rural areas Understanding the relationships among crime geography and culture in the rural setting can reveal useful ideas and implications for crime and justice in communities across the United States *Visiting Small-Town Florida* Bruce A. Hunt, 2015-10-17 This new edition of Bruce Hunt's popular guide reveals the real old time Florida still to be found on the back roads of the Sunshine state in little towns that lure you in with their quaintness and keep you there for a spell with their friendly occupants The towns featured all have a population of less than 10 000 There is an introduction with each town's history Included are museums galleries antiques shops local eateries local fishing holes and unusual and endearing local characters This travelogue and guidebook lets you experience the flavor of Florida's back road burgs and provides directions addresses phone numbers and websites **Practicing Care in Rural Congregations and Communities** Jeanne Hoeft, L. Shannon Jung, Joretta Marshall, 2013-07-01 Pastoral care in rural communities is different from care in other locales Despite these differences rural churches and communities also hold a particular wisdom from which the rest of the church might benefit Small towns and rural areas have particular challenges and in seeking to live out the Christian life in the midst of those local churches have unique and useful insights into what it means to care for one another **Guns in American Society** Gregg Lee Carter, 2012-05-04 Thoroughly updated and greatly expanded from its original edition this three volume set is the go to comprehensive resource on the legal social psychological political and public health aspects of guns in American life The landmark 2002 edition of *Guns in American Society: An Encyclopedia of History Politics Culture and the Law* was acclaimed for helping readers get beyond the sometimes overheated rhetoric and navigate the overwhelming amount of unbiased academic research on gun related issues Now in light of the steady rate of gun violence and several high profile shooting incidents this extraordinary three volume work returns in a timely and thoroughly updated edition With over 100 new entries the latest edition of *Guns in American Society* is the most current resource available on all aspects of the

gun issue including rates of violence gun control gun rights regulations and legislation court decisions pro and anti gun organizations gun ownership hunters and collectors public opinion toward guns and much more With expert contributions from the fields of criminology history law medicine politics and social science it gives students journalists policymakers and researchers a foundation for their own investigations while helping readers of all kinds make decisions as family members potential gun owners and voters

Point Blank Gary Kleck, 2005-03-01 Winner of the 1993 Michael J Hindelang award of the American Society of Criminology By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes over a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however whether most gun debates are worth listening to Not surprisingly such debates generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism Point Blank now in paperback offers logical argument supported by empirical information It confronts fundamental questions head on On its initial publication in 1993 Point Blank won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology Point Blank reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine

Under the Gun Peter H. Rossi, 2017-09-29 In 1978 the Social and Demographic Research Institute of the University of Massachusetts Amherst

received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons crime and violence in the United States The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War the perennial struggle in American political life over what to do if anything about guns about violence and about crime The review and analysis of the available studies consumed the better part of three years the results of this work are contained in this volume The intention of any review is to take stock of the available fund of knowledge in some topical area Under the Gun is no different our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence and those areas or topics about which it seems we need to know a lot more than we do One of our major conclusions can be stated in advance despite the large number of studies that have been done many critically important questions have not been adequately researched and some of them have not been examined at all Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position As a consequence the manifest intent of many studies is to persuade rather than to inform We have tried to approach the topic from a purely agnostic point of view treating as an open question what policies should be enacted with regard to gun or crime control Thus we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide

British Army on the Rampage (B.A.O.R.) Sean Connolly, 2014-02-03 It's the autobiographical novels that tell it how it was warts and all This is what the British Army really got up to in Belize British Army on the Rampage is a down to earth witty account of a humble British soldier on his tour of duty in the Caribbean country of Belize in 1982 It is the first military account of this operational tour detailing how the task was carried out by an individual and a team of lunatics under difficult and sometimes stressful conditions It takes more than training education teamwork and leadership to make it through a squaddie's working day B A O R proves that sometimes it is only with sheer determination camaraderie and a sense of belonging to the military family that pulls soldiers through the difficult times they often face The book is filled with humorous anecdotes including the accidental destruction of the warden's new hut with a grenade launcher the export of frozen tarantulas windsurfing with bull sharks biting the heads off chickens insulting the memory of Bob Marley causing a riot breaking a toe on a frog and the near death experience of a dislocated finger Along with the author's account of this operation B A O R also includes an analysis of the balance between patriotism professionalism and sheer lunacy Humorous and honest it will appeal to serving ex services and veteran armed forces personnel and those who enjoy military history and are interested in the British Army

