Geoff Stray, 2009-05-21 An illustrated encyclopedic overview of the prophecies calendars and theories that indicate the year 2012 is a threshold of great change for humanity Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar's Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks This book offers an extensive study of many modern theories including Terence

McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date Inherit the Holy Mountain Mark Stoll, 2015-04-30 In Inherit the Holy Mountain historian Mark Stoll introduces us to the religious roots of the American environmental movement Religion he shows provided environmentalists both with deeply embedded moral and cultural ways of viewing the world and with content direction and tone for the causes they espoused Stoll discovers that specific denominational origins corresponded with characteristic sets of ideas about nature and the environment as well as distinctive aesthetic reactions to nature as can be seen in key works of art analyzed throughout the book Stoll also provides insight into the possible future of environmentalism in the United States concluding with an examination of the current religious scene and what it portends for the future By debunking the supposed divide between religion and American environmentalism Inherit the Holy Mountain opens up a fundamentally new narrative in environmental studies Gurdjieff and Orage Paul Beekman Taylor, 1969-12-31 A fascinating look at the introduction of the Gurdjieff work into North America and an intimate view of the relationship between G I Gurdjieff and A R Orage the two people most prominently responsible for its migration from Europe Filled with deeply insightful material about these two unique and highly influential men and the nature and origins of the spiritual path that they taught Bibliography Index *Acorns: Windows High-Tide Foghat* Joshua Morris, 2013-01-23 *Acorns* delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around *Transnational Perspectives*, 1988
