The Heritage Of The Brahmins:

The Heritage of the Brahmins Sankaracharya, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work Being Brahmin, Being Modern Ramesh Bairy, 2013-01-11 There is clearly an academic and political obsession with the idea of the Brahmin There is also simultaneously a near complete absence of engagement with the Brahmin as an embodied person or community This book addresses this intriguing paradox by making available a sociological description of the Brahmins in today s Karnataka It pursues three distinct yet enmeshed registers of inquiry the persona of the Brahmin embodied in the agency of the individual Brahmin the organised complexes of action such as the caste association and the public culture of print and finally taking off from a longer yet modern and contemporary history of non Brahminical othering of the Brahmin It argues that we tend to understand the contemporaneity of caste almost exclusively within the twin registers of legitimation contestation and dominance resistance While these facets continue to be salient there is also a need to push out into hitherto neglected dimensions of caste The book focuses attention on the many lives of modern caste its secularisation the subject positions that it offers the equivocations by which persons and communities become subjects of caste their differential investments in the caste self **The Routledge Handbook on Historic Urban Landscapes in the Asia-Pacific** Kapila Silva, 2019-12-23 The Routledge Handbook on Historic Urban Landscapes in the Asia Pacific sheds light onto the balancing act of urban heritage management focusing specifically on the Asia Pacific regions in which this challenge is imminent and in need of effective solutions Urban heritage while being threatened amid myriad forces of global and ecological change provides a vital social cultural and economic asset for regeneration and sustenance of liveability of inhabited urban areas worldwide This six part volume takes a critical look at the concept of Historic Urban Landscapes the approach that UNESCO promotes to achieve holistic management of urban heritage through the lens of issues prospects and experiences of urban regeneration of the selected geo cultural context It further discusses the difficult task that heritage managers encounter in conceptualizing mapping curating and sustaining the plurality poetics and politics of urban heritage of the regions in question The connective thesis that weaves the chapters in this volume together reinforces for readers that the management of urban heritage considers cities as dynamic entities palimpsests of historical memories collages of social diversity territories of contested identities and sites for sustainable liveability Throughout this edited collection chapters argue for recognizing the totality of the eco cultural urban fabric embracing change building social cohesion and initiating strategic socio economic progress in the conservation of Historic Urban Landscapes Containing thirty seven contributions written by leading regional experts and illustrated with over 200 black and white images and tables this volume provides a much needed resource on Historic Urban

Berkwitz,2007 Buddhist chronicles have long been had a central place in the study of Buddhism Scholars however have relied almost exclusively on Pali works that were composed by elites for learned audiences to the neglect of a large number of Buddhist histories written in local languages for popular consumption The Sinhala Thupavamsa composed by Parakama Pandita in thirteenth century Sri Lanka is an important example of a Buddhist chronicle written in the vernacular Sinhala language Furthermore it is among those works that inform public discussion and debate over the place of Buddhism in the Sri Lankan nation state and the role of Buddhist monks in contemporary politics In this book Stephen Berkwitz offers the first complete English translation of the Sinhala Thupavamsa Composed in a literary dialect of Sinhala it contains a richly descriptive account of how Buddhism spread outside of India replete with poetic embellishments and interpolations not found in other accounts of those events Aside from being an important literary work the Sinhala Thupavamsa is a text of considerable historical and religious significance It comprises several narrative strands that relate the life story of the Buddha and the manner in which Buddhist teachings and institutions were established on the island of Sri Lanka in ancient times The central focus of this work concerns the variety of relics associated with the historical Buddha particularly how the relics were acquired and the presumed benefits of venerating them The text also relates the mythological history of the Buddha s previous lives as a bodhisattva and concludes with a prediction about the future Buddha Maitreya Reflection on Buddhist ethics and instruction on the Dharma or the Buddha s teaching are found throughout the work indicating that this historical narrative was meant both to recall the past and give rise to religious practice among contemporary readers and listeners This new translation makes a significant work more widely accessible in the West and adds to our knowledge of how local Buddhist communities imagined and represented their religious and cultural heritages in written works **THE ANNUAL REGISTER, OR A VIEW OF THE HISTORY, POLITICS, AND LITERATURE.** ,1791