The Lewiston Shootings Robert Conlin, 2024-07-30 Never again would anyone say It

will never happen here Because it did October 25 2023 was just an ordinary night in Lewiston a small working class city of 37 000 in central Maine Friends and families had gathered to do what they loved to do with the people they wanted to be with at a bowling alley called Just in Time Recreation Center and Schemengees a popular sports bar and restaurant They felt immune from the violent crime that seemed to wrack the rest of the country in a state that the FBI had just named the safest in America Then Robert Card II a deeply paranoid Army Reserve soldier walked into both places with a high powered rifle and opened fire killing 18 people and wounding 13 more He then fled to a third location where according to the evidence and the testimony of his best friend he likely planned to lay in wait and kill his ex co workers when they came to work the next morning The tragedy is that the numerous red flags he had raised in the months before weren t enough to stop him before he carried out his terrible plan A combination of watered down gun control laws and law enforcement and military negligence made sure of that In *THE LEWISTON SHOOTINGS An All American Tragedy* author and award winning journalist Robert Conlin traces the shootings that deeply scarred a community that thought it was the last place on earth where a mass shooting would take place *Be Still!* Gordon C. Stewart,2017-01-06 *Be Still* Departure from Collective Madness echoes the call of the Navajo sage and the psalmist who invited their hearers to stop If we keep going this way we re going to get where we re going and be still Be still and know Like pictures in a photo album taken from a unique lens these essays zoom in on singular moments of time where the world is making headlines drawing attention to the sin of exceptionalism in its national racial religious cultural and species manifestations Informed by Japanese Christian theologian Kosuke Koyama Elie Wiesel Wendell Berry and others the author invites the reader to slow down be still and depart from collective madness before the Navajo sage is right Told in the voice familiar to listeners of *All Things Considered* and Minnesota Public Radio these poetic essays sometimes feel as familiar as an old family photo album but the pictures themselves are taken from a thought provoking angle **Gunlore** Robert Glenn Howard,Eric A. Eliason,2024-08-15 Contributions by Sandra Bartlett Atwood Nathan E Bender London Brickley Eric A Eliason Noah D Eliason Tim Frandy Robert Glenn Howard Jay Mechling Annamarie O'Brien Morel Raymond Summerville Tok Thompson and Megan L Zahay Guns are a ubiquitous part of life in the United States Arguably more pervasive than physical guns is gunlore which refers to the many folklore genres related to firearms Gunlore Firearms Folkways and Communities is the first book to engage with the many narratives rituals folk speech customs art and handicraft encompassed by gunlore Like most expressive cultures gunlore emerges from specific communities Groups with a shared interest around firearms may form for many reasons self protection hunting crime work political or social identity signaling the desire to creatively modify guns and even the resolve to oppose gun use and ownership This collection explores a range of gunlore genres and the gunfolk groups that give rise to them Contributors examine topics that include the fetishization of firearms Moms Who Carry online discussion boards alternative history cosplay survivalist communities gunsmiths and gun craft and more Gun owners and gun enthusiasts in all their varieties are one of the largest

avocational groups in America The essays in Gunlore seek to expand our understanding of these communities by looking at the various roles firearms play have played and can play in our world Gunlore for better or worse is a powerful and pervasive method of self expression In examining the folklore around these controversial and politically charged tools weapons and symbols we can begin to understand aspects of American culture that will remain prominent for the foreseeable future

An Introduction to Statistical Problem Solving in Geography J. Chapman McGrew, Jr., Charles B. Monroe, 2009-04-22

Written for undergraduate geography majors and entry level graduate students with limited backgrounds in statistical analysis and methods McGrew and Monroe provide a comprehensive and understandable introduction to statistical methods in a problem solving framework Engaging examples and problems are drawn from a variety of topical areas in both human and physical geography and are fully integrated into the text Without compromising statistical rigor or oversimplifying the authors stress the importance of written narratives that explain each statistical technique After introducing basic statistical concepts and terminology the authors focus on nonspatial and spatial descriptive statistics They transition to inferential problem solving including probability sampling and estimation before delving deeper into inferential statistics for geographic problem solving The final chapters examine the related techniques of correlation and regression A list of major goals and objectives is included at the end of each chapter allowing students to monitor their own progress and mastery of geographic statistical materials An epilogue offering over 150 geographic situations gives students a chance to figure out which statistical technique should be used for a particular situation **The Southern Rebellion** William August Crafts, 1870

Under the Gun James D. Wright, Peter Henry Rossi, Kathleen Daly, In 1978 the Social and Demographic Research Institute of the University of Massachusetts Amherst received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons crime and violence in the United States The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War the perennial struggle in American political life over what to do if anything about guns about violence and about crime The review and analysis of the available studies consumed the better part of three years the results of this work are contained in this volume The intention of any review is to take stock of the available fund of knowledge in some topical area Under the Gun is no different our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence and those areas or topics about which it seems we need to know a lot more than we do One of our major conclusions can be stated in advance despite the large number of studies that have been done many critically important questions have not been adequately researched and some of them have not been examined at all Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position As a consequence the manifest intent of many studies is to persuade rather than to inform We have tried to approach the topic

from a purely agnostic point of view treating as an open question what policies should be enacted with regard to gun or crime control Thus we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide **The Pennsylvania-Kentucky Rifle** Henry J. Kauffman, 2005-01-01 Read about the rifle that was made in America by gunsmiths who migrated to Lancaster Co Pa from central Europe in the first half of the 18th century This intensive study and exacting research by Kauffman has brought to light a tremendous amount of information on America s first great rifle First printed in 1960 this book has an extensive listing of gunsmiths and the stylized work of the makers Various rifles are identified with many photos and sketches and documentary data 374pp illus index Masthof Press 2005 reprint
