 George Jean Nathan, Henry Louis Mencken, 1925 **Public Libraries in the Smart City** Dale Leorke, Danielle
 Wyatt, 2018-10-10 Far from heralding their demise digital technologies have led to a dramatic transformation of the public
 library Around the world libraries have reinvented themselves as networked hubs community centres innovation labs and
 makerspaces Coupling striking architectural design with attention to ambience and comfort libraries have signaled their
 desire to be seen as both engines of innovation and creative production and hearts of community life This book argues that
 the library's transformation is deeply connected to a broader project of urban redevelopment and the transition to a
 knowledge economy In particular libraries have become entangled in visions of the smart city where densely networked
 ubiquitous connectivity promises urban prosperity built on efficiency innovation and new avenues for civic participation
 Drawing on theoretical analysis and interviews with library professionals policymakers and users this book examines the
 inevitable tensions emerging when a public institution dedicated to universal access to knowledge and a shared public
 culture intersects with the technology driven entrepreneurialist ideals of the smart city **Smart, Resilient and**
Transition Cities Adriana Galderisi, Angela Colucci, 2018-07-17 *Smart Resilient and Transition Cities Emerging Approaches*
and Tools for Climate Sensitive Urban Development starts with a presentation of three widespread Urban Metaphors which
 are gaining increasing attention from urban planners and decision makers Smart City Resilient City and Transition Towns
 being all of them focused on the need for enhancing cities capacities to cope with the multiple and heterogeneous challenges
 threatening contemporary cities and their future development and above all with climate issues Then the Authors provide an
 overview of current large scale and urban strategies to counterbalance climate change so far undertaken in different
 geographical contexts Europe United States China Africa and Australia shedding light on the different approaches on the
 different weights assigned to mitigation and adaptation issues as well as on the main barriers hindering their effectiveness
 and translation into measurable outcomes Opportunities and criticalities arising from the rich sprawled and blurred
 landscape of current strategies and initiatives in the face of climate change pave the way to a discussion on the lessons learnt
 from current initiatives and provide new hints for developing integrated climate strategies capable to guide planners and
 decision makers towards a climate sensitive urban development *Smart Resilient and Transition Cities Emerging Approaches*
and Tools for Climate Sensitive Urban Development merges a scientific approach with a pragmatic one Through a case study
 approach the Authors explore strengths and weaknesses of institutional and informal practices to foreshadow innovative
 paths for an adaptive process of urban governance in the face of climate change The book guides the reader along new
 governance paths characterized by continuous learning and close cooperation and communication among different actors
 and stakeholders and in so doing helps them to overcome current siloed approaches to climate issues Links resilience smart
 growth low carbon urbanism climate friendly cities sustainable development and transition cities being all these concepts

crucial to improve effective climate policies Includes a number of case studies showing how cities different in size geographical cultural and economic contexts are currently dealing with climate issues grasping synergies and commonalities arising from current institutional practices and transition initiatives Provides strategic and operative guidelines to overcome barriers and critical issues emerging from current practices promoting cross sectoral approaches to counterbalance climate change
